Gerald Durrell's My Family and Other Animals is a charming and comic autobiographical novel. Fleeing the gloomy British climate, the Durrell clan move to Corfu carrying the bare essentials of life- acne cures for Margo; revolvers for Leslie; books for Larry and a jam jar full of caterpillars for Gerry. Recounted with warmth and humour, it is a heart-warming portrait of an eccentric family surrounded by a wonderful cast of friends and fauna.

Written with Gerald Durrell's usual sharp eye for observing humour in any situation, Beasts in my Belfry will delight fans both old and new. At the age of two I made up my mind quite firmly and unequivocally that the only thing I wanted to do was study animals. Nothing else interested me. This is a charming account of Gerald Durrell's first job in 1945 as a student keeper at Whipsnade Zoo. Over a year, we encounter a typically absurd cast - including Albert the lion, who's a dab hand at ventriloquism, and Teddy the brown bear, with whom the young Durrell sings duets. With notebook and pen in hand, the eager young Durrell observes his co-workers and animal charges alike. Whether getting dirty mucking out the buffalo enclosure or attempting to cajole a jitter-bugging gnu into a transportation crate, life at the zoo is certainly never boring.

Almost every animal will at some time or another become the home of a parasite. Not only are parasites the most successful life-forms on Earth, they triggered the development of sex, shape ecosystems, and have driven the engine of evolution. Zimmer describes the frightening and amazing ingenuity these commando invaders use to devour their hosts from the inside and control their behaviour. *Sacculina carcini* makes its home in an unlucky crab and proceeds to eat everything but what the crab needs to put food in its mouth, which *Sacculina* then consumes. Single-celled *Toxoplasma gondii* has an even more insidious role, for it can invade the human brain and cause personality changes, making its host less afraid and more prone to danger and a violent end - so that, in the carnage, it will be able to move on to another host. Finally, Zimmer concludes that humankind itself is a new kind of parasite, one that preys on the entire earth. If we are to achieve the sophistication of the parasites on display here in vivid detail, if we are to promote the flourishing of life in all its diversity as they do, we must learn the ways nature lives with itself, the laws of Parasite Rex.

With *Wildhood*, Harvard evolutionary biologist Barbara Natterson-Horowitz and award-winning science writer Kathryn Bowers have created an entirely new way of thinking about the crucial, vulnerable, and exhilarating phase of life between childhood and adulthood across the animal kingdom. In *Wildhood*, they turn the same eye-opening, species-spanning lens to adolescent young adult life. Traveling around the world and drawing from their latest research, they find that the same four universal challenges are faced by every adolescent human and animal on earth: how to be safe, how to navigate hierarchy; how to court potential mates; and how to feed oneself. Safety. Status. Sex. Self-reliance. How human and animal adolescents and young adults confront the challenges of wildhood shapes their adult destinies. Natterson-Horowitz and Bowers illuminate these core challenges through the lives of four animals in the wild: Ursula, a young king penguin; Shrink, a charismatic hyena; Salt, a matriarchal humpback whale; and Slavc, a roaming European wolf. Through their riveting stories—and those of countless others, from adventurous eagles and rambunctious high schooler to inexperienced orcas and naive young soldiers—readers get a vivid and game-changing portrait of adolescent young adults as a horizontal tribe, sharing behaviors and challenges, setbacks and triumphs. Which of these stories is true and which is semi-true I have, of course, not the slightest intention of telling you, but I hope this will not detract from your enjoyment . . . Gerald Durrell introduces an eccentric cast of characters in this entertaining collection of stories, first published in 1991. In the title story, part of the inspiration behind the ITV drama The Durrells, we join his family in Corfu, where Gerry joins forces with Larry and Margo in encouraging Mother to consider finding a new husband, only to rue the consequences. Highlights from the other tales in this collection are the acquisition of a strongly perfumed pig named Esmerelda, a foul-mouthed parrot called Moses, and a compulsive gambler who inspires a miracle. Written with Durrell's usual sharp eye for observing humour in a situation, Marrying Off Mother will delight fans both old and new.

'I once travelled back from Africa on a ship with an Irish captain who did not like animals. This was unfortunate, because most of my luggage consisted of about two hundred odd cages of assorted wildlife . . .' Gerald Durrell's accounts of the animals he encountered on his travels were some of the first widely shared descriptions of the world's most extraordinary animals. Moving from the West Coast of Africa to the northern tip of South America - and elsewhere - Durrell observes the courtships, wars and characters of a variety of creatures, from birds of paradise, to ants and anteaters, among others. Told with his trademark charm and humour, Gerald Durrell's Encounters with Animals is a uniquely entertaining exploration of some of the world's most striking landscapes and the wildlife it is home to.

