Officer Marcus Moscovicz is a small town policeman with dreams of making it to detective. One fateful night, shots ring out at the surprise birthday party of Great American Novelist Arthur Whitney and the writer is killed...fatally. With the nearest detective an hour away, Marcus jumps at the chance to prove his sleuthing skills—with the help of his silent partner, Lou. But whodunit? Did Dahlia Whitney, Arthur's scene-stealing wife, give him a big finish? Is Barrette Lewis, the prima ballerina, the prime suspect? Did Dr. Griff, the overly-friendly psychiatrist, make a frenemy? Marcus has only a short amount of time to find the killer and make his name before the real detective arrives... and the ice cream melts!

Elementary to advanced activities illustrating techniques appropriate for both adults and children.

The period covered here saw dramatic alterations in the state of the economy; and this account begins with the forming of villages, towns, networks of exchange and the social hierarchy in the ninth and tenth centuries, and ends with the inflation and population rise of the sixteenth century."

A fascinating work of detective history, *The Black Death* traces the causes and far-reaching consequences of this infamous outbreak of plague that spread across the continent of Europe from 1347 to 1351. Drawing on sources as diverse as monastic manuscripts and dendrochronological studies (which measure growth rings in trees), historian Robert S. Gottfried demonstrates how a bacillus transmitted by rat fleas brought on an ecological reign of terror -- killing one European in three, wiping out entire villages and towns, and rocking the foundation of medieval society and civilization.

When British archaeologist Dr. John Farrow disappears in Egypt after announcing that he knows the location of the tomb of Queen Axtarte, Chief Inspector Salahadin El Nur of the Antiquities Protection Department suspects that smugglers are at work. This completely revised, updated, and expanded edition has been necessitated by the many important newer discoveries that have been made since the publication of the first edition. That volume contained almost 2000 references from the 1600s to 1953. Since then and after an extensive search, I have accumulated some 3800 additional titles from the world's literature on Paramecium. After certain titles that largely represented abstracts and preliminary reports that were followed by full research papers were eliminated, approximately 4400 full titles from the 1600s to the present were selected for inclusion in this edition. Most of the titles in the Bibliography are the more recent ones beginning with 1953. I consider the Bibliography an important part of the book: A good title of a paper in a journal is a miniature abstract of its contents. Thus, the reader who may be interested in obtaining additional information not found in the book may refer directly to the original source. A cursory examination of the Bibliography will reveal that paramecium research has extended into all branches of biology, including biochemistry and biophysics. Like other

areas of science, paramecium research has become highly specialized and fragmented. I have attempted to organize and present the basic information in one book. Because of space limitations, some items may have been dealt with briefly. It is in such instances that the Bibliography will be found to be invaluable.

A joke? A prank? Or something more sinister? When the Exham-on-Sea residents are targeted by anonymous emails containing apparently harmless nursery rhymes, no one knows whether to laugh or shudder until an unexplained death touches the town. Libby Forest, baker, chocolatier and Exham's very own resident private investigator, alongside her partner Max Ramshore, set out to solve the puzzle before more people die. But when Max's ex-wife arrives on the scene, ahead of Max and Libby's long-awaited nuptials, things go from bad to worse. With the town and their relationship under threat, Max and Libby need the help of the Exham History Society if they're going to find the nursery rhyme killer in time. Murder at the Gorge is the seventh in a series of Exham-on-Sea Murder Mysteries set at the small English seaside town full of quirky characters, sea air, and gossip. If you love Agatha Christie-style mysteries, cosy crime, clever dogs and cake, then you'll love these intriguing whodunnits. THE EXHAM-ON-SEA MURDER MYSTERIES: 1. Murder at the Lighthouse 2. Murder on the Levels: 3. Murder on the Tor: 4. Murder at the Cathedral 5. Murder at the Bridge 6. Murder at the Castle 7. Murder at the Gorge

This fresh edition of Satish Sekar's classic work brings events up to date as at 2017 and includes matters that the author was prevented from publishing sooner. Among other things it deals with the collapse of the 2011 trial of police officers and others concerning the original miscarriage of justice in this case and in a new Epilogue calls for a Truth and Justice Commission. The author shows how this extreme miscarriage of justice destroyed families, divided communities and undermined confidence in the criminal justice system. The book takes the reader from the sadistic killing of Lynette White in Cardiff in 1988, via the subsequent investigation and trial to the aftermath of the folding of the 2011 trial over 'lost' documents that later materialised. But above all it

deals with the hard scientific facts of the first vindication case of the DNA-age.

