A separate section of the journal, Molecular and developmental evolution, is devoted to experimental approaches to evolution and development.

The push-pull test is a powerful site characterization technique that has been applied to a wide range of problems in contaminant hydrogeology. The theoretical and practical aspects of push-pull testing were initially developed to characterize groundwater aquifers but the method has now been extended to saturated and unsaturated soils and sediments as well as to surface water bodies. Dr. Istok and his collaborators have been instrumental in the development of these techniques and he is widely recognized as the world's leading expert push-pull testing. This is the only reference book available on this powerful method.

In 1835, after being turned out by his mean-spirited uncle, Chris Dahlberg decides to harvest some of the timber on his grandfather's land in Minnesota and float the giant logs down the Mississippi River to market in St. Louis.

Intermediate Accounting: IFRS Edition provides the tools global accounting students need to understand IFRS and how it is applied in practice. The emphasis on fair value, the proper accounting for financial instruments, and the new developments related to leasing, revenue recognition, and financial statement presentation are examined in light of current practice. Global Accounting Insights highlight the important differences that remain between IFRS and U.S. GAAP, and discuss the ongoing joint convergence efforts to resolve them.

Comprehensive, up-to-date, and accurate, Intermediate Accounting: IFRS Edition includes proven pedagogical

tools, designed to help students learn more effectively and to answer the changing needs of this course.

Designed for managerial accounting programs that prefer to begin with a corporate approach, this market-leading text offers balanced, flexible content supported by an array of fully integrated print and technology supplements. The material--targeted to business majors--focuses on the relevance of accounting in business with an emphasis on decision making and analysis. The text assumes no previous training in accounting or business and contains equal coverage of financial and managerial accounting topics. The 2005e Edition maintains a strong real-world emphasis,

integrates performance measurement, and emphasizes technology. Procedural content appears in optional objectives at the end of each chapter, allowing instructors to choose how much procedural detail to include in their course. Instructors can also customize homework assignments based on course goals using comprehensive material organized by learning objective. New! Blackboard and WebCT CD-ROMs include customized course material and information, such as chapter overview/learning objectives, chapter and lecture outlines, key points and terms, chapter-based PowerPoint slides, chapter summaries, assignments, and Web links. The CD-ROMs also contain interactive exercises and self-test questions from the Student Study Guide. New! Three new video cases, bringing the total number of video cases to eight, are available on both the Student CD-ROM and the HM ClassPrep CD-ROM for instructors. New! The instructor web site features a collection of new essays that discuss current events and issues in accounting. These essays can be used as exam questions or extra-credit assignments. New! The chapter-based HMAccounting Tutor CD-ROM replaces the Accounting Transaction Tutor (ATT). Students can apply the readings for each chapter to a diagnostic test, a tutorial, an Internet assignment, and a demonstration problem (which includes animation and voice-over narrations). New! Stop and Think questions for each learning objective motivate students to read actively. These critical-thinking questions--each of which is accompanied by a short answer--can also be used as a review device or as a springboard for class discussions.

New! Chapter-ending comparison cases ask students to analyze the most recent Walgreens and Toys "R" Us financial statements and draw conclusions as a financial analyst would. Students calculate ratios and perform a comparative analysis of the two companies based on their results. New! The popular Focus on Business boxes, which relate accounting concepts to the real world of business, have been updated and redesigned, and 45 new boxes have been added to this edition. New! Each learning objective includes a list of end-of-chapter text assignments, so students can identify the questions, exercises, problems, and cases that relate to particular learning objectives. Eduspace is Houghton Mifflin's online learning tool. Powered by Blackboard, Eduspace is a customizable, powerful and interactive platform that provides instructors with text-specific online courses and content. For the Needles Financial & Managerial Accounting text, features include chapter homework and feedback from the Solutions Manual as well as online working papers and a self-grading homework checker. For all the wrong reasons, a national spotlight is shining on Chicago. The city has become known for its violence, police abuse, parent and teacher unrest, population decline, and mounting municipal and pension debt. The underlying problem, contend Ed Bachrach and Austin Berg, is that deliberative democracy is dead in the city. Chicago is home to the last strongman political system in urban America. The mayor holds all the power, and any perceived checks on mayoral control are often proven illusory. Rash decisions have resulted in poor outcomes. The outrageous consequences of unchecked power are

evident in government failures in elections, schools, fiscal discipline, corruption, public support for private enterprise, policing, and more. Rather than simply lament the situation, criticize specific leaders, or justify an ideology, Bachrach and Berg compare the decisions about Chicago's governance and finances with choices made in fourteen other large U.S. cities. The problems that seem unique to Chicago have been encountered elsewhere, and Chicagoans, the authors posit, can learn from the successful solutions other cities have embraced. Chicago government and its citizens must let go of the past to prepare for the future, argue Bachrach and Berg. A future filled with demographic, technological, and economic change requires a government capable of responding and adapting. Reforms can transform the city. The prescriptions for change provided in this book point toward a hopeful future: the New Chicago Way. Vols. for 1898-1941, 1948-56 include the Society's proceedings (primarily abstracts of papers presented at the 10th-53rd annual meetings, and the 1948-56 fall meetings).
