

## Looking Back Looking Forward

Presents papers from a 1993 conference sponsored by the Institute of Religion to celebrate the twenty-fifth anniversary of the first Houston Conference on Medicine and Technology Anne-Louise is creative, sensitive ... and schizophrenic. But having a mental illness doesn't mean she is unhappy. On the contrary, Anne-Louise takes pleasure in nature and human nature. Expressed in this book of poetry and prose are the thoughts and emotions of an astonishingly strong woman who has persevered through emotional and physical trauma. Interesting, touching and informative, Now, looking back, going forward might help others in understanding what it is like to live with a mental illness.

This report explores the state of nutrition in Odisha, assesses how nutrition outcomes changed in the state, and more importantly, and examines the road that lies ahead of Odisha on the journey to support better nutrition for the state.

Nutrition progress in Odisha: Odisha has made more rapid progress in reducing child undernutrition than many other richer states. Particularly between 2006 and 2016, nutrition and health outcomes improved significantly in the state. The prevalence of stunting declined from 45 percent to 34.1 percent, although there was a marginal increase in wasting from 19.6 to 20.4 percent and in severe wasting from 5.2 to 6.4 percent. In 2018, a further decline was noted in the prevalence of stunting (28.9 percent) and wasting (12.9 percent). Although anemia among women of reproductive age declined by 10 percentage points between 2006 and 2016, it is still high, with over half the women in the state suffering from anemia. Exclusive breastfeeding for children under 6 months of age is an area of progress, improving from 50.8 percent in 2006 to 65.6 percent in 2016; the prevalence

of low birth weight, however, remained nearly unchanged during this period (Kohli et al. 2017). Emerging nutritional challenges, such as noncommunicable diseases, are likely to create new challenges in coming years.

These creative works and brief essays by accomplished immigrant writers offer fresh perspectives, images, and insights that richly enhance our cultural imagination. Short creative works in a variety of genre--poetry, fiction, drama, and screenplay--address issues of truth, secrecy, love, loss, connections, and community. The essays in this volume grapple with the impact of immigration on art. Several of the contributors are well known in their countries of origin but endure obscurity here in Canada, their new home. This collection should serve as a gateway to the recognition of these writers in Canada. The contributors to this volume come from Egypt, Argentina, Chile, Syria, Pakistan, India, Somalia, Ethiopia, Germany, China, Mexico, Philippines, and Nepal.

MySearchLab provides students with a complete understanding of the research process so they can complete research projects confidently and efficiently. Students and instructors with an internet connection can visit [www.MySearchLab.com](http://www.MySearchLab.com) and receive immediate access to thousands of full articles from the EBSCO ContentSelect database. In addition, MySearchLab offers extensive content on the research process itself—including tips on how to navigate and maximize time in the campus library, a step-by-step guide on writing a research paper, and instructions on how to finish an academic assignment with endnotes and bibliography. This important collection contains selections by twenty scholars who have won Woodrow Wilson Fellowships in Women's Studies over the last 30 years, and have helped establish and further women's studies; they write about the changes in their fields, their recent research, and the

theoretical underpinnings of their work. A collection that shows how a feminist approach illuminates history, political science, anthropology, sociology, literature, and art. This is an indispensable book for those who want to know what contemporary scholars can tell us about women's lives and notions of gender.

Looking Back, Moving Forward investigates the embodied practices, interpersonal relationships, and moments of self-reflection in the lives of members of the Church of Pentecost in Ghana and amongst the Ghanaian diaspora in London. This book celebrates the fortieth anniversary of the UK's Science and Religion Forum by bringing together leading scientific and theological thinkers to reflect on the last four decades of the science-theology conversation and to chart new directions for its future. Through an engagement with some of the most recent developments in the sciences as diverse as quantum holism, theories of emergence, technology studies, and the sociology of religion, the book explores a broad range of pressing theological questions, such as: What is religion? What does it mean to be human? How can theology best respond to the ecological crisis? In addressing these questions, and many more, the contributors to this volume forge innovative models for the interrelation of science and religion, making this book a timely and valuable resource for all those interested in the future of the science-theology conversation.

"Nothing less than a fully realized vision of a young complicated girl." --Entertainment Weekly Tomboy

Alice Bliss is heartbroken when she learns that her father, Matt, is being deployed to Iraq. Matt will miss seeing Alice blossom into a full-blown teenager: she'll learn to drive, join the track team, go to her first dance, and fall in love--all while trying to be strong for her mother, Angie, and her precocious little sister. But the phone calls from her father are never long enough. At once universal and very personal, Alice Bliss is a profoundly moving story about those who are left at home during wartime and a small-town teenage girl bravely facing the future.