Papers in this title were selected from presentations from an April 2005 workshop sponsored by the U.S. Geological Survey Earth Surface Dynamics Program, the U.S. Geological Survey National Cooperative Geologic Mapping Program, and the Smithsonian Institution. Papers are divided into two broad topics of the configuration, areal extent, and temporal development of the chain of interconnected lakes that emptied into Death Valley during periods of the Pleistocene, and the late Cenozoic history of drainage integration in the lower Colorado River region. Papers are occasionally illustrated in both color and black-and-white; the publication contains no index.

This public inquiry report into serious failings in healthcare that took place at the Mid Staffordshire NHS Foundation Trust builds on the first independent report published in February 2010 (ISBN 9780102964394). It further examines the suffering of patients caused by failures by the Trust: there was a failure to listen to its patients and staff or ensure correction of deficiencies. There was also a failure to tackle the insidious negative culture involving poor standards and a disengagement from managerial and leadership responsibilities. These failures are in part a consequence of allowing a focus on reaching national access targets, achieving financial balance and seeking foundation trust status at the cost of delivering acceptable care standards. Further, the checks and balances that operate within the NHS system should have prevented the serious systemic failure that developed at Mid Staffs. The system failed in its primary duty to protect patients and maintain confidence in the healthcare system. This report identifies numerous warning signs that could and should have alerted the system to problems developing at the Trust. It also sets out 290 recommendations grouped around: (i) putting the patient first; (ii) developing a set of fundamental standards, easily understood and accepted by patients; (iii) providing professionally endorsed and evidence-based means of compliance of standards that are understood and adopted by staff; (iv) ensuring openness, transparency and candour throughout system; (v) policing of these standards by the healthcare regulator; (vi) making all those who provide care for patients, properly accountable; (vii) enhancing recruitment, education, training and support of all key contributors to the provision of healthcare; (viii) developing and sharing ever improving means of measuring and understanding the performance of individual professionals, teams, units and provider organisations for the patients, the public, and other stakeholders.

Medieval women faced many of the problems of their modern counterparts in bringing up their families, balancing family and work, and responding to the demands of their communities. Of many women in the period of a thousand years before 1500 we know little or nothing, though their typical ways of life, on farms or in the towns, can be reconstructed with accuracy from a variety of sources. We know more about a far smaller number of elite women, including queens such as Eleanor of Aquitaine and Margaret of Anjou; noblewomen, whose characters

and attitudes can be sensed directly or indirectly; and a variety of religious women. Literary sources help flesh out real attitudes, such as those of Chaucer's Wife of Bath. Jennifer Ward shows the life-cycle of medieval women, from birth, via marriage and child-rearing, to widowhood and death. She also brings out the slow changes in the position of women over a millennium.

This volume examines the effects of religious change on the English way of death between 1480 and 1750. It discusses relatively neglected aspects of the subject such as the death-bed, will-making and the last rites.

A comprehensive survey of the origins, development, and influence of the most important monastic order in the middle ages.

This is a true story of young men who fought and died for their country. It puts the reader behind the stick of a Sopwith Camel from the pilot's point of view. This is volume 1 and volume 2 combined for the ebook edition. Part One of this comprehensive study covers the life of Captain Arthur Roy Brown, who is well-known as an ace fighter pilot. The basic story is told in Brown's own words, via his previously unpublished letters home and the entries in his Pilot's Flying Log Book. Part Two of the book covers Captain Brown's encounter with Manfred von Richthofen, the Red Baron, in detail. In 1995 Alan Bennett toured the site in France where Captain Brown had attacked the Red Baron on 21 April, 1918. As an experienced pilot of similar aircraft, he had grave doubts as to the truth of some parts of the story. The eventual result was a book written in conjunction with Norman Franks: THE RED BARON'S LAST FLIGHT. After plentiful information from readers, Captain Roy Brown's family, and Wop May's son, plus further research in France, a considerably different picture of the entire event and of Roy Brown's life emerged. This new book, Captain Roy Brown, tells the complete definitive story.

