The new edition of this authoritative account of the history of Spain in the Early Middle Ages is a substantially revised and corrected version of the original, first published in 1983. The text has been thoroughly checked and altered to take account of historical and archaeological research on the subject over the last decade. As well as short sections of new text inserted throughout, the central chapter on the Arab conquest and its aftermath has been entirely rewritten and enlarged. An entirely new bibliographical essay has been added, covering the state of scholarship up to 1994. The genealogies and lists of rulers have been corrected to bring them into line with the latest views, and a new preface has been written to describe the changes in the directions of research in Spain and beyond in the period since the publication of the first edition.

Miro in the Kingdom of the Sun Houghton Mifflin Harcourt

Stephen Haliczer has mined rich documentary sources to produce the most comprehensive and enlightening picture yet of the Inquisition in Spain. The kingdom of Valencia occupies a uniquely important place in the history of the Spanish Inquisition because of its large Muslim and Jewish populations and because it was a Catalan kingdom, more or less "occupied" by the despised Castilians who introduced the Inquisition. Haliczer underscores the intensely regional nature of the Valencian tribunal. He shows how the prosecution of religious deviants, the recruitment and professional activity of Inquisitors and officials, and the relations between the Inquisition and the majority Old Christian population all clearly reflect the place and the society. A great series of pogroms swept over Spain during the summer of 1391. Jewish communities were attacked and the Jews either massacred or forced to convert. More than ninety percent of the victims of the Valencian Inquisition a century later were descendants of those who chose conversion, the conversos. Haliczer argues convincingly against those who see all the conversos as "secret Jews." He finds, on the contrary, that a wide range of religious beliefs and practices existed among them and that some were even able to assimilate into Old Christian society by becoming familiares of the Inquisition itself. Nevertheless, it was controversy over the sincerity of the converted which spawned the first proposals for the establishment of a Spanish national Inquisition. That very same controversy, persisting in the writings of history, may be resolved by Haliczer's stimulating discoveries. Inquisition and Society in the Kingdom of Valencia is a major contribution to the lively field of Inquisition studies, combining institutional history of the tribunal with socioreligious history of the kingdom. The many case histories included in the narrative give both Valencian society and the Inquisition very human faces. ? The Muslim conquest of Iberia in 711 began nearly eight centuries of struggle for control of the peninsula. The invaders quickly achieved military supremacy, but political dominance was less complete. Within a few years, a small band of Christian rebels defied Muslim authority, establishing their own ruling class in the northern mountains of Asturias. The opposing forces competed for control until the Catholic Monarchs Fernando and Isabel established absolute rule in 1492. Drawing on the latest scholarship, this comprehensive study traces the succession of Iberian sovereigns during a complicated period in early European history.

Against the Tide, Towards the Kingdom is the story of the Urban Vision community in New Zealand. This book recounts the story of a group of young Christian adults who over the last fifteen years have relocated to the colorful ends of their city to share life with those who are struggling, homeless, sick, poor, neglected, or otherwise marginalized. The community has grown over time to seven neighborhoods where on any given day you may find "Urban Visionites" growing vegetables amidst the concrete, teaching English to refugees, offering alternative education programs to out of school teenagers, fostering children, doing church with the homeless, offering friendship to the mentally ill, roasting fair trade coffee, running kids clubs, moms groups, tenant meetings or just sharing yet another cup of tea with their neighbors. In fact sharing is a good summary of the whole shape of this exciting movement. They share homes, food, money, vehicles, jobs, prayers, dreams, conversations, fun, tears, pain, hope, healing, transformation . . . they share the whole of life with each other and with their neighbors. They live the gospel, this good news of Jesus.
