This resource presents the key accounting concepts that managers must know in order to make informed decisions. The fourth edition includes expanded Incremental Measurement and You Get What You Measure sections in each chapter. These hallmark features help them focus on real issues. New demo problems have been added as well to show how the concepts are applied. The end-of-chapter problems and Links to Practice sections have been revised and updated to connect the techniques to the business world. Case studies also enable managers to gain critical and applied thinking skills that are especially important in today's competitive environment.

In order to effectively solve business problems, managers need to understand how managerial accounting can improve decision-making. This book lays the groundwork by presenting managerial accounting in a strategic framework. Each module examines cost estimation and planning decisions in both the short- and long-term context. Budgets are then discussed as devices that connect planning and control decisions. Within each chapter, a specific decision problem is framed in a four-step manner. Throughout the pages, Chapter Connections ties the decision problems to concepts in earlier chapters. End-of-chapter material also provides a good balance of quantitative and qualitative problems. This approach enables managers to learn the linkages among seemingly unrelated decisions.

This text is written as an integrated work in managerial accounting, and is intended for use as a basic text for students after completing a first semester or quarter course in financial accounting at either the undergraduate or graduate level. This text is organized around the following major areas of managerial accounting: An Overview of Managerial Accounting. In this section, the text discusses the uses of managerial accounting and contrasts the type and use of information provided by managerial accounting and financial accounting (Chapter 1). Chapter 2 focuses on basic cost information and behavior. In this chapter we distinguish between the different types of costs incurred by organizations. In addition, this chapter discusses the behavior of these costs with changes in activity as well as the effect of cost behavior on managerial decisions. Cost Accumulation. Chapters 3 through 5 illustrate the process through which the organization accumulates costs with its products and services. In Chapter 3, we focus on production and service processes that require different levels of effort across individual jobs (job-order costing). Chapter 4 illustrates the cost accumulation process for manufacturing environments characterized by the production of a large number of similar products (process costing). Chapter 5 focuses on the process through which overhead costs are accumulated with the organization's inventory and services. The dedication of an entire chapter to overhead costs is considered necessary given the importance of controlling overhead costs to organizations in manufacturing inventory and providing services. The Use of Managerial Accounting Information. Chapters 6 through 11 describe various uses of managerial accounting information. Topics discussed in these chapters include variable costing and cost-volume-profit analysis (Chapter 6), standard costing and determination of variances (Chapter 7), budgeting (Chapter 8), responsibility accounting (Chapter 9), short-term managerial decisions (Chapter 10), and capital budgeting (Chapter 11). In these chapters, the basic principles of cost behavior and cost accumulation discussed in the preceding two sections are applied to important decisions facing managers in today's business world.

Managerial Accounting for Managers, 4th edition by Noreen/Brewer/Garrison is based on the market-leading managerial accounting solution, Managerial Accounting, by Garrison, Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison

solution (no debits/credits). Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 4e is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting—planning, control, and decision making. McGraw-Hill's Connect Accounting offers a complete digital solution combines all the great features of Connect Accounting including McGraw-Hill's SmartBook, powered by LearnSmart, which is designed to help students learn faster and more efficiently, and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course-critical content anytime, anywhere. Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises. Auto-Graded Excel Simulations, assignable within Connect Accounting, allow students to practice their Excel skills—such as basic formulas and formatting—within the context of accounting. These questions feature animated, narrated Help and Show Me tutorials (when enabled), as well as automatic feedback and grading for both students and professors.

Managerial Accounting teaches students the fundamental concepts of managerial accounting in a concise and easy to comprehend fashion. Stimulating review materials at the end of each section helps students develop their decision-making skills. Students are provided the tools and guidance to take more initiative in their learning, making them more engaged, more prepared, and more confident.

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

Gain a solid foundation in accounting to ensure you are prepared for future business courses and the real world with Warren/Reeve/Duchac's market-leading ACCOUNTING, 27E. This edition helps you connect concepts to the bigger picture with features such as the new chapter opening schema that allows you to see how each chapter's specific content fits within the overall framework of the book. A focus on why accounting is important to business and a prosperous society is reinforced throughout with Business Connection features that illustrate how the concept is used in the real world. In addition, the Warren/Reeve/Duchac hallmark accounting cycle coverage provides unmatched foundation so you are prepared to succeed in later chapters. focuses on the overarching accounting concepts that require consistent reiteration throughout the course. With a clear understanding of the concepts, you are then ready to experience the second section--Accounting Applications. Here you practice the application of accounting procedures with features like Apply It and a new transaction analysis model, which clearly illustrates how transactions are the result of business decisions and recorded in a way to show their effects on the financial statements. Finally, you utilize section three, Business Applications. This section illustrates how the concepts and procedures are used to make business decisions. Real company examples are used throughout the chapter to show students the relevance of the material. This logical progression through the material is further supported in the online environment in CengageNOW with the Tri-Level Problem. This problem mirrors the Three Section Approach and connects the sections to facilitate a more complete understanding. These substantial changes will make you a more efficient learner and are designed to prepare you for a business world increasingly complicated by ethical issues, globalization.
