Meredith Ray shows that women were at the vanguard of empirical culture during the Scientific Revolution. They experimented with medicine and alchemy at home and in court, debated cosmological discoveries in salons and academies, and in their writings used their knowledge of natural philosophy to argue for women's intellectual equality to men.

Crammed with comic capers to try out on unsuspecting victims, and side-splitters to share, this ring-binder is a mix of practical pranks and wisecracks. Readers can depress the laughter button on the front for a tide of titters to accompany their tale telling. Three leaves of stickers and two funny photoframes are included. The jokers journal section contains 365 jokes - one for each day of the year and a space to fill with diary dates.

biology; genetic networks; protein-protein networks; transport networks; synthetic biology; cellular (in vivo) computing; and computations beyond the Turing model and philosophical aspects of computing.

Les Fleurs du mal, Charles Baudelaire's masterpiece, takes pride of place in this new bilingual edition, with Francis Scarfe's elegant prose versions for support. All of Baudelaire's other collections, occasional and juvenile verse are included. Scarfe's introduction on the man, his circle, and poetry is an ideal entry-point for new readers. Corruption undermines the market and challenges government legitimacy. Its hidden character, however, makes it troublesome to study empirically. *Corrupt Exchanges* seeks to overcome this difficulty using the tools of economics and political science. The papers, presented at the Zentrum for Interdisziplinäre Forschung in Bielefeld, Germany, in 2001, begin a dialogue across disciplinary lines. The contributors are a first-rate group of scholars using diverse techniques, both qualitative and quantitative. Their work demonstrates that, with patience and creativity, the empirical study of corruption is possible and can contribute to the policy debate. One group of papers deals with high-level political corruption especially involving Member States of the European Union. The second group focuses on bureaucratic corruption in developing and transition countries. The papers study particular instances and types of corruption and suggest solutions. This book will interest to those concerned with limiting corruption worldwide, including the business and the nonprofit communities and international aid

and lending organizations. The editors are internationally recognized experts in the study of corruption. Donatella Della Porta is Professor of Political Science at the University of Florence and the author (with Alberto Vannucci) of *Corrupt Exchanges* (1999). Susan Rose-Ackerman is Professor of Law and Political Science at Yale University and the author of *Corruption and Government* (1999).

A “meticulous history” of the classic suspense film based on exclusive interviews with the director, writers, cast, and crew (*The New York Times Book Review*). First released in June 1960, *Psycho* altered the landscape of horror films forever. But just as compelling as the movie itself is the story behind it, which has been adapted as a movie starring Anthony Hopkins as Hitchcock, Helen Mirren as his wife Alma Reville, and Scarlett Johansson as Janet Leigh. Stephen Rebello brings to life the creation of one of Hollywood’s most iconic films, from the story of Wisconsin murderer Ed Gein, the real-life inspiration for the character of Norman Bates, to Hitchcock’s groundbreaking achievements in cinematography, sound, editing, and promotion. Packed with captivating insights from the film’s stars, writers, and crewmembers, *Alfred Hitchcock and the Making of Psycho* is a riveting and definitive history of a signature Hitchcock cinematic masterpiece.

Paul II provides the world with a glimpse into his past in *Rise, Let Us Be On Our Way*. Chronicling the years he spent as a bishop and later archbishop in Krakow, Poland through his election as the first Polish Pope in 1978, he recounts everything from communist efforts to suppress the church in Poland to his efforts to adopt a new and more open style of pastoral ministry. With recollections on his life as well as his thoughts on the issues facing the world now, Pope John Paul II offers words of wisdom in this book that will appeal to people of any faith looking to strengthen their spirituality.

What makes you passionate about working with SQL Server? What lessons have you learned, perhaps the hard way, on how to get the best performance and scalability out of your SQL Server databases? We challenged a group of talented, up-and-coming 'new voices' in SQL Server to share their passion and knowledge with the Community. A DBA's core responsibilities are constant. A DBA must maintain and enforce security mechanisms on the data, prepare effectively for disaster recovery, ensure the performance and availability of all the databases in their care. As such, we have chapters providing tips on how to get the most out of features such as data compression, backup verification, performance tuning with traces and extended events, auditing, SSIS, and more. Side by side with these, we have chapters on the importance to a DBA of communicating clearly with their co-workers and business leaders, presenting data as useful information that the business can use to make decisions, adopting a more Agile approach to their work, and sound project management skills.

The resulting book, *Tribal SQL*, is a reflection of how a DBA's core and long-standing responsibilities sit alongside new thinking and fresh ideas about where the DBA role is going, and what it means to be a DBA in today's businesses.

"Although much of my work is architectural in character, I do not represent real spaces. Rather, my work has its origins in the spaces I have abandoned - the mood of Rome and the landscape of Texas - and the paintings are of spaces I know that look nothing like what I paint...They are essentially meditations on essences of architecture like enclosure, surface and light." \* Born in Italy in 1943, Laretta Vinciarelli passed away in New York in 2011. Trained as an architect in Rome but a watercolorist by vocation, her works reside in numerous private collections and among the holdings of prominent institutions, including the Museum of Modern Art in New York, the National Gallery in Washington D.C., and the San Francisco Museum of Modern Art. Noted for their luminous qualities of color and light, her depictions of imagined spaces open up a world of enclosed rooms, sweeping landscapes, watery materiality and atmospheric ephemerality. Describing her work, a noted theorist and critic once said, "They are not architecture exactly, but evidence that it exists." This book brings together paintings from 1981 onwards in the most complete collection of Vinciarelli's work to date. It also includes texts from knowledgeable commentators and for the first time presents sketch materials that provide an insight into Vinciarelli's working methodology. Vinciarelli's technique often operated at the very limits of her medium; sometimes even to the point

of failure. In these paintings, color is used as a device for shaping space, with watercolor the chosen medium for its rich portrayal of light and the conceptual simplicity of the act of mixing paste with water.

