This comprehensive, well-balanced historical survey of medieval Europe from Roman imperial provinces to the Renaissance covers all aspects of the history (political, literary, religious, intellectual, etc.) with a focus on social and political themes. It presents a complete picture of the complex process by which an ecumenical civilization that once ringed the basin of the Mediterranean Sea, evolved into three other distinctive civilizations: Latin Europe, Greek Eastern Europe and Asia Minor, and Islam. A six-part organization outlines late Mediterranean antiquity and early northern Europe; two heirs of the ancient world; the early Middle Ages; Christendom: authority and enterprise, 950-1100; culture and society in the high Middle Ages, 1100-1325; and Christendom and Europe, 1325-1519. For anyone interested in the history of Europe and the Middle Ages.

The author argues that the structure of sexual relationships took its cue from the family and feudalism - both bastions of masculinity - as he presents his interpretation of women, what they represented and what they were in the Middle Ages. Throughout the Middle Ages and early modern Europe theological uniformity was synonymous with social cohesion in societies that regarded themselves as bound together at their most fundamental levels by a religion. To maintain a belief in opposition to the orthodoxy was to set oneself in

opposition not merely to church and state but to a whole culture in all of its manifestations. From the eleventh century to the fifteenth, however, dissenting movements appeared with greater frequency, attracted more followers, acquired philosophical as well as theological dimensions, and occupied more and more the time and the minds of religious and civil authorities. In the perception of dissent and in the steps taken to deal with it lies the history of medieval heresy and the force it exerted on religious, social, and political communities long after the Middle Ages. In this volume, Edward Peters makes available the most compact and wide-ranging collection of source materials in translation on medieval orthodoxy and heterodoxy in social context.

"Conceptually well organized, stylistically clear, intellectually thoughtful, and pedagogically useful." - Thomas Head, *Speculum* "For its humane and learned approach to its enormous canvas, as well as for the cogency with which it penetrates at speed to the essentials of a vanished historical epoch, this *History of the Church in the Middle Ages* deserves a very wide audience indeed." - Barrie Dobson, *English Historical Review* "To have written a scholarly and very readable history of the Western Church over a millennium is a remarkable tour de force, for which Donald Logan is to be warmly congratulated." - C.H Lawrence, *The Tablet* "A feat of historical synthesis, most confident in its telling of the coming of Christianity. Books like Logan's are needed more than ever before." - Miri Rubin, *TLS* In this fascinating survey, F. Donald Logan introduces the reader to the Christian church, from the conversion of the Celtic and Germanic peoples to the discovery of the New World. He reveals how the church unified the people of Western Europe as they worshipped with the same ceremonies and used Latin as the language of civilized communication. From remote, rural parish to magnificent urban cathedral, *A History of the Church in the*

This volume addresses the study of family law and society in Europe, from medieval to contemporary ages. It examines the topic from a legal and social point of view. Furthermore, it investigates those aspects of the new family legal history that have not commonly been examined in depth by legal historians. The volume provides a new 'global' interpretative key of the development of family law in Europe. It presents essays about family and the Christian influence, family and criminal law, family and civil liability, filiation (legitimate, natural and adopted children), and family and children labour law. In addition, it explores specific topics related to marriage, such as the matrimonial property regime from a European comparative perspective, and impediments to marriage, such as bigamy. The book also addresses topics including family, society and European juridical science.

Graphic Signs Of Authority in Late Antiquity and the Early Middle Ages presents a cultural history of graphic signs and examines how they were employed to communicate secular and divine authority in the late antique Mediterranean and early medieval Europe. Visual materials such as the sign of the cross, christograms, monograms, and other such devices, are examined against the backdrop of the cultural, religious, and socio-political transition from the late Graeco-Roman world to that of medieval Europe. This monograph is a synthetic study of graphic visual evidence from a wide range of material media that have rarely been studied collectively, including various mass-produced items and unique objects of art, architectural monuments and epigraphic inscriptions, as well as manuscripts and charters. This study promises to provide a timely reference tool for historians, art historians, archaeologists, epigraphists, manuscript scholars, and numismatists.

Medieval Spain is brilliantly recreated, in all its variety and richness, in this comprehensive survey. Likely to become the standard work in English, the book treats the entire Iberian Peninsula and all the people who inhabited it, from the coming of the Visigoths in the fifth century to the reign of Ferdinand and Isabella. Integrating a wealth of information about the diverse peoples, institutions, religions, and customs that flourished in the states that are now Spain and Portugal, Joseph F. O'Callaghan focuses on the continuing attempts to impose political unity on the peninsula. O'Callaghan divides his story into five compact historical periods and discusses political, social, economic, and cultural developments in each

period. By treating states together, he is able to put into proper perspective the relationships among them, their similarities and differences, and the continuity of development from one period to the next. He gives proper attention to Spain's contacts with the rest of the medieval world, but his main concern is with the events and institutions on the peninsula itself. Illustrations, genealogical charts, maps, and an extensive bibliography round out a book that will be welcomed by scholars and student of Spanish and Portuguese history and literature, as well as by medievalists, as the fullest account to date of Spanish history in the Middle Ages.

The medieval era has been described as 'the 'Age of Chivalry' and 'the Age of Faith' but also as 'the Dark Ages'. Medieval women have often been viewed as subject to a punishing misogyny which limited their legal rights and economic activities, but some scholars have claimed they enjoyed a 'rough and ready equality' with men. The contrasting figures of Eve and the Virgin Mary loom over historians' interpretations of the period 1000-1500. Yet a wealth of recent historiography goes behind these conventional motifs, showing how medieval women's lives were shaped by status, age, life-stage, geography and religion as well as by gender. A Cultural History of Women in the Middle Ages presents essays on medieval women's life cycle, bodies and sexuality, religion and popular beliefs, medicine and disease, public and private realms, education and work, power, and artistic representation to illustrate the diversity of medieval women's lives and constructions of femininity.

The essays in this interdisciplinary collection examine the afterlife of medieval works through their preservation, restoration, appropriation, and commodification in America, Great Britain, and across Europe from the sixteenth to the twentieth century. From the evocation of metaphors and tropes, to monumental projects of restoration and recreation medieval visual culture has had a tremendous purchase in the construction of political, religious, and cultural practices of the Modern era. The authors assembled here engage a diverse spectrum of works, from Irish ruins and a former Florentine prison to French churches and American department stores, and an equally diverse
