The fourth edition of this informative, accessible and intellectually engaging teacher training book provides a definitive guide for trainee and newly qualified secondary school teachers and their mentors. The book has been fully updated to reflect the many changes in policy and practice, including developments in the national curriculum, PSHEE and SEN provision. The latest edition covers topics such as how pupils learn, assessment, planning classroom communication and developing positive approaches to pupil behaviour. The wide range of specialist contributors, each bringing extensive first-hand experience of teaching, covers the core professional skills and concepts that new secondary school teachers need to acquire, irrespective of their subject specialism or training route, while the following key features of the book are: • Examples and illustrations from real classroom practice. • Details of current research. • Activities, case studies and scenarios. Ian Abbott, Associate Professor; Prue Huddleston, Emeritus Professor; and David Middlewood, Research Fellow, are all based at the University of Warwick's Centre for Education Studies, UK.

This book introduces trainee secondary school teachers to a range of key professional issues, knowledge to underpin their course.

"A Practical Guide to Teaching English in the Secondary School offers straightforward advice, inspiration and support for all training and newly qualified secondary English teachers. Based on the best research and practice available, it offers a wide range of tried and tested strategies and practical activities to ensure success in the secondary classroom. Packed with photocopiable resources and illustrated throughout with examples of good practice and samples of pupils' work, the Practical Guide covers key aspects of English teaching, including: - Effective lesson planning and pupil progress - Getting started with drama - Teaching poetry successfully and enjoyably - Media education and media studies - an introduction to the curriculum and designing schemes of work - Teaching English language - Choosing and using fiction for all ages - English

literature at A Level - Opportunities for ICT in English - Planning meaningful assessment. A Practical Guide to Teaching English in the Secondary School is an essential companion to the best selling Learning to Teach English in the Secondary School. Written by expert professionals, it provides detailed examples of theory in practice, enabling you to analyse and reflect on your own teaching in order to ensure pupil learning is maximised. Providing a combination of practical ideas, educational rationales and activities to stimulate personal thought and development, this book explores a wide range of issues pertinent to the teaching and learning of English in the 21st century"--

Indexes the Times and its supplements.

"SA " must read" not only for trainees but for all those concerned about the development of teaching as a profession. Journal of Inservice Education "The contributors to this volume " all experienced and highly regarded educators in their own right " have produced a wide-ranging, up-to-date and research-based introduction to the whole gamut of professional topics and issues with which beginning teachers need to be familiar if they are to develop into accomplished practitioners. This is a " must read" for all who are serious about learning to teach in secondary schools and aspire to become informed professionals equipped to make a difference through enhancing the life chances of young people." - Professor Michael S. Totterdell, Director, Institute of Education, Manchester Metropolitan University "An excellent introduction to all of the core professional issues that trainee teachers need to address during their training" a first port of call for all student teachers keen to understand the challenges involved in becoming a professional teacher in today's schools. Professor John Furlong, Director, Department of Educational Studies, Oxford University Preparing to Teach in Secondary Schools is key reading for all trainee secondary school teachers. It covers the range of core professional skills that student teachers need to acquire irrespective of their subject specialism or their training route. It also considers recent developments in teaching, exploring the opportunities and challenges they present for those about to enter the profession. Topics covered include: Relationships with paraprofessionals and other adults in the classroom New opportunities created by technological advances New thinking on teachers' professionalism and teacher leadership Data-rich approaches to managing school and pupil performance Assessment for learning Government reforms and initiatives. Preparing to Teach in Secondary Schools is also suitable for use by newly qualified teachers to support their early professional development. The book encourages readers to engage with ideas presented in the book, and offers students: An interactive approach " Chapters start with a
