achieve that so that individuals, communities, and the environment all come out winners. This transdisciplinary text presents principles of sustainability, develops environmental literacy, and expands awareness of sustainable practices that will steer readers toward a lifestyle that they, as well as the entire planet, will benefit from. Author Richard Jurin, an expert in sustainable living, has written numerous publications on sustainable development, business leadership for sustainability, and related issues. He takes students beyond sustainability's traditional "triple bottom line" of people, profit, and planet to a quadruple paradigm that includes economic, sociocultural, psychological, and ecological aspects of sustainability. This text is supported by its own website, which includes an instructor guide, test package, study guide, and presentation package. The book's 36 illustrations and tables are all included in the presentation package. The text offers

- principles of sustainability that support a range of university courses in multiple disciplines;
- a systems approach to sustainability that reflects worldwide views and values;
- case studies, personal reflections, and applications that help students understand their status and the challenges of the future; and
- guidelines for developing sustainable living through daily choices.

The book explores the mind-sets that have created the modern, consumer-based world we live in, exposing environmental and societal global problems as it does; lays out new ways of thinking, championing sustainable thinking as a prerequisite for living a healthy, happy, vibrant life that benefits the planet; and details positive options for living a sustainable lifestyle. Readers will be able to understand sustainability from a broad perspective—how it can improve their lives, resolve environmental problems, and improve the condition of the planet for all life. I stare at the newspaper article about a baby snatched from the back of a car thirty years ago, and wonder why someone would post it through my door. Looking closer, my blood freezes. The little girl in the photo has an unusual scar – just like mine. I've never met anyone with one like it. Is this stolen child... me? Trembling with shock, I know I have to confront my mother. My parents got me through a horrific accident, helped me find a job I love, teaching art, and even with buying my own house. But was it all built on lies? She tells me the day I was born was the best day of her life, and I'm flooded with guilt for questioning her – but why do I catch her burning papers in the garden the next day? Then I come home to find a woman sitting on my doorstep, covered in bruises and claiming she knows who abducted me. I don't know if I can trust her – or if I'll be the next to get hurt. Because all the while, I've been hiding my own secret. Does whoever sent the article know what really happened the day of my accident? Desperate for the truth, I break into the house of my supposed kidnapper. Inside, I find a handwritten list of names. A shiver goes down my spine as I realise I wasn't the only child to be stolen. Then I hear a key in the lock, and I know my life is in terrible danger... An absolutely addictive read that will have you racing through the pages and questioning everything you thought you knew about your family.