This book presents commentaries by a leading international group of peace education scholars and practitioners concerning Reardon's peace education theory and intellectual legacy. The guiding question throughout the book is: How can her foundational work be used to advance the theory and practice of peace education? In an attempt to find answers, the contributing authors explore three general areas of inquiry: (1) Theoretical Foundations of Peace and Human Rights Education; (2) Feminism and the Gender Perspective as Pathways of Transformation Toward Peace and Justice; and (3) Peace Education Pedagogy and Practices. A contemplative commentary by Reardon herself rounds out the coverage

Russia is a major player in both oil and gas exports, and much of the country's current and likely future economic growth is based on the income these

exports will generate, particularly when high market prices prevail. When prices and demand decline drastically as they have recently, dependence on export income becomes a burden. Russia knows that oil and gas revenues cannot and should not form the sole foundation for its growth in the coming years, but if not oil and gas, then what? What happens after 2009? Will negative rates of growth continue, or will the oil sector plateau for a handful of years before securing the basis for a return to a period of growth once again? But where will the new supplies of oil and gas come from to support that growth? Finding and developing these new supplies will be costly and time consuming and may not be adequate to cover both export and domestic demands. For Russia, the global financial crisis has intruded on plans for military reform, a lesson brought home by the Georgian war. The West does not have a confident measure of Russia's true military, financial, and economic strength, nor does the West have an understanding of who is really in charge, Medvedev or Putin. This new report examines all these issues and makes projections for the future.

This is the first book offering a comprehensive historical and contemporary analysis of the emerging business and human rights field.

This volume is composed of a series of invited chapters from authors who are central and prolific

contributors to the areas of group and team-based research. As such, each chapter provides an excellent overview of the current state of the research and a perspective on where scholars should be focusing their future research.

"The last decade has witnessed many changes in the sexual and reproductive health situation in India. The policy and programme environment has undergone a significant shift from a narrow target-oriented family planning approach to a broader orientation that stresses sexual and reproductive health and choice. There have also been changes in the context of sexual and reproductive health. Some changes, such as declining infant mortality, increased access to skilled attendance at delivery, and declining unmet need for contraception have been positive. Other trends are disturbing, such as stagnating levels of maternal mortality, the spread of sexually transmitted infections (STIs) notably HIV, the persistence of wide gender imbalances and the limited exercise of reproductive rights by many, particularly women. Moreover, the decade has raised concern about the unique sexual and reproductive health needs of the young. It has also seen the absorption of new technologies into everyday sexual and reproductive life. Finally, while the need for a rights-based approach has been recognised, this has not been reflected in terms of government's accountability in the realisation of health rights. In short, despite the strides made on several fronts, India continues to face a situation of considerable sexual and reproductive ill health and lack of informed choice. This volume provides a comprehensive overview of the reproductive health and rights situation and highlights major programmatic challenges and directions for policy-relevant empirical research on sexual and reproductive health in India. realisation of health rights. In short, despite the

strides made on several fronts, India continues to face a situation of considerable sexual and reproductive ill health and lack of informed choice. This volume provides a comprehensive overview of the reproductive health and rights situation and highlights major programmatic challenges and directions for policy-relevant empirical research on sexual and reproductive health in India."

Well established as a clear, comprehensive course text in five prior editions, this book has now been extensively revised, with a focus on disciplinary literacy. It offers a research-based framework for helping students in grades 6-12 learn to read, write, and communicate academic content and to develop the unique literacy, language, and problem-solving skills required by the different disciplines. In an engaging, conversational style, William G. Brozo presents effective instruction and assessment practices, illustrated with extended case studies and sample forms. Special attention is given to adaptations to support diverse populations, including English language learners. (Prior edition title: Content Literacy for Today's Adolescents, Fifth Edition.) New to This Edition: \*Shift in focus to disciplinary literacy as well as general content-area learning. \*Chapter on culturally and linguistically diverse learners. \*Incorporates a decade of research and the goals of the Common Core State Standards. \*Increased attention to academic vocabulary, English language learners, the use of technology, and multiple text sources, such as graphic novels and digital texts. \*Pedagogical features: chapter-opening questions plus new case studies, classroom dialogues, practical examples, sample forms, and more.

