

Mcqs In Obstetrics And Gynaecology Williams

Essential MCQs in Obstetrics and Gynaecology for Medical StudentsPasTest Ltd

Basic Sciences for Obstetrics and Gynaecology - MCQs presents sample multiple choice questions and answers dealing with the basic sciences in obstetrics and gynaecology. The aim of the volume is to give those candidates studying for examinations such as the MRCOG Part 1 a flavour of the examination itself. -- book cover.

There are very few radiology multiple choice question books on the market that reflect the current trends and developments in the field of imaging. Hence, the emphasis of this book is on cross-sectional CT and MR imaging. It highlights the current understanding and concepts in the state-of-the-art imaging of a wide range of diseases in the body. The multiple choice questions are organised according to body systems and imaging modalities. There are twelve sections in the book, testing the reader in a broad range of imaging knowledge. The questions are accompanied by expanded answers, which provide the reader with a summary of the key facts relating to a particular topic. This is especially useful in assisting the reader in consolidating his or her understanding of the subject. The questions are devised in a format similar to those encountered in the Part 2A examination of the Royal College of Radiologists (UK) and the Part 2 examinations of the Joint Australian and New Zealand College of Radiology.

Candidates taking the American Radiology Board examinations will also find the book informative.

Praise for the previous edition: "...this textbook is a useful resource for medical students ... it will provide them with the basic information they need to survive clinics and to pass exams ... Clear, concise and colourful; perfect for easy learning and revision." —Times Higher Education Obstetrics and Gynaecology by Impey and Child continues to be an invaluable and authoritative resource for healthcare and medical students. This comprehensive guide provides the perfect level of detail on history and examination, investigations and diagnosis, as well as common diseases, abnormalities, and complications in gynaecology and obstetrics. Fully updated in accordance with NICE and other national guidelines, this fifth edition now includes: New sections on FGM and influenza Expanded areas in medical disorders in pregnancy and mental illness Improvements to the popular 'management' section along with a new section on sepsis Colour coded sections on obstetrics and gynaecology for ease of use This new edition of Obstetrics and Gynaecology will be an indispensable support to help not only students to revise for exams, especially OSCEs, but also healthcare practitioners and practising doctors to structure their knowledge and improve their practice.

EFOG Knowledge Based Assessment: 400 MCQs, EMQs and SBAs offers a wealth of questions for the new European fellowship exam in obstetrics and gynaecology. Officially endorsed by EBCOG, EFOG 400 MCQs, EMQs and SBAs will ensure that candidates have sufficient practice material to ensure success in the exam. Chapters are mapped to the syllabus to deliver structured revision in all the key topics.

Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. Key points Officially endorsed and approved by the European Board of Obstetrics and Gynaecology 400 questions that follow the EBCOG's EFOG syllabus Answers feature detailed explanations to consolidate knowledge

New edition of case-based review of latest information in obstetrics and gynaecology for postgraduates. Features OSCEs, SBAs, MCQs and EMQs with clear answers and explanations. Previous edition (entitled Master Pass in Obstetrics and Gynaecology - 9789350257210) published in 2013.

Self-Assessment by Ten Teachers presents a new opportunity for medical students to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practise their exam technique. Working well as a stand-alone book, this comprehensive self-assessment book is also designed to complement the well-known volumes 'Gynaecology by Ten Teachers' and 'Obstetrics by Ten Teachers', both of which have now reached their 18th editions. The book tests information covered in the two 'Ten Teachers' volumes via the full variety of exam question types - EMQs, MCQs, SAQs and OSCEs. Each answer has a short explanation of its own, and cross-references are also made to page numbers and topics in the main textbooks.

This title covers all aspects of the syllabus including the application of the scientific foundations of obstetrics and gynaecology, to practical clinical problems and basic sciences. Containing 1001 MCQs with explanatory answers and clinical topics including normal and abnormal pregnancy, infertility, general gynaecology and gynaecological oncology.

This is a selection of carefully chosen questions for the Part II Membership examination of the Royal College of Obstetricians and Gynaecologists (MRCOG). A short informative answer is given for most questions.; This book is designed for candidates going in for the Membership examination, as well as all those wishing to check their knowledge of obstetrics and gynaecology.

This book includes MCQs in the basic sciences that underpin the study of obstetrics and gynaecology, as is examined in Part 1 of the membership examination. Following the syllabus recommended by the RCOG, the questions are arranged in papers of 60 questions, each question having 5 stems with True/False answer options. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD-ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

MRCOG PART 2: 550 MCQs, EMQs and SAQs offers the most up-to-date and comprehensive coverage of practice questions for trainees preparing for the MRCOG Part 2 written exam.

Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 550 questions, comprising 250 MCQs, 250 EMQs and 50 SAQs, reflecting the breadth of topics encountered in the actual exam Answers feature concise rationales to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ) It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology

preparing to take postgraduate exams.