Durrell is of universal interest not only as a writer about wildlife but as a man dedicated to the saving of species likely to die out. As a result of his pioneering zoo in Jersey, he is everyone's ideal of a crusading conservationist. '

The Durrell family are immortalised in Gerald Durrell's My Family and Other Animals and its ITV adaptation, The Durrells. But what of the real life Durrells? Why did they go to Corfu in the first place - and what happened to them after they left? The real story of the Durrells is as surprising and fascinating as anything in Gerry's books, and Michael Haag, with his first hand knowledge of the family, is the ideal narrator, drawing on diaries, letters and unpublished autobiographical fragments. The Durrells of Corfu describes the family's upbringing in India and the crisis that brought them to England and then Greece. It recalls the genuine characters they encountered on Corfu - Theodore the biologist, the taxi driver Spiro Halikiopoulos and the prisoner Kosti - as well as the visit of American writer Henry Miller. And Haag has unearthed the story of how the Durrells left Corfu, including Margo's and Larry's last-minute escapes before the War. An extended epilogue looks at the emergence of Larry as a world famous novelist, and Gerry as a naturalist and champion of endangered species, as well as the lives of the rest of the family, their friends and other animals. The book is illustrated with family photos from the Gerald Durrell Archive, many of them reproduced here for the first time.

Whether a secularized morality, biblical worldview, or unstated set of mores, the Victorian period can and always will be distinguished from those before and after for its pervasive sense of the "proper way" of thinking, speaking, doing, and acting. Animals in literature taught Victorian children how to behave. If you are a postmodern posthumanist, you might argue, "But the animals in literature did not write their own accounts." Animal characters may be the creations of writers' imagination, but animals did and do exist in their

own right, as did and do humans. The original essays in *Animals and Their Children in Victorian* explore the representation of animals in children's literature by resisting an anthropomorphized perception of them. Instead of focusing on the domestication of animals, this book analyzes how animals in literature "civilize" children, teaching them how to get along with fellow creatures--both human and nonhuman.

Whether it's lamp fishing by night or roving the countryside with his mentor Theodore, Gerry encounters intoxicated hedgehogs, tarantulas, dung beetles, water spiders and other animals, some of which become the family's very unwanted pets. 'A wild and amusing chronicle' *Daily Express* 'This book, an evocation of a budding naturalist's life as a boy on Corfu, will delight many readers, even those who can't stand spiders...' *Evening Standard* 'Delightful, charming, funny' *The Times*

'What we all need,' said Larry, 'is sunshine . . . a country where we can grow.' 'Yes, dear, that would be nice,' agreed Mother, not really listening. 'I had a letter from George this morning - he says Corfu's wonderful. Why don't we pack up and go to Greece?' 'Very well, dear, if you like,' said Mother unguardedly. Escaping the ills of the British climate, the Durrell family - acne-ridden Margo, gun-toting Leslie, bookworm Lawrence and budding naturalist Gerry, along with their long-suffering mother and Roger the dog - take off for the island of Corfu. But the Durrells find that, reluctantly, they must share their various villas with a menagerie of local fauna - among them scorpions, geckos, toads, bats and butterflies. Recounted with immense humour and charm *My Family and Other Animals* is a wonderful account of a rare, magical childhood. 'Durrell has an uncanny knack of discovering human as well as animal eccentricities' *Sunday Telegraph*

Gerald Durrell is among the best-selling authors in English. His adventurous spirit and his spontaneous gift for narrative and anecdote stand out in his accounts of expeditions in Africa and South America in search of rare animals. He divines the characters of these creatures with the same clear, humorous and unsentimental eyes with which he regards those chance human acquaintances whose conversation in remote places he often reproduces in all its devastating and garbled originality. To have maintained, for over fifteen years, such unfailing standards of entertainment can only be described as a triumph. The Argentine pampas and the little-known Chaco territory of Paraguay provide the setting for The Drunken Forest. With Durrell for interpreter, an orange armadillo or a horned toad, or a crab-eating raccoon suddenly discovers the ability not merely to set you laughing but also to endear itself to you.

