

Murder Machine

This collection of essays explores the character and quality of the Holocaust's impact and the abiding legacy it has left for social theory. The premise which informs the contributions is that, ten years after its publication, Zygmunt Bauman's claim that social theory has either failed to address the Holocaust or protected itself from its implications remains true.

The true story of nineteen-year-old Jordana Lebowitz's time at the trial of Oskar Groening, known as the "bookkeeper of Auschwitz", a man charged with being complicit in the deaths of more than 300,000 Jews. A granddaughter of Holocaust survivors, Jordana was still not prepared for what she would see and hear. Listening to Groening's testimony and to the Holocaust survivors who came to testify against him, Jordana felt the weight of being witness to history – a history that we need to remember now more than ever.

This book provides the first complete account of Patrick Pearse's educational work at St. Enda's and St. Ita's schools (Dublin). Extensive use of first-hand accounts reveals Pearse as a humane, energetic teacher and a forward-looking and innovative educational thinker. Between 1903 and 1916 Pearse developed a new concept of schooling as an agency of radical pedagogical and social reform, later echoed by school founders such as Bertrand Russell. This placed him firmly within the tradition of radical educational thought as articulated by Paulo Freire and Henry Giroux. The book examines the tension between Pearse's work and his increasingly public profile as an advocate of physical force separatism and, by employing previously unknown accounts, questions the perception that he influenced his students to become active supporters of militant separatism. The book describes the later history of St. Enda's, revealing the ambivalence of post-independence administrations, and shows how Pearse's work, which has long been neglected by historians, has had a direct influence on a later generation of school founders up to the present.

With Obama's election to the presidency in 2008, many believed the United States had entered a new era: Obama came into office with high expectations that he would end the war in Iraq and initiate a new foreign policy that would reestablish American values and the United States' leadership role in the world. In this shattering new assessment, historian Lloyd C. Gardner argues that, despite cosmetic changes, Obama has simply built on the expanding power base of presidential power that reaches back across decades and through multiple administrations. The new president ended the "enhanced interrogation" policy of the Bush administration but did not abandon the concept of preemption. Obama withdrew from Iraq but has institutionalized drone warfare—including the White House's central role in selecting targets. What has come into view, Gardner argues, is the new face of American presidential power: high-tech, secretive, global, and lethal. Killing Machine skillfully narrates the drawdown in Iraq, the counterinsurgency warfare in Afghanistan, the rise of the use of drones, and targeted assassinations from al-Awlaki to Bin Laden—drawing from the words of key players in these actions as well as their major public critics. With unparalleled historical perspective, Gardner's book is the new touchstone for understanding not only the Obama administration but the American presidency itself.

Unusual, fresh and challenging these essential Daily Bible Insights rarely whisper, but shout! At last, the Christian world has a relevant and up-to-date honest daily book of Bible insights that speaks to this generation! 'Night-Whispers' have long since been a global endeavour to communicate the God of the whole Bible in very raw terms to very real people. They are presented in such a way as to be read each day and are produced on a regular basis, the 366 daily readings for each year being presented with a unique volume number. That 'Volume' year is then divided into four Quarters. You can start any volume-quarter book of Night Whispers at any time you choose, because whilst these Everyday Bible Insights are fresh and relevant to each day, they are not interconnected in a way which means you have to read one volume before another. They are Biblical, fresh, provocative, relevant, and always challenging and always powerful. Night-Whispers: get yours today!

This book is a highly focused handbook on how Dr. Reich's cancer killing machine worked. This book also explains with diagrams and parts lists how to build and use Dr. Reich's cancer killing Technology to stop cancer. This book shall not delve into Dr. Reich's early and extensive work with Bion samples nor "Bion Radiation". This is explained in Dr. Reich's book The Cancer Biopathy. Dr. James DeMeo also has scientific papers and information on Dr. Reich's Bion samples – see the Bibliography. This book, in Part-1, briefly reviews how Dr. Reich discovered the Orgone, bion radiation and the Orgone Accumulator. This book shall then explain what Dr. Reich's Orgone is and then because of his exposure to Bion radiation over many years how Dr. Reich made a fundamental mistake. This book shall then explain how Dr. Reich's Orgone Accumulator works. Lastly in Part-1, this book shall provide the information that he tried to share with the world – his Orgone Accumulator stops cancer! Part-2 of this book explains how to build and use various Orgone Accumulators of Dr. Reich's design to stop cancer! My friend and mentor started this book and then set it aside. He is an Engineer. My first degree was a Bachelor of Science in Engineering. My first masters degree was in Bio-Chemical Engineering and my second doctorate was medical pathology. I was aware of my friends early work however I was not aware of the Quantum Holographic nature of the technology that he had discovered and tested. He allowed me to pick up this project and take it to the finish line. I sincerely hope this book helps all who need it. SJT Qi Press Ver 1.1 July 2021

In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Murder Machine." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

To this day Jewish thinkers struggle to articulate the appropriate response to the unprecedented catastrophe of the Holocaust. Here, Morgan offers the first comprehensive overview of Post-Holocaust Jewish theology, quoting extensively from and interpreting all of the significant American writings of the movement. Morgan's lucid analysis clarifies the background of the movement in the postwar period, its origins, its character, and its legacy for subsequent thinking, theological and otherwise. Ultimately, Morgan's primary

purpose is to tell the story of the movement, to illuminate its real, deep point, and to demonstrate its continuing relevance today.

"This study provides the first comprehensive historical account of Joyce's writings 1898-1915 in the context both of the distinct phases and shifting currents of British-Irish history during the period, and the sometimes rather different phases important in the works"--From jacket.