In this account of the Ovitz family, seven of whose ten members were dwarves, readers bear witness to the terrible irony of the Ovitzs' fate: being burdened with dwarfism helped them to endure the Holocaust. Through research and interviews with the youngest Ovitz daughter, Perla, the troupe's last surviving member, and other relatives, the authors weave the tale of a beloved and successful family of performers who were famous entertainers in Central Europe until the Nazis deported them to Auschwitz in May 1944.

This timely volume charts the discussions and debates which have led to the rediscovery of "Central Europe" within the political cultures of Eastern and Western Europe alike. From various historical, economic, cultural and political perspectives, the volume's contributors offer an appraisal of the distinctive features of a Central European identity and its relevance to contemporary European thought and politics. Contents: Central Europe: Definitions Old and New; What is Europe, Where is Europe? Bringing together scholars from the Italian and English-speaking worlds, Bosworth and Dogliani's edited book reviews the history of the memory and representation of Fascism after 1945. Ranging in their study from patriotic monuments to sado-masochistic films, the essays here collected ask how and why and when Mussolini's dictatorship mattered after the event, and so provide a fascinating study of the relationship between a traumatic past and the changing present and future.

Schopflin applies his understanding of nationalism to various East and Central European case studies, including the former Yugoslavia and Hungary. He also compares the role of ethnicity in other states, including Britain.

Wedgwood, Daily Telegraph The siege of Vienna in 1683 was one of the turning points in European history. It was the last serious threat to Western Christendom and so great was its impact that countries normally jealous and hostile sank their differences to throw back the armies of Islam and their savage Tartar allies. The consequences of defeat were momentous: the Ottomans lost half their European territories and began the long decline which led to the final collapse of the Empire, and the Hapsburgs turned their attention from France and the Rhine frontier to the rich pickings of the Balkans. The hot September day that witnesses the last great trial of strength between Cross and Crescent opened an epoch in European history

A truly historical document that leaves for posterity the intellectual and spiritual teachings of His Holiness Pope John Paul II A truly historical document, *Memory and Identity* contains Pope John Paul II's personal thoughts on some of the most challenging issues and events of his turbulent times. Pope for over 26 years, he was one of the world's greatest communicators and this moving book provides a unique insight into his intellectual and spiritual journey and pastoral experience. Each chapter suggests the answer to a question which either exercised his mind or which he provoked in discussion with laymen and priests. Using the encounters at his summer residence of Castel Gandolfo where conversations took place with leading intellectuals - philosophers as well as theologians - Pope John Paul II addressed in his book many of the questions which arose from these discussions. Here he leaves for posterity an intellectual and spiritual testament in an attempt to seek the answer to defining problems that vex our lives.

beyond familiar art contexts. Significantly, "Ends of the Earth" challenges many myths about Land art--that it was primarily a North American phenomenon, that it was foremost a sculptural practice, and that it exceeds the confines of the art system. Featuring over 100 artists hailing from countries including Great Britain, Germany, Iceland, Israel, Japan, the Netherlands, and the United States, the exhibition constitutes the most comprehensive survey of Land art to date"--Provided by publisher.

"At the height of the tumultuous developments taking place in Central and Eastern Europe in the ninth century, two Greek missionaries from Thessalonica came to the fore. Their work of acculturation among the Slavs, had far-reaching and lasting changes upon European life. This book looks back over the life and work of these two outstanding figures and analyzes their ecclesiastical and cultural mission. Their presence in the Crimea was closely bound up with several aspects of Byzantium's ecclesiastical policy and programs of acculturation, and also with the Russians' first encounter with Christianity." "In presenting the Slavs with an alphabet and the written work, the brothers transmitted to them the world, and thus it was in Cyril and Methodius' time, and thanks to their work, that Great Moravia reached the height of its vigor and prosperity as a central European state. The Cyrillo-Methodian tradition lived on, spreading among the Slavic peoples and laying the foundation of their spiritual life."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Ethnicity has been central to medieval studies since the Goths, Franks, Alamanni and other barbarian settlers of the Roman empire were first seen as part of Germanic antiquity. Today, two paradigms dominate interpretation of barbarian Europe. In history, theories of how tribes formed ('ethnogenesis') assert the continuity of Germanic identities from prehistory through the Middle Ages, and see cultural rather than biological factors as the means of preserving these identities. In archaeology, the 'culture history' approach has long claimed to be able to trace movements of peoples not attested in the historical record, by identifying ethnically-specific material goods. The papers in this volume challenge the concepts and methodologies of these two models. The authors explore new ways to understand barbarians in the early Middle Ages, and to analyse the images of the period constructed by modern scholarship. Two responses, one by a leading exponent of the 'ethnogenesis' approach, the other by a leading critic, continue this important debate.

This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's

not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...