This volume of practise true/false MCQs and short answer questions is intended to be used by the trainee obstetrician and gynaecologist as a self-assessment aid throughout training and during revision for the MRCOG examination, in particular Part 2. Questions have been carefully designed to test both theoretical and practical knowledge, and are representative of the curricular elements highlighted within the RCOG trainee logbook.

Multiple Choice Questions are the most common method of assessing knowledge in radiology. This book has more than 1000 questions, covering all the essential topics in Gastrointestinal Radiology. The questions have been divided into separate topics, which will enable revising the subjects on a topic basis, with due emphasis on anatomy, techniques and pathology. The questions have been designed on the format used by the Royal College of Radiologists UK, Ireland, Hong Kong, Australia and New Zealand. There is a single question with five stems, which require a true or false response. The answers and detailed explanations are provided at the end of each chapter. This book will be a valuable resource for review and practice prior to the Fellowship exams. Bibliographies have been provided for further reading.

This book presents medical students and those preparing for postgraduate examinations with an ideal opportunity to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practice their exam technique across a range of question formats. It can be used as a standalone revision guide, but is also designed to complement the latest editions of the best-selling volumes Gynaecology by Ten Teachers and Obstetrics by Ten Teachers. Key features: Includes an extensive range of question types—EMQs, MCQs, SBAs, SAQs, and OSCEs—providing comprehensive coverage compatible with all relevant examinations Fully up-to-date—ensuring prospective candidates practice across all areas on which they will be tested Clear and accessible— with concise explanations of answers and directions to the Ten Teachers textbooks for those seeking further advice and guidance With coverage across the obstetrics and gynaecology curriculum, medical students and those studying for for DRCOG and MRCOG examinations will find Self Assessment in Obstetrics and Gynaecology by Ten Teachers provides invaluable practice and guidelines during the critical revision period.

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.

A collection of over 450 tried and tested multiple choice questions comes complete with reasoned answers. Published in association with the Royal College of Obstetricians and Gynaecologists, the pattern of questions follows that of the MRCOG Part 1 providing essential revision material and MCQ practice for this examination.

Further to PasTest's 'Essential MCQs' range, here is a book specific to medical students studying for their Obstetrics and Gynaecology examinations. Three practice papers provide mixed questions and revision checklists that cover all areas.

Obstetrics & Gynaecology has established itself as a key recommendation for faculty and a firm favourite for health sciences students. The opening sections of this new edition incorporate the relevant basic science, history and examination, investigations and diagnosis, as well as common diseases, abnormalities, and complications in gynaecology and obstetrics respectively. These are supported by two unique sections on gynaecology and obstetrics management, which are tailored to help students revise for exams, especially OSCEs. A brand new chapter covering ethics in obstetrics and gynaecology makes this fully-updated fourth edition the most comprehensive introduction available. Obstetrics & Gynaecology now includes a companion website at www.impeyobgyn.com, featuring self-assessment MCQs and EMQs, chapter summary slides, and all the figures from the book as PowerPoint slides.

SGN .The book covers More Than 300 MCQs With Answers.

Get Through MRCOG Part 2: MCQs covers the breadth and depth of the MRCOG Part 2 examination syllabus and is an essential revision tool for candidates preparing for this examination. The comprehensive and wide collection of practice questions is designed to help the candidate test and assess their knowledge of the subject, aiding them in thorough preparation for the exam. The text contains 750 multiple choice stems, each with around four associated questions, providing the reader with a total of 3000 individual questions with which to test themselves. The material is divided up by subject area, allowing candidates to test their knowledge on a particular topic. The 13 'modules' are followed by two mock papers, each containing a selection of questions on different subject areas, which the reader can attempt under timed conditions. Answers are provided, with useful explanatory information for all questions to help the reader understand why their answer is right or wrong. The author, Paul Ayuk, was clinical lecturer in obstetrics and gynaecology at Oxford University for 6 years and has run an on-line MRCOG course for over 5 years, assisting over 8000 candidates worldwide. The author, Paul Ayuk, was clinical lecturer in obstetrics and gynaecology at Oxford University for 6 years and has run an on-line MRCOG course for over 5 years, assisting over 8000 candidates worldwide.

Previously entitled MCQs in Gynaecology & Obstetrics 3rd Edition, this text has been expanded to include Short Answer Questions (SAQs), in line with new assessments used in many medical schools. 'Self-Assessment in O&G' contains 300 MCQs and 60 SAQs, all of which are closely referenced to the 17th editions of 'Ten Teachers in Obstetrics' and 'Ten Teachers in Gynaecology'. Detailed explanatory answers ensure that the title can be used on its own or in conjunction with other texts. Ten Teacher's Self Assessment in Obstetrics and Gynaecology is a comprehensive revision aid that will help medical students prepare for exams during clinical attachments and medical finals. The self-test format allows assessment of learning in obstetrics and gynaecology with multiple choice and short answer questions. The questions and explanatory answers are referenced to the appropriate chapter in the well-known volumes Gynaecology by Ten Teachers and Obstetrics by Ten Teachers to enhance learning and revision.

