Prelude I do not know who planned the assassination, nor who fired the shots. But I am convinced there was a conspiracy. This book is about "JFK Last Day in Texas (New Evidence)" and his visit to Texas. John Fitzgerald Kennedy, the thirty-fifth President of the United States, was assassinated at 12:30 pm Central Standard Time on Friday, November 22, 1963, in Dealey Plaza, Dallas, Texas. Kennedy was fatally shot while traveling with his wife Jacqueline, Texas Governor John Connally, and the latter's wife, Nellie, in a Presidential Motorcade. The ten-month investigation of the Warren Commission of 1963-1964 concluded that the President was assassinated by Lee Harvey Oswald acting alone and that Jack Ruby acted alone when he killed Oswald before he could stand Trial. These conclusions were initially supported by the American public; however, polls conducted from 1966 to 2004 found that as many as 80 percent of Americans have suspected that there was a plot or cover-up. Contrary to the Warren Commission, the United States House Select Committee on Assassinations (HSCA) in 1979 concluded that President John F. Kennedy was probably assassinated as a result of a conspiracy. The HSCA found both the original FBI investigation and the Warren Commission Report to be seriously flawed. While agreeing with the Commission that Oswald fired all the shots which caused the wounds to Kennedy and Governor Connally, it stated that there were at least four shots fired and that there

was a "high probability" that two gunmen fired at the President. No gunmen or groups involved in the conspiracy were identified by the committee, but the CIA, Soviet Union, Organized Crime and several other groups were said to be not involved, based on available evidence. The assassination is still the subject of widespread debate and has spawned numerous conspiracy theories and alternative scenarios. Perhaps the same could be said of Dallas itself, which, through preserving its tarnished moment in American History, has done its part to ensure President John F. Kennedy and his legacy will not be forgotten. Dealey Plaza went over a complete renovation in the first quarter of 2013 in celebration of the 50th anniversary of JFK Last Day in Texas. 'Immersively written . . . A powerful historical précis' Janet Maslin, *The New York Times* *JFK and the End of America* is the culmination of Tim Fleming's 50 years of research into the Kennedy assassination. The book makes the case that Lee Harvey Oswald did not kill the president. Rather, an elaborate plot, concocted and executed by a sinister, covert cabal, took Kennedy's life. The plotters who stood to gain the most from JFK's death – Lyndon Johnson and Allen Dulles – were abetted by powerful interests in government, business, and the military. Kennedy was moving America toward a permanent peace state, threatening the national security/military establishment whose existence is dependent on a permanent war state. Since 1963, we have been at war or under a threat of war, spending nearly six of every ten tax dollars on defense. It is vital to expose the truth of who killed Kennedy and why, if we are to understand the real history of America since 1963. Fleming draws a straight line from Dallas to the political and cultural divide that afflicts us today.

Professor Gibson peels away layers of the JFK assassination conspiracy and cover-up. An effectively researched and probing analysis of America's most important solved murder.

Just before beginning his first term on January 20, 1993, President-Elect Clinton made a very strange request to close family friend and lawyer Webster Hubbell: "If I put you over there in justice I want you to find the answer to two questions for me: One, who killed JFK. And two, are there UFOs." According to Hubbell, "Clinton was dead serious." The key to unlocking the mystery of President Kennedy's assassination and a possible UFO connection lie in events that occurred 18 years earlier in post-war Germany. In 1945 John F. Kennedy was a guest of Navy Secretary James Forrestal, where he personally witnessed technological secrets that have still not been disclosed to the world. These secrets stemmed from extraterrestrial technologies that Nazi Germany had acquired and were attempting to use in their weapons programs. In searching for answers to who killed President Kennedy we need to start with the death of his mentor, James Forrestal in 1949. Forrestal became the first Secretary of Defense in 1947, a position he held until March, 1949. Forrestal was a visionary who thought Americans had a right to know about the existence of extraterrestrial life and technologies. Forrestal was sacked by President Truman because he was revealing the truth to various officials, including Kennedy who was a Congressman at the time. Forrestal's ideals and vision inspired Kennedy, and laid the seed for what would happen 12 years later. After winning the 1960 Presidential election, Kennedy learned a shocking truth from President Eisenhower. The control group set up to run highly classified extraterrestrial technologies, the Majestic-12 Group, had become a rogue government agency. Eisenhower warned Kennedy that MJ-12 had to be reined in. It posed a direct threat to American liberties and democratic processes. Kennedy followed Eisenhower's advice, and set out to realize James Forrestal's vision. The same forces that orchestrated Forrestal's death, opposed Kennedy's efforts at every turn. When Kennedy was on the verge of succeeding, by forcing the CIA to share classified UFO information with other government agencies on November 12, 1963, he was assassinated ten days later. *Kennedy's Last Stand* is the story of how an American President tried to realize his friend and mentor's vision of a world where humanity openly knows about extraterrestrial life; and of the government officials responsible for denying that vision.
