are using the wrong manifestation method for you. Contrary to popular belief, visualization actually DOESN'T work for everyone! Here's the deal: visualization isn't the only manifestation method out there, and it's not the right method for everyone. Just as some people learn better by hearing or seeing something, some people manifest things better by writing them down, and it is a complete myth that if you didn't get your intentions, it's because "you did visualization wrong" or "you were thinking negative thoughts" or "your subconscious is holding you back." That is wrong. There are MANY manifestation methods in the world, and your job is to find the one that works best for you. This workbook/ journal guides you through several powerful exercises to connect with what you want through the art of "scripting," which is basically writing affirmations down multiple times per day to call that thing into your life. Here are the three elements to this supercharged manifestation method: Meditation/ getting in the flow-- this is a vitally important part of the process. You will use this step to connect to the energy of the Universe. Here you only have to do this for a few minutes (as opposed to the "20 minutes twice a day" meditation teacher requirement that absolutely no one can do. Scripting-- this is when you write your intention in detail, as if it has already happened, as a "Dear Universe" letter. Written affirmations-- this is when you write your intention/ goal (in one sentence form) 11

times a day for 11 days. This is sometimes called the "11:11 Method" and is a method of harnessing YOUR energy and getting it to appear as your ideal circumstances. While you write these affirmations, you will be in a meditative state where you can "Zen out" and focus on your intention. This manifestation method works especially well for people with ADD (or those who find meditation/ visualization difficult in general) because it gives you something to "do" so that your mind will relax and calmly focus the intention. By directing your energy in this way, you create the abundance in your life. This particular method (11:11) is most effective for people who frequently see the number "1" in their lives, like on house numbers or on the clock. The number 1 is a powerful number for connecting with source energy, and if you are connected to it (or keep seeing it), you should use it to manifest your desires in written form. physical bodies, and that a conscious Connection to that Broader Non-Physical part of us is necessary if we are to be the joyful Beings that we were born to be. Abraham calls that wonderful alignment Getting into the Vortex. Through a series of Leading Edge books (New York Times bestsellers), Abraham has emphasized the importance of our conscious alignment with the Source within us. They have let us know that our natural state of Being is inside our Vortex of Creation in complete alignment with Source Energy—and that every aspect of our physical experience reflects our alignment with, or resistance to, that Connection.

Everything—from the physical well-being of our bodies, the clarity of our minds, and the abundance we allow to flow, to the satisfaction in every relationship we experience—is impacted by our all-important relationship with our Vortex. Abraham has helped us to understand that our dominant intent in every day is to get into the Vortex! And now, they have lovingly and specifically guided Jerry and Esther Hicks in the creation of an innovative and valuable tool that promises to get us into the Vortex right now . . . and that tool is enclosed in the Getting into the Vortex User Guide in the form of a 70-minute audio download. This unique recording contains four powerfully guided daily meditations that have been designed to get you into the Vortex of Creation in four basic areas of your life: • General Well-Being • Financial Well-Being • Physical Well-Being • Relationships. Jerry and Esther are thrilled to offer this powerful, first-of-its kind, musically scored, breath-enhancing, user-friendly tool from Abraham that will get you into the Vortex.

out there, and it's not the right method for everyone. Just as some people learn better by hearing or seeing something, some people manifest things better by writing them down, and it is a complete myth that if you didn't get your intentions, it's because "you did visualization wrong" or "you were thinking negative thoughts" or "your subconscious is holding you back." That is wrong. There are MANY manifestation methods in the world, and your job is to find the one that works best for you. This workbook/ journal guides you through several powerful exercises to connect with what you want through the art of "scripting," which is basically writing affirmations down multiple times per day to call that thing into your life. Here are the three elements to this supercharged manifestation method: Meditation/ getting in the flow-- this is a vitally important part of the process. You will use this step to connect to the energy of the Universe. Here you only have to do this for a few minutes (as opposed to the "20 minutes twice a day" meditation teacher requirement that absolutely no one can do. Scripting-- this is when you write your intention in detail, as if it has already happened, as a "Dear Universe" letter. Written affirmations-- this is when you write your intention/ goal (in one sentence form) 7 times a day in the morning and 7 times in the evening for 7 days. This is sometimes called the "777 Method" and is a method of harnessing YOUR energy and getting it to appear as your ideal circumstances. While you write these affirmations, you will be in a meditative state where you can "Zen out" and focus on your intention. This manifestation method works especially well for people with ADD (or those who find meditation/ visualization difficult in general) because it gives you something to "do" so that your mind will relax and calmly focus the intention. By directing your energy in this way, you create the abundance in your life. This particular method (777) is most effective for people who frequently see the number "7" in their lives, like on