This new e-book presents a selection of over 200 self-assessment questions in EMQ, MCQ and SBA format from the trainee journal Obstetrics, Gynaecology and Reproductive Medicine, mapped by module to the MRCOG Part 2 exam. These questions are designed to test and apply the knowledge essential for candidates to pass MRCOG Part 2. They are also ideal for life-long learning, CPD and, indeed, preparation for all post-graduate exams in obstetrics (not just MRCOG), including especially the new EBCOG exam in Europe and local college exams in India, the Middle East and Africa.

What is an OSCE? How do you prepare for it? What is the structure of the DRCOG exam? Can I time and score myself ahead of the exam? How are OSCE and MCQ questions set and what marking schemes are used? Answer to all of these questions - and more - are provided in this new text. The quality of the text and supporting illustrations - many in full colour - will make it useful to a wide audience, including candidates preparing for the DRCOG and the MRCOG; undergraduate medical students who need to revise their understanding of O&G; midwives, as an aid to practice; and overseas doctors studying for the PLAB.

Multiple Choice Questions Questions: Obstetrics Questions: Gynaecology Answers: Obstetrics Answers: Gynaecology Short Answer Questions Questions: Obstetrics Questions: Gynaecology Answers: Obstetrics Answers: Gynaecology.

A new edition which brings the reader right up to date with the advances in the field since the publication of the previous edition ten years ago. In that time MCQs have continued to play a major role in the testing of factual knowledge, and with the extensive changes in undergraduate examinations MCQs have remained the most effective and objective means of assessing straightforward factual knowledge.

Modelled on the current MRCOG syllabus, Get Through MRCOG Part 1: MCQs and EMQs is designed to test candidates' knowledge of basic and applied sciences in obstetrics and gynaecology. 350 MCQs and 40 EMQs are presented, reflecting the level of difficulty and style of the actual examination questions This comprehensive collection of practice questions offers a useful review of all elements of the syllabus, to help candidates test and assess their knowledge and aid thorough revision in preparation for the examination day. Written by a Specialist Registrar and a Consultant in Obstetrics and Gynaecology, and supplemented with useful explanatory material, Get Through MRCOG Part 1: MCQs and EMQs is the essential revision tool for all trainees preparing for this examination.

This examination and revision guide comprehensively tests knowledge at all levels in obstetrics and gynaecology. The wide-ranging sample questions have detailed answers to provide proper explanation and aid understanding, and the variety of question formats prepares students for all possibilities in the examination. The best of five question format is ideal for DRCOG candidates, the EMQs prepare the MRCOG candidates, and the MCQs will test both DRCOG and MRCOG candidates. The book is also highly recommended for undergraduates preparing for their finals, who will welcome the sample best of fives and EMQs now that essays and short answer questions are becoming a thing of the past.

"MCQs in Gynaecology and Obstetrics will help medical students prepare for exams during clinical attachments and medical finals. This comprehensive self-assessment text accompanies the well-known volumes, Gynaecology by Ten Teachers and Obstetrics by Ten Teachers. Questions and answers are referenced to appropriate chapters in these texts."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

This text has become a standard revision aid for students preparing for examinations in obstetrics and gynaecology, particularly those candidates for the MRCOG Part I. The authors present a wealth of information in a concise, didactic format, focussing on those facts that are generally considered non-contentious. The fourth edition includes both new and revised material, reflecting current understanding of the basic sciences underpinning the practice of obstetrics and gynaecology. This book will be of value to the student and also those professionals wishing to refresh their basic scientific knowledge.

This comprehensively updated new edition provides a thorough and dynamically-illustrated overview of the female reproductive organs, care of the female during pregnancy, childbirth and the postnatal period. It is clinically relevant, with a focus on diagnosing, managing and treating disorders and abnormalities and is fully aligned with medical school curricula. Obstetrics and Gynecology at a Glance: • Recaps basic history taking, anatomy and endocrinology and focuses on clinically relevant information • Covers each topic in a double-page spread, packed with charts, graphs, photographs and visuals • Includes thoroughly updated sections on reproductive endocrinology, infertility and urogynecology The companion website at www.ataglanceseries.com/obgyn features interactive flashcards, case studies and multiple-choice questions (MCQs). Obstetrics and Gynecology at a Glance is the perfect guide for medical students, junior doctors and midwives, and is ideal for those embarking on clinical rotations and the clerkship.