My Animals and Other Family by Clare Balding is a funny, brave, tender story of self-discovery 'I had spent most of my childhood thinking I was a dog, and suspect I had aged in dog years.' Clare Balding grew up in a rather unusual household. Her father a champion trainer, she shared her life with more than 100 thoroughbred racehorses, mares, foals and ponies, as well as an ever-present pack of boxers and lurchers. As a toddler she would happily ride the legendary Mill Reef and take breakfast with the Queen. She and her younger brother came very low down the pecking order. Left to their own devices, they had to learn life's toughest lessons through the animals, and through their adventures in the stables and the idyllic Hampshire Downs. From the protective Candy to the pot-bellied Valkyrie and the frisky Hattie, each horse and each dog had their own character and their own special part to play. The running family joke was that "women ain't people". Clare had to prove them wrong, to make her voice heard - but first she had to make sure she had something to say. 'Moving, funny and larger than life' Michael Morpurgo 'Magical, enchanting, riotously eccentric' Daily Mail 'Funny and unexpectedly wise. Balding has lots of good stories to tell. It is impossible not to admire her honesty Mail on Sunday 'The reading equivalent of snuggling by the fire with a labrador' The Guardian

Journey to South America on a search for endangered species with the author of My Family and Other Animals. In 1950, Gerald Durrell set off for British Guiana (now Guyana) to collect native wildlife and bring it back to his Jersey Wildlife Preservation Trust on the island of Jersey in the English Channel. On his journey, Durrell experienced all kinds of adventures: some amusing, some thrilling, and some extremely irritating. He traveled up the Essequibo River into the lush tropical forests and trekked across a landscape teeming with life and color. He encountered the sakiwinki monkey and the sloth with curiously green fur, heard the horrifying sounds of rampaging piranhas, and learned how to lasso a galloping anteater. He even met an ill-tempered anaconda and an overly affectionate bird. This remarkable memoir will take you into a wild place in another time, accompanied by the highly entertaining naturalist whose writings inspired popular Masterpiece series The Durrells in Corfu. This ebook features an illustrated biography of Gerald Durrell including rare photos from the author's estate.

This early work by Jerome K. Jerome was originally published in 1926 and we are now republishing it with a brand new introductory biography. 'My Life and Times' is the autobiography of this humorous author of fiction and essays. Jerome Klapka Jerome was born in Walsall, England in 1859. Both his parents died while he was in his early teens, and he was forced to quit school to support himself. In 1889, Jerome published his most successful and best-remembered work, 'Three Men in a Boat'. Featuring himself and two of his friends encountering humorous situations while floating down the Thames in a small boat, the book was an instant success, and has never been out of print. In fact, its popularity was such that the number of registered Thames boats went up fifty percent in the year following its publication.

'In the gloom it came along the branches towards me, its round, hypnotic eyes blazing, its spoon-like ears turning to and fro independently like radar dishes . . . it was Lewis Carroll's Jabberwocky come to life . . . one of the most incredible creatures I had ever been privileged to meet.' The fourth largest island in the world, Madagascar is home to woodlice the size of golf balls, moths the size of Regency fans and the Aye-Aye, a type of lemur held by local superstition to be an omen of death. But when Gerald Durrell visited the island, the destruction of the forests meant that the Aye-Aye and many other creatures were in danger of extinction. Told with his unique sense of humour and inimitable charm, Gerald Durrell's The Aye Aye and I is the final adventure from one Britain's best loved conservationists.

'An affectionate and insightful account of 20th-century history that also amounts to a manifesto for the power of words - and belonging.' Helen Davies, a Sunday Times Book of the Year In July 1961, just before David Aaronovitch's seventh birthday, Yuri Gagarin came to London. The Russian cosmonaut was everything the Aaronovitch family wished for - a popular and handsome embodiment of modern communism. But who were they, these ever hopeful, defiant and (had they but known it) historically doomed people? Like a non-magical version of the wizards of J. K. Rowling's world, they lived secretly with and parallel to the non-communist majority, sometimes persecuted, sometimes ignored, but

carrying on their own ways and traditions. Where others went to church they went to Socialist Sunday School, society's up was their down and its heroes were their villains. Who wanted American TV when you could have Russian movies? A memoir of early life among communists, Party Animals first took David Aaronovitch back through his own memories of belief and action. But there was much more to it. He found himself studying the old secret service files, uncovering the unspoken shame and fears that provided the unconscious background to his own existence as a party animal. Only then did he begin to understand what had come before - both the obstinate heroism and the monstrous cowardice. And the elements that shape our fondest beliefs.
