A travel journal written by two women journeying across the lands in what is now Albania and Yugoslavia, *Travels in the Slavonic Provinces of Turkey-in-Europe* (Vols. I and II) is an engaging book full of stories and anecdotes about the lands and peoples they visited. First published in 1866 and presented here with the original illustrations, *Travels in the Slavonic Provinces* provides a first-hand, detailed account of the people and places in early Slavonic countries; their cultures and customs.

GEORGINA MUIR MACKENZIE (1833-1874) traveled extensively in the Slavonic lands in the mid-1800s. She and her traveling companion, Adelina P. Irby, would first travel to Germany and Austria-Hungary in 1858, and subsequently traveled southern Europe on five separate occasions. They recorded their experiences in the travel journal, *Travels in the Slavonic Provinces of Turkey-in-Europe*, and spent their time teaching girls and women who might not normally have gotten an education.

Mackenzie married Sir Charles Sebright, British consul in Corfu, in 1871. ADELINA P. IRBY (1831-1911) traveled across the Slavonic provinces, educating girls and women and studying the Christian Slavs in the Ottoman Empire. She traveled with Georgina Muir Mackenzie in six separate trips until her friend died in 1874. Soon after, Irby traveled for the last time to Southern Europe, this time with Priscilla Johnston, establishing a girls' school in Sarajevo and becoming involved in relief work. Altogether, Irby visited at least 13 provinces, and co-

Social media and new social facilities have made it necessary to develop new media design processes with different communication strategies in order to promote sustainable communication. Visual communication emphasizes messages that are transmitted through visual materials in order to effectively communicate emotions, thoughts, and concepts using symbols instead of words. Social networks present an ideal environment for utilizing this communication technique. *New Media and Visual Communication in Social Networks* is a pivotal scholarly publication that examines communication strategies in the context of social media and new digital media platforms and explores the effects of visual communication on social networks, visual identity, television, magazines, newspapers, and more. Highlighting a range of topics such as consumer behavior, visual identity, and digital pollution, this book is essential for researchers, practitioners, entrepreneurs, policymakers, and educators.

Turkish-Russian relations in terms of micro-level studies, with special reference to mass media, suicide, and migration, to give color to a dynamic and constantly changing geopolitical relationship.

This revised and updated version of William Hale's *Turkish Foreign Policy 1774-2000* offers a comprehensive and analytical survey of Turkish foreign policy since the last quarter of the eighteenth century, when the Turks' relations with the rest of the world entered their most critical phase. In recent years Turkey's international role has changed and expanded dramatically, and the new edition revisits the chapters and topics covered in light of these changes. Drawing on newly available information and ideas, the author carefully alters the earlier historical narrative while preserving the clarity and accessibility of the original. Combining the long historical perspective with a detailed survey and analysis of the most recent developments, this book fills a clear gap in the literature on Turkey's modern history. For readers with a broader interest in international history, it also offers a crucial example of how a medium sized power has acted in the international environment.

Is Turkey on the way to meet the economic Copenhagen criteria? The enlargement process that the European Union faced the last decade stirred the debate again about the role Turkey has to play and whether or not Turkey should be part of the European Union. While the enlargement with the Central and East European countries of the former Soviet Union was a logical process, given the strong trade relationships and the

political and historical context of these countries, the potential enlargement with Turkey is much more complex and controversial. The main innovation of the present study is that it unravels the complexity of the Turkish case by approaching the problem from different angles in a comprehensive way. In particular, by tuning in on the historic, political and economic processes, new insights are obtained about the feasibility of Turkish accession to the EU. By combining lessons from the existing literature, the use of new data and the analysis of the political economic processes, a new perspective on the enlargement question – with the key Copenhagen criteria used as a corner stone - is offered.

The causes of the current rapprochement progress are explored in this book in relation both to the international environment which is increasingly conducive to this progress, and the significant domestic changes that both Greece and Turkey have experienced since the end of the Cold War. only face a plot to have her and her professor killed. These fascinating and revealing political and social diaries cover English history from the Regency to the Crimean War.

Scholars credit the European Renaissance and Enlightenment to the fall of Constantinople in 1453, when Greek scholars in particular were driven from the Byzantine capital, taking with them everything they had learned about their own Greek intellectual heritage and classical philosophical tradition, thanks, in part, to the scholarly enterprise of Islamic scholasticism and a spirit of intellectual cooperation that had existed until that time. The “expulsion of excellence” that followed closely on the heels of Mehmed II’s military victory in 1453 proved problematic for an emergent, modern-Muslim, imperial power, which his capture of the Byzantine capital instigated, although it was a boon to European intellectual life. Five and a half centuries later, on the night of 15 July 2016, a failed coup attempt that took place in the twin Turkish capital cities of Istanbul and Ankara paved the way for another expulsion of excellence, this time the handiwork of the ruling AK Party and its strongman-cum-dictator, Recep Tayyip Erdoğan. This volume tells the story of an American academic, Clyde R. Forsberg Jr., living and working in the AKP heartland of Turkey. just a month's time, the Forsbergs were forced to flee the country after he was detained by the police and tried for "aiding and abetting a terrorist organization."

Subsequently found innocent of all charges, Forsberg was nonetheless sacked, forced to clear out his office as University cameras rolled, adding insult to injury. Local online newspapers followed suit, publishing false and misleading stories about his arrest, targeting him and thus putting him and his entire family in danger. Other foreign faculty at Karabük University were likewise falsely charged, imprisoned, and, despite being found innocent of all charges, dismissed and forced to leave the country. A professional historian, American Studies scholar, and Open Society Institute alumnus, Forsberg recounts the events leading up to and following his arrest, employing a media studies approach, which asks hard questions of the role of social media in the preservation of democratic freedoms, which, in the wrong hands, became a very effective tool of the Turkish State and its suppression of democratic freedoms. In Forsberg's case, his imprisonment and subsequent suspension were for the "crime" of posting a poem online that was critical of Karabük University and the country's ruling AK Party's so-called "purge" of foreign faculty.