In *Untold Futures*, J. K. Barret locates models for recovering the variety of futures imagined within some of our most foundational literature. These poems, plays, and prose fictions reveal how Renaissance writers embraced uncertain potential to think about their own present moment and their

own place in time. The history of the future that Barret reconstructs looks beyond futures implicitly dismissed as impossible or aftertimes defined by inevitability and fixed perspective. Chapters on Philip Sidney's Old Arcadia, Edmund Spenser's The Faerie Queene, William Shakespeare's Titus Andronicus, Antony and Cleopatra, and Cymbeline, and John Milton's Paradise Lost trace instead a persistent interest in an indeterminate, earthly future evident in literary constructions that foreground anticipation and expectation. Barret argues that the temporal perspectives embedded in these literary texts unsettle some of our most familiar points of reference for the period by highlighting an emerging cultural self-consciousness capable of registering earthly futures predicated on the continued sameness of time rather than radical ruptures in it. Rather than mapping a particular future, these writers generate imaginative access to a range of futures. Barret makes a strong case for the role of language itself in emerging conceptualizations of temporality. Recognizes the progress of the past two decades in the response to sexual assault cases by law enforcement agents, prosecutors and emergency medical care providers. Speaks to the development of rape crisis centers and other victim services that concentrate on meeting the needs of the victim. Centers on the belief that the system that addresses sexual assault in the community must be victim-centered -- expanding the role of the victim from that of an important witness to an active participant in case-related decision making. Includes Workbook. References.

The untold history of lesbian life from those who have lived it! Lives of Lesbian Elders: Looking Back, Looking Forward illuminates the hopes, fears, issues, and concerns of gay women as they grow older. Based on interviews with 62 lesbians ranging in age from 55 to 95, this very special book provides a historical account of the shared experiences of the

lesbian community that is so often invisible or ignored in contemporary society. The book gives voice to their thoughts and feelings on a wide range of issues, including coming out, identity and the meaning of life, the role of family and personal relationships, work and retirement, adversity, and individual sources of strength and resilience. Cast off and overlooked at best or victims of scorn and prejudice at worst, lesbians in the twentieth century lived dual lives, their full voices unheard—until now. *Lives of Lesbian Elders* chronicles the life choices they made and their reasons for making them, set against the contexts of culture, politics, and the social mores of the eras in which they lived. Their stories of courage, resilience, resourcefulness, pride, and independence help restore lesbian history that has been forgotten, distorted, or disregarded and provide the information necessary to meet the future needs of aging lesbians. *Lives of Lesbian Elders* gives aging lesbians a chance to discuss their thoughts on a variety of topics, including: Coming out “You didn’t talk about it . . . Until two years ago, I never even referred to a lesbian or would I allow the word to pass my lips” “I used to sneak into libraries and read about homosexuality and back in that era, it was not classy . . . it was classified as a disorder of some type” Identity “The only difference between me and anybody else is that I just happen to be sleeping with a woman” “I think I grew up not really knowing who I was and, I think, probably fighting all my life trying to find out who I was” Family “I feel very connected with the lesbian community here . . . I guess I would call that family” “Many years ago, my sister said: ‘I think when they’re ready, you need to explain to (the nieces) what a lesbian is, because I want them to hear the correct story . . . I want them to hear what it really is and not all these stupid rumors that go around’” Work “I was going to become a youth minister at one point and it dawned on me in high

## File Type PDF Looking Back Looking Forward

school that there was no way the church was going to let me work with kids” “I didn’t really finish my career . . . I still have dreams about the military and about not finishing . . . It was my choice, but it wasn’t really my choice” Aging and the Future “I think financing, of course, is a real big problem for lesbian women” “I have a concern that if anything should happen to my partner—in growing older—of being isolated from the gay community” . . . and much more! Lives of Lesbian Elders: Looking Back, Looking Forward also includes appendices that present demographic data on the women who were interviewed for the book, information on historical timelines, and suggested readings on lesbian history. The book is an invaluable addition to the growing collective history of lesbians in the United States.

