The recent financial crisis has troubled the US, Europe, and beyond, and is indicative of the integrated world in which we live. Today, transactions take place with the use of foreign currencies, and their values affect the nations' economies and their citizens' welfare. Exchange Rates and International Financial Economics provides readers with the historic, theoretical, and practical knowledge of these relative prices among currencies. While much of the previous work on the topic has been simply descriptive or theoretical, Kallianiotis gives a unique and intimate understanding of international exchange rates and their place in an increasingly globalized world. A new study guide, written by Jeff Madura and Oliver Schnusenberg, now accompanies the text. This study guide focuses on helping students test their knowledge of the material. It simulates text questions for key terms and key concepts, with numerous matching, multiple choice, and true/false questions for every chapter.

This book provides students with a balanced perspective on business in a global environment, exploring implications for multinational companies in developed and emerging markets. This is the first text of its kind to emphasize strategic decision making as the cornerstone of its approach while focusing on emerging markets. Traditional topics, like foreign exchange markets and global competition, are contrasted with emerging operations, like Chinese market intervention and Islamic finance, to provide students with an understanding of successful business strategy. Readers learn to develop and implement these strategies across cultures, and across economic, legal, and religious institutions, in order to cope with competitive players in the global landscape. Application-based chapters open with reading goals and conclude with case studies and discussion questions to encourage a practical understanding of strategy. With in-depth analyses and recommended strategies, this edition provides students of international business with the skills they need for success on the global stage.
