What is a self-working card trick? A trick that does not depend upon legerdemain or special abilities on the part of the magician, but a trick that works automatically because of the mathematics inherent in the card deck itself. Long practice and supernormal dexterity are not needed to perform these tricks, yet they are often among the most entertaining and most spectacular of all card tricks. Some of these sure-fire tricks are simple, a good place to begin. Others were specially adapted from professional routines and are here presented for the first time for amateurs. Almost all of these tricks can be worked informally, with a borrowed deck of cards. Some also adapt to stage presentation. Individual tricks in this book have sold for more than the price of the entire book. Amateurs can use them to get a start in magic and to feel, at once, the rewards of giving a professional performance.

Marvelous treasury of card magic presents exact details of 155 professional card tricks that anyone can learn. Card wizard John Scarne reworked these tricks to eliminate the need for sleight-of-hand. Simple instructions and clear diagrams illustrate Houdini's "Card on the Ceiling," Blackstone's "Card Trick Without Cards," Milton Berle's "Quickie Card Deal," more.