Set in the American Southwest, "desert terror" films combine elements from horror, film noir and road movies to tell stories of isolation and violence. For more than half a century, these diverse and troubling films have eluded critical classification and analysis. Highlighting pioneering filmmakers and bizarre production stories, the author traces the genre's origins and development, from cult exploitation (The Hills Have Eyes, The Hitcher) to crowd-pleasing franchises (Tremors, From Dusk Till Dawn) to quirky auteurist fare (Natural Born Killers, Lost Highway) to more recent releases (Bone Tomahawk, Nocturnal Animals). Rare stills, promotional materials and a filmography are included.

The radical message of Jesus is that there is only one alternative to the common method of confronting violence with more violence. The Only Alternative: Christian Nonviolent Peacemakers in America explores the spiritually active practice of compassionate nonviolence. Here is a journey through the lives of seven courageous American peacemakers who have embodied Christian nonviolence and dedicated their lives to addressing the suffering caused by racial discrimination, slavery, poverty, militarism, nuclear weapons, prisons, environmental degradation, and the psychology of fear and hatred. Here are highlights from the inspirational ideas and actions of Martin Luther King Jr., Dorothy Day, Thomas Merton, Rufus Jones, Thomas Kelly, Jim Douglass, and Kathy Kelly. They remind us that to be Christian is to use the power of love to transform spiritual, economic, and social violence. The great turning from violence to nonviolence is the story of Christianity in America. There has never been a more urgent time for this revolutionary teaching to be heard, understood, and lived. It is no longer a choice, my friends, between violence and nonviolence. It is either nonviolence or nonexistence . . . --Martin Luther King Jr. Human beings are now facing the stark choice between survival and destruction amid myriad forms of violence. The nonviolent peacemakers within this book can inspire the peacemaker within each of us to cultivate a direct relationship with God and love through contemplation, meditation, writing, and compassionate action based in the life and teachings of Jesus.

This book describes and seeks to explain the greatest crimes against humanity, perpetrated by German killing machines. The purpose of this book is not to rehearse atrocities. Rather it is to remind the world and the Germans themselves of something which cannot and should not be forgotten. "The worst crime you can commit today against yourself and society is to forget what happened and sink back into indifference. What happened is worse than you have any idea of. And it was the indifference of mankind that let it take place."

An intriguing analysis of Pearse within the context of contemporary Irish politics and culture.

This book examines the role of history teaching in Irish secondary schools in the period 1922-72. It assesses what objectives were the most important in history teaching and what interests school history was designed to serve. The emphasis is on the political, cultural, social and economic factors that determined the content of the history curriculum and its development. The primary focus is on the politics and policy of history teaching, including the respective contributions of church and state to the formulation of the history programmes. It is argued that a particular view of Ireland's past as a Gaelic, Catholic-nationalist one informed the ideas of policy makers and thus provided the basis of state education policy, and history teaching specifically. The conclusion drawn is that history teaching was used by elite interest groups, namely the state and the church, in the service of their own interests. It was used to justify the state's existence and employed as an instrument of religious education. History was exploited in the pursuit of the objectives of the cultural revival movement, being used to legitimise the restoration of Irish as a spoken language.

Mention Shaft and most people think of Gordon Parks' seminal 1971 film starring Richard Roundtree in a leather coat, walking the streets of Manhattan to Isaac Hayes' iconic theme music. But the black private dick who inspired the blaxploitation film genre actually made his debut on the printed page as the creation of a white novelist. Ernest Tidyman was a seasoned journalist down on his luck when he decided to try his hand at fiction. Shaft was the result, giving Tidyman the break he was looking for. He went on to become an Academy Award winning screenwriter and respected film producer. Based on extensive research of Tidyman's personal papers, this book tells the story of Shaft from the perspective of his creator. The author provides new insight and analysis of the writing of the Shaft novels, as well as the production of the films and TV series. First-ever coverage of the forgotten Shaft newspaper comic strip includes previously unseen artwork. Also included is Shaft's recent reappearance on the printed page, in both comic book and prose form.

The book examines one aspect of the national self-image of Ireland as it was trans-generationally transmitted in the Irish National School environment through the medium of the Celtic mythology tales. Celtic mythology embodied a unique Irishness without b

An account of the exploits of the DeMeo gang--the most deadly hit men in organized crime--describes how their Mafia higher-ups came to know them, use them for profit and pleasure, and fear them. Reprint. The Gaelic Revival has long fascinated scholars of political history, nationalism, literature, and theater history, yet studies of the period have neglected a significant dimension of Ireland's evolution into nationhood: the cultural crusades mounted by those who believed in the centrality of the Irish language to the emergent Irish state. This book attempts to remedy that deficiency and to present the lively debates within the language movement in their full complexity, citing documents such as editorials, columns, speeches, letters, and literary works that were influential at the time but all too often were published only in Irish or were difficult to access. Cautiously employing the terms &"nativist&" and &"progressive&" for the turnings inward and toward the European continent manifested in different authors, this study examines the strengths and weaknesses of contrasting positions on the major issues confronting the language movement. Moving from the early collecting or retelling of folklore through the search for heroes in early Irish history to the reworking of ancient Irish literary materials by retelling it in modern vernacular Irish, O'Leary addresses the many debates and questions concerning Irish writing of the period. His study is a model for inquiries into the kind of linguistic-literary movement that arises during intense nationalism.

More than 500 alphabetical entries provide information on the people, places and events associated with the Mafia.
