In Acts, the third of eighteen volumes in the Paideia commentary series, leading biblical scholar Mikeal Parsons gleans fresh theological insight into Acts by attending carefully to the cultural and educational context from which it emerges. Parsons see Acts as a charter document explaining and legitimating Christian identity for a general audience of early Christians living in the ancient Mediterranean world. Pastors, graduate and seminary students, and professors will benefit from this readable commentary, as will theological libraries. The Paideia commentaries are designed to be read through and used, not shelved and referenced. The main text is supplemented with maps, sidebars, and photographs. Indexes and reference lists help readers locate discussions in the commentary and in other secondary literature.

Boldly and eloquently contributing to the argument against the prison system in the United States, these provocative essays offer an ideological and practical framework for empowering prisoners instead of incarcerating them. Experts and activists who have worked within and against the prison system join forces here to call attention to the debilitating effects of a punishment-driven society and offer clear-eyed alternatives, emphasizing working directly with prisoners and their communities. The volume offers rhetorical and political analyses of police culture, the so-called drug war, media coverage of crime stories, and the public school- to-prison pipeline. The collection also includes case studies of successful prison arts and education programs in Michigan, California, Missouri, Wisconsin, and Pennsylvania that provide creative and intellectual resources typically denied to citizens living behind bars. Writings and artwork created by prisoners in such programs richly enhance the volume. Contributors are Buzz Alexander, Rose Braz, Travis L. Dixon, Garrett Albert Duncan, Stephen John Hartnett, Julilly Kohler-Hausmann, Daniel Mark Larson, Erica R. Meiners, Janie Paul, Lori Pompa, Jonathan Shailor, Robin Sohnen, and Myesha Williams. Stephen John Hartnett is an associate professor and chair of communication at the University of Colorado Denver. He is the author of *Incarceration Nation: Investigative Prison Poems of Hope and Terror* and *Executing Democracy, Volume One: Capital Punishment and the Making of America, 1683–1807*.

"Who you see is who I am, and what you see is what you get!" How many of us can say these words and mean it? Too many people hide behind masks of pretense, whether it is socially, emotionally, spiritually, or physically simply to gain the approval or acceptance of others. One of the greatest challenges many people face today, especially Christians, is trying to live an authentic (unbogus) life in a world full of fake (bogus) people. Thus, this book is a real eye-opener on the subject of bogusness versus unbogusness. The author gives valuable insight into how to avoid living a bogus life and how to pursue an unbogus life. Having your outer man match your inner man is the goal of this book. This powerfully written book will also challenge you to rise above your unbogus behavior and find true contentment, peace, and self-worth. Finally, this book will give you a game plan to cast out areas of unbogusness in your life that have kept you from living your best life.

Today many in Hollywood and the media have declared open warfare on the family, education, and Christianity in general. Intellectuals have labeled religion, particularly Christianity, as mere wish fulfillment or a virus of the mind, something to be eradicated at all costs. In Christianity's Dangerous Idea, Jonas Alexis picks up where he left off in his previous books and continues to examine the ideological fallacies that have been fabricated in order to attack Christianity--and the people who promote those fallacies. This latest book is a tour de force of rigorous logic and testable evidence for the Christian worldview from history, science, experience, common sense, and final destiny. More importantly, Alexis subjects the rivals of Christianity to the same rigorous testing. Christianity's Dangerous Idea clearly demonstrates the destructive nature of popular atheistic and anti-Christian philosophies, spread throughout Western culture by such famous people as Friedrich Nietzsche, Sigmund Freud, Carl Jung, David Cronenberg, Steven Spielberg, Alan Moore, William S. Burroughs, Philip K. Dick, Bruce Lee, Ayn Rand, Bart D. Ehrman, Richard Dawkins, and many more. In a scholarly yet readable fashion, Alexis shows that what the ancient Greeks often referred to as "the cult of Dionysus" has become mainstream in our modern age.

A pioneer of LGBTQ studies dares to suggest that gayness is a way of being that gay men must learn from one another to become who they are. The genius of gay culture resides in some of its most despised stereotypes—aestheticism, snobbery, melodrama, glamour, caricatures of women, and obsession with mothers—and in the social meaning of style.

This book is an inspiring and historical look at the amazing life of Francis Xavier, missionary and pioneer to India, Sri Lanka, Malacca, Indonesia, the Islands of the Philippines and Japan. which includes a challenge to us to return to the supernatural ministry of Christ as outworked in ordinary men and women of God. In the brief years between 1541 and his death in 1552 Francis saw hundreds of thousands turn to Jesus; the miracles that followed his preaching of the gospel, included twenty eight people recorded as being raised from the dead and countless healings, and unusual signs and wonders, just like the book of Acts. King John 3rd of Portugal was the sender who mostly financed Francis mission, Francis was the one who went and encouraged countless hundreds of others to do the same. My hope is that this book will inspire your heart to the supernatural mission of the body of Christ, either as someone who goes, or as someone who sends. There are still millions who wait for the next Francis Xavier and you carry the same Holy Spirit as Francis did. May this book inspire you in your supernatural journey with Christ.

Is real friendship too risky? We live in a world where real friendship is hard to find. Suspicious of others and insecure about ourselves, we retreat into the safety of our small, self-made worlds. Now more than ever, it's easy to avoid people with whom we disagree or whose life experiences don't mirror our own. Safe among like-minded peers and digital "friends," we really don't have to engage with those who can challenge and enhance our limited perspectives. Tragically, even the church can become a place that minimizes diversity and reinforces isolation. Jesus models a much richer vision of friendship. Scott Sauls, pastor and teacher, invites you to see the breadth of Christ's love in this book, BeFriend. Join Scott on this journey through twenty-one meditations to inspire actively pursuing God's love through expanding your circle of friends. Scott has met too many people whose first impulse is to fence off their lives with relational barriers that only end up starving their own souls. Yes, it's true: Real friendship is costly. Love does make us vulnerable. But without risk, our lives will remain impoverished. "Weis Drache/The White Dragon. Its gray blue shaft reared almost vertically from the pastures, with no gradual sloping upward to serve as a base. Seen from below, it gave the dizzying impression that it might topple of its own height, obliterating all that lay beneath it. The clouds which drifted across its lofty spire, now seen, now obscured, pierced the roof of the sky itself. On either side, through wide breaks in the great wall of alps, two mammoth arms of ice descended toward the valley. Meeting and joining the twin glaciers held the Dragon cage in a perpetual frozen embrace. And every evening, at sunset, with the Drachewand ablaze in a fiery afterglow, the Dragon displayed its most prized possession... a man, frozen and quite dead, dangling precariously from his safety line." --

They survive, embracing these moments of deadly danger. When enemy forces attack our country, soldiers want to live another day, not to tell the story to near and dear ones but to fight the enemy yet another day."

This book provides an alternative to the more conventional modes of qualitative and quantitative inquiry currently used in professional training programs, particularly in education. It features a very accessible presentation that combines application, rationale, critique, and inspiration—and is itself an example of this kind of writing. It teaches students how to use personal writing in order to analyze, explicate, and advance their ideas. And it encourages minority students, women, and others to find and express their authentic voices by teaching them to use their own lives as primary resources for their scholarship.

From the Elm to The Empire started as a large series of iPad paintings I created during my travels to New Haven and New York City. I live in New Haven and commuted to college when I was going to the School of Visual Arts. Each painting became a moment in time that I could look back on. Whether it was New York Fashion Week or an art gallery show I was participating in, every painting in this book is significant.