Completely revised and updated for this new edition, Benedictow's acclaimed study remains the definitive account of the Black Death and its impact on history. The first edition of The Black Death collected and analysed the many local studies on the disease published in a variety of languages and examined a range of scholarly papers. The medical and epidemiological characteristics of the disease, its geographical origin, its spread across Asia Minor, the Middle East, North Africa and Europe, and the mortality in the countries and regions for which there are satisfactory studies, are clearly presented and thoroughly discussed. The pattern, pace and seasonality of spread revealed through close scrutiny of these studies exactly reflect current medical work and standard studies on the epidemiology of bubonic plague. Benedictow's findings made it clear that the true mortality rate was far higher than had been previously thought. In the

light of those findings, the discussion in the last part of the book showing the Black Death as a turning point in history takes on a new significance. OLE J. BENEDICTOW is Professor of History at the University of Oslo.

The passionate love of Catherine Earnshaw and Heathcliff mirrors the powerful moods of the Yorkshire Moors  
Bristol takes place in Northern California, days prior to the start of the American Civil War. It has treachery and murder on the high seas, pirates, Dragoon soldiers, undercover operatives, private militias and secret organizations. Orphaned at a young age and although white skinned, Kern was raised by Native Aboriginals in the Australian Outback. After a Whiteman hunting party murdered his Clan, he was forced to kill a crooked peace officer in self-defense. Fleeing Australia, he took a job as a cabin boy onboard a Tea Clipper. As the Lady Beth sails for the Americas, he befriends a passenger named Carl Ver Haven. Days before starting an undercover assignment in San Francisco, Lieutenant Crisp boarded the Lady Beth to search for a missing US Diplomat. Captain La Horn claimed that Carl Ver Haven was lost at sea during a storm. Suspecting foul play, Crisp rescued a recently injured boy and dog locked-away inside the dark-holds of the ship. Complicating matters, French and British governments put a price on Kern's head – Dead or Alive for Murder... As the nation stumbles headlong into the abyss of Civil War back East, Crisp and his men have their hands full in the West. While probing the possible murder of US Diplomat Carl Ver Haven, Crisp and his men started their undercover assignment investigating a wealthy rancher - Clifford Ackerland. Ackerland is running for political office and pushing for California to secede from the Union, and he has possible ties with a rumored private militia. If that wasn't enough, Police Chief Crivitz drags Crisp and his team into hunting for a hammer yielding serial killer! Caught in the middle of it all, a deaf boy named Kern on the run from murder charges in Australia, and a dog named Bristol intended as a gift for President Lincoln from the Emperor of China.

"Blue Murder is an absolute cracker, as ingenious as it is riotously funny" (Daily Telegraph) Blue Murder opens with Foreign Bodies, where Swinging London meets bourgeois Shrewsbury and the drinks are laced with cyanide. As the son of the household struggles to write his first play, a murder story is offered to him on a plate. The second half, A Game of Soldiers, is a Whitehall farce taking place in St James's Palace. The same dramatist has brought his complete play to be censored but The Lord Chamberlain's Men have a few shameful secrets of their own to hide, including a priapic guardsman.

In the early 19th century, Cuba emerged as the world's largest producer of sugar and the United States its most important buyer. Barely documented today, there was a close commercial relationship between Cuba and the Rhode Island coastal town of Bristol. The citizens of Bristol were heavily involved in the slavery trade and owned sugarcane plantations in Cuba and also served as staff workers at these facilities. Available in print for the first time is a diary that sheds light on this connection. Mr. George Howe, Esquire (1791–1837), documented his tasks at a Bristolian-owned plantation called New Hope, which was owned by well-known

Bristol merchant, slave trader, and US senator James DeWolf (1764–1837). Howe expressed mixed personal feelings about local slavery work practices. He felt lucky to be employed and was determined to do his job well, in spite of the harsh conditions operating at New Hope, but he also struggled with his personal feelings regarding slavery. Though an oppressive system, it was at the core of New Hope's financial success and, therefore, Howe's well-being as an employee. This book examines Howe's diary entries in the thematic context of the local Costumbrista literary production. Costumbrismo both documented local customs and critically analyzed social ills. In his letters to relatives and friends Howe depicted a more personal reaction to the underpinnings of slavery practices, a reaction reflecting early abolitionist sentiments.
