August 12, 2003, marks the 200th anniversary of the birth of Sir James Douglas. Although he played an integral role in British Columbia's history, in many ways Douglas remains misunderstood and an enigma. He is known for his contradictory qualities - he was self-serving, racist, a military hawk, sometimes violent and arrogant. Yet he was also extremely community oriented, a humanitarian, brave and a devoted family member. John Adam's bestseller *Old Square-Toes and His Lady: The Life of James and Amelia Douglas* serves as an important source of information regarding Douglas's public and private lives. As Adams writes, [the term] old square-toes characterizes him as an unbending, stodgy, boring individual, but nothing could be further from the truth. At the pinnacle of his career, Douglas was knighted by order of Queen Victoria. Considering his modest, mixed-race beginnings in South America, his lofty status is, indeed, remarkable. Equally so is the life of his wife, Amelia. She was also of mixed blood, her mother being Cree and her father Irish. But unlike Douglas, who was educated in Scotland, she never left the northern forests until they married. Their ending up as a knight and lady of the British Empire was an unusual achievement. *Old Square-Toes* discusses the Douglasses' diverse experiences of astonishing contrasts, from crossing North America by canoe to touring Europe by train, from Native uprisings to the frantic gold rush. Besides finding glory, they also faced grief in losing seven of their beloved children. This is a story of the adventure, heartbreak, and devotion that lies at the roots of western Canada. The current volume entitled, "Free Radicals and Diseases" integrates knowledge in free radical-associated diseases from the basic level to the advanced level, and from the bench side to bed side. A nuanced critique of how the World Bank encourages gender norms through its policies, *Developing Partnerships* argues that financial institutions are key players in the global enforcement of gender and family expectations. By combining analysis of documents produced and sponsored by the World Bank with interviews of World Bank staffers and case studies, Kate Bedford presents a detailed examination of gender and sexuality in the policies of the world's largest and most influential development institution. Looking concurrently at economic and gender policy, Bedford connects reform of markets to reform of masculinities, loan agreements for export promotion to pamphlets for indigenous adolescents advising daily genital bathing, and attempts to strengthen institutions after the Washington Consensus to efforts to promote loving couplehood in response to economic crisis. In doing so, she reveals the shifting relationships between development and sexuality and the ways in which gender policy impacts debates about the future of neoliberalism. Providing a multilayered account of how gender-aware policies are conceived and implemented by the World Bank, *Developing Partnerships* demonstrates as well how institutional practices shape development.
