underutilization of resources productive to developing countries and to the maintenance of economic imbalance. This volume demonstrates the need for a systematic attack on the acute problems of poverty and underdevelopment. It provides background information and data for those directly involved in the formulation of development theory and the implementation of development policy. The theory developed and practical experience discussed in these essays provide valuable perspectives on the continuing efforts to realign the international economic order.

This book is carefully designed and correlated to the thirteen telecourse video programs to enrich your understanding of economic principles.

Annotation "We've all heard the term, but what exactly is globalization? In his new book, *Globalization and America since 1945*, D. Clayton Brown provides a brief, jargon-free and easy-to-understand overview of this important issue. This volume examines how the United"
