So you won't just be able to use it when you're traveling to Germany, but if you go to Switzerland for a skiing vacation, you'll be in good company. Simple Language – Unlike other languages like Italian, Spanish and French, which are romantic languages, German belongs to the same Germanic language tree as English, making it surprisingly easier to learn than most people may think. There are even German words that are used in English to this day such as "angst" and "kindergarten." Not only that but once you learn German, if you want to learn another language such as Danish, Dutch, Norwegian or Swedish, it will make it a lot easier. Do you still need more convincing to pick up the German language? There are just a ton of advantages to knowing German. The "5-Day German Language Challenge" will open up that whole new world for you to enrich your life faster than you may ever know possible.

Doing well on the SAT should primarily be about how hard a student is willing to work. This idea is a foundation that Learning to Speak SAT was built upon. LTSS is every fact, pattern, and strategy worth knowing about the SAT. Contents of LTSS are subdivided into areas that "Must" be memorized, areas that all students "Should Try" to memorize, and areas that some students "Choose" to memorize. Therefore, a student who is targeting a set score can feel powerful knowing what he needs to know and knowing what he can afford to not stress over. A different student, who is trying to push to the highest possible score, has everything laid out to review and learn. Students working with LTSS also have access to consistent practice via the Questions of the Week (available online). Each question is written by Chris Cho himself as are the detailed explanations that include cross-reference pages to direct students back to the book.

This indispensable resource, for teachers of pupils aged 7-13 years, consists of a series of graduated lesson plans aimed at improving children's speaking and listening skills, their self-confidence and their motivation to learn, ultimately leading to better school performance. The scheme was developed and tested in schools during a four year period with over three thousand children and their teachers, and focuses on class and group activities that are enjoyable as well as instructive. All pupils are able to participate regardless of background, academic standing or facility in English, and the skills acquired are central to the National Curriculum for England and Wales Key Stages 2 and 3. Each lesson worksheet includes learning objectives, guidance on preparation and organisation, an activity guide, and follow-up suggestions, all presented in a clear and simple manner to lead the teacher step by step through the session. The materials are grouped into four levels of difficulty which combine to build a powerful range of abilities associated with persuasive and presentational speech, dialogue and debate, as well as developing the children's command, use, and articulation of English. Each level consists of twelve starter lessons suitable for class-based group work, with sections preparing pupils for a variety of class competitions including public speaking, poetry reading and debating. The activities link naturally with other areas of the curriculum, and topics already being studied can easily be incorporated. In a parallel controlled research project highly significant gains in a nationally standardised test of non-verbal reasoning were made over a seven month period by children who followed the activities for one lesson a week compared to those who did not. These were well in excess of what would be expected for their increased age. Particularly high gains were made by children of lesser ability and those for whom English was an additional language. The improvements recorded were later confirmed by the schools' own National Curriculum assessments of progress against targets, where on average the project children exceeded substantially the end of year forecasts made by their teachers.