You can deal with an issue all your life, but until you choose to move on with a positive attitude, you will remain stuck in your past. There's power in a single positive thought. Therein lies the flashlight to shine your path to recovery, which reveals that you hold the power to your mind because it's you who feeds it, and you hold the switch to a brighter day. So turn it on. My experience in moving forward in life began with me looking back and understanding the hurts of life I went through, which led me to discover the power of forgiveness. And when I did, I made the decision to forgive and understand that everything happens for a reason-it could be a life lesson. Your future has a lot to do with your past. You might not have had the chance to determine your past, but you have a choice to turn your life around, as well as the lives of the people around you. So choose to use it wisely, and so it matters with what attitude you are reflecting on your past. I give you two options: (1) the positive or (2) the positive. Lois Larkey has been fascinated by stories and history since she was four and listening to family tell tales at the dinner table. As a teenager visiting Europe and Israel, she met

people whose stories expanded her understanding. She wrote in her journal about the challenges they faced and what personal characteristics saw them through hard times. Twenty-five years of teaching taught Lois about children, and giving birth to her own daughters was the most interesting experience of all. As Lois continued to write vignettes, she contemplated a larger work as a family legacy. When Lois turned seventy, she started to write the seminal moments that comprise a life with the idea of a collection for succeeding generations. Remembering one thing led to another. Looking back, she realized she had the strength to move forward, to face the challenges of aging, to survive loss and changing relationships, to look toward another rewarding quarter century.

This book, the first full critical overview of the film avant-garde, ushers in a new approach—and in the process creates its own subject. While many books have studied particular aspects of the European film avant-garde of the 1920s and 1930s, *Moving Forward, Looking Back* provides a much-needed summary of the theory and practice of the movement, while also emphasizing aspects of the period that have been overlooked. Arguing that a European perspective is the only way to understand the transnational movement, the book also pioneers a new approach to the alternative cinema network that sustained the avant-garde, paying particular attention to the emergence of film culture as visible in screening clubs, film festivals, and archives. It will be essential to anyone interested in the influential movement and the film culture it created.

This is the 151st volume of this Jossey-Bass higher education quarterly series. An indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals, *New Directions for Student Services* offers guidelines and

programs for aiding students in their total development: emotional, social, physical, and intellectual.

Poetry Festschrift

The rich history of Valparaiso spans centuries. Originally home to the Potawatomi Indians, the area was a centralized meeting place for many Native American tribes. The land was sold to the U.S. in 1832, and in 1836, Porter County was formed when the area was separated from LaPorte County.

The new county was named in honor of Comdr. David Porter, who played a significant role in the War of 1812 at the Battle of Valparaiso, Chile. The county seat was named Portersville. In 1837, Portersville was proudly renamed Valparaiso, which literally means "vale of paradise," to further honor

Commodore Porter. In *Valparaiso, Indiana: Looking Back, Moving Forward* author Lanette Mullins chronicles the history and development of the city, with its small-town charm, in over 200 vintage images. The book features photographs of the historic homes that grace the city streets, the famous individuals who walked them, the influential history of Valparaiso University, and the cultural institutions throughout the city.

Looking Back, Looking Forward

This seminal collection brings together the multiple perspectives of whole language educators over the course of the past thirty-five years. The essays illustrate the complex ways in which whole language teachers have been and continue to be political activists through their interactions with students; the teachers' beliefs about teaching, learning, and curriculum; their commitment to critical thinking and social justice; their collaborative engagements with other teachers; their role as leaders of change in

schools and communities; and, finally, their activism in society. Although many believe that we are living in a climate where the term «whole language» is considered taboo, the contributors to this book demonstrate hopefulness for the future of whole language: as Yetta and Ken Goodman write in the concluding chapter, «whole language is alive and well.»

The trauma of losing a sibling when we are in our adult years is one of the most unrecognized and undertreated areas of psychology. There is no other loss in adult life that appears to be so neglected as the death of a brother or sister, says bereavement specialist and psychologist, Therese Rando. And Rando is just one expert author Berman interviews in this moving book about loss. We see here how, when an adult dies, the parents, spouse, and children of that person become the focus, but brothers and sisters most often fall to the sidelines and are left to find a way to deal with the grief and recover alone. Yet, when a brother or sister dies, we lose our longest lifetime companion, someone with whom we have shared an intimate family history. And, in most cases, that was someone for whom we had conflicted feelings: shared identity yet competitive feelings, pride yet jealousy, love yet hate. Most of us come to make peace with the relationship at some point. How to make peace with the death of the sibling - which can conjure up a well

of feelings, from wishing you were closer to wanting to change some past events you shared - can haunt an adult. But author Claire Berman, who lost her own sister to heart disease in the week of September 11, 2001, when America lost its innocence, takes us into the emotional world of sibling loss, showing us how to understand and navigate the aftermath of a loss that can leave adults feeling angry, confused, guilty, empty, or just like Berman, wanting to hit that speed dial button still marked with her sister's name.

This block provides a summary of the key features of the eight disciplines studied in the other materials.
