Part research manual, part study guide, and part introduction to the study of history, *Essaying the Past* guides the reader through the nuts and bolts of producing good historical prose, offering key strategies and useful tips. Includes expert advice on writing about history, conducting good research, and learning how to think analytically. Covers important topics such as framing questions, developing a strong introduction and topic sentences, choosing good evidence, and the crucial role of revision. An annotated case study takes the reader through one student's process of writing an essay and illustrates how strategies discussed in the book can be successfully implemented. Six appendices cover the major issues facing students today, such as the dangers of plagiarism and the role of the internet.

This comprehensive text explores the practical techniques for financial asset investigation. It steers private investigators, collection specialists, judgment professionals, and asset recovery specialists in undertaking information collection in a legal manner. This new edition remains the predominate primer on how to find assets to satisfy judgments and debts, but it now also includes a significant focus on the emerging underground economy. New chapters cover individual and enterprise involvement in the emerging OC shadowOCO financial domain. This includes the new world of OC smartphones, OCO prepaid cards, carding operations, and electric money laundering. The text explores the connections between stolen credit card information, the gambling sector, money laundering, and the role a subject may play in a larger criminal enterprise. A new chapter also discusses organized crimeOCOs impact on the Internet and financial transactions in cyberspace. The book also addresses the impact of portable digital devices on civil and criminal investigations and the new challenges for investigators working through this electronic labyrinth. Each chapter begins with a brief introduction and objectives and ends with a helpful summary. Significant Internet and electronic sources appear in the tables at the end of chapters, as do useful forms provided for gathering, organizing, and analyzing data. New also to this edition is a glossary that defines terms introduced in the text and an appendix that provides a checklist for traditional and nontraditional asset investigations. Financial investigation is a fascinating subject that continually yields new information, and this fourth edition seeks to provide an understanding of the digital forensics and mobile digital technologies for the asset investigator's toolbox of the twenty-first century."

When turmoil broke in Kashmir in 1989 so much happened there- an explosive uprising, rule of gun on the streets, exodus of Kashmiri Pandits and conversion of Kashmir into a 'beautiful prison'. 'Whiteman in dark' is a memoir of a female doctor trained in Kashmir during the peak years of turmoil. The pain of spine-breaking crackdowns, unending curfews, violent protests and prolonged sieges is described in the setting of 'Downtown' Srinagar adjoining the area of Kohimaran where Muslims, Hindus, and Sikhs would converge and bow together. Besides an in-depth account of the effect of turmoil on the lives of medical students, medical education and healthcare the memoir describes how doctors were 'churned out in adverse circumstances'. After militancy was curbed, the lull and calmness seen as signs of peace returning-was a temporary fatigue, with people flooding the streets again in 2008,2009 and 2010.This time the weapon was a 'stone' and not a gun. Same story happened,...Curfew returned,

disorder prevailed and Kashmiri again was the target. Today became another yesterday. The memoir is meant to touch the heartstrings of all sensitive beings who believe in peace. It is first memoir by a Kashmiri female and first one by a doctor. Politically Incorrect Essays by a Concerned Activist introduces 9 of the most important reviews and essays by social critic, activist, and essayist Mia A Tréstroke. Addressing the major political, social, religious, and philosophical issues of today, Mia A Tréstroke confronts the topics most people would prefer to ignore or appease: Muslim terrorists, homosexuality, religious hypocrisy, the false promises of science, and the rise of psychopaths and sociopaths in our society. In keeping with the tradition of activism, Mia A Tréstroke refuses to kowtow to political correctness and ploughs headlong into the truths that society has tried to cover up for too long.

The book is a narrative of one family's entanglement with the child welfare system. As the title suggests, it was a nightmare of bureaucratic red tape, personal grudges, abuse of power and, most importantly, a powerful example of interpersonal and institutional racism. The manuscript chronicles the day-to-day, mind-boggling decisions of child welfare authorities and agents, the rules that only make sense on a legislator's legal pad, and the contradictions and misrepresentations that drove a relatively privileged family to despair.

Facharbeit (Schule) aus dem Jahr 2010 im Fachbereich Soziologie - Recht, Kriminalität abw. Verhalten, Note: 1,0, Erasmus-Widmann-Gymnasium Schwäbisch Hall, Sprache: Deutsch, Abstract: „I don't like Mondays“. Diese Aussage nannte Brenda Ann Spencer als Grund für ihre schreckliche Tat, die sich am 29. Januar 1979 vor der Grover Cleveland Elementarity School in San Diego ereignete. Zu diesem Zeitpunkt war die Täterin gerade einmal 16 Jahre alt, als sie mit einem Gewehr das elterliche Haus verließ und zwei Menschen erschoss. Eine Tragödie, deren tatsächliche Ursache ein Rätsel bleibt. Der Ausspruch „I don't like Mondays“ unterstreicht die Sinnlosigkeit des Massakers und sorgte weltweit für Aufmerksamkeit. Aufgrund dieser Tat veröffentlichte Sänger Bob Geldof mit der irischen Popgruppe The Boomtown Rats noch im selben Jahr das Lied „I don't like Mondays“, welches in den 80-ern zum erfolgreichen Hit wurde. Schon damals gewann das Thema „Amok“ an Bedeutung und die öffentliche Aufmerksamkeit, vor allem nach einer begangenen Tat. Dieser Effekt der Medien ist heute stärker ausgeprägt als jemals zuvor. Dabei gilt: Je mehr Opfer ein Amoklauf fordert, desto höher das Medieninteresse. Statistiken zufolge sind die Fallzahlen von Amoktaten, sowohl im privaten als auch öffentlichen Raum, in den letzten 15 Jahren angestiegen. Dieser Fakt provoziert die Frage, ob wir uns noch häufiger auf Gewalttaten, wie in Deutschland vor allem zuletzt in Winnenden geschehen, einstellen müssen, die von Schülern begangen werden. Nachdem mich die erschütternde Nachricht vom Amoklauf in Winnenden erreichte, war ich, wie meine Mitschüler und alle Personen, die ich kenne, schockiert und habe festgestellt, dass ich mich nie mit diesem Thema auseinandergesetzt habe, dass ich kaum Kenntnisse besitze und dass die Berichterstattung in den Medien und die öffentlich geführte Diskussionen mich zunehmend verwirrten. Auch in meiner Klasse hatte ich den Eindruck, dass sich die Schüler gerne näher mit dem Thema auseinandersetzen möchten, es dazu jedoch bislang kein Angebot in der Schule gab. Hier sah und sehe ich Nachholbedarf. Somit wählte ich das Thema Amok, insbesondere an Schulen, aus, um mich im Rahmen der Facharbeit intensiver mit dem Themenkomplex befassen zu können.

"This book is an appreciation of selected authors who make extensive use of humor in English detective/crime fiction, ranging from mild wit to outright farce, burlesque, even slapstick. This is not intended as an exhaustive study but as an introduction into the best produced by a handful of very capable and enjoyable authors"--

Annotation. Digital methods may be contrasted with what has come to be known as virtual methods, a currently dominant approach to the study of the Internet. Virtual methods, rooted in the U.K. Virtual Society? program (1997-2002), sought to ground cyberspace by demonstrating how it was hardly a realm apart. Whereas virtual methods have made great strides, they rely on methods imported from the humanities and the social sciences. Do the methods have to change, owing to the specificity of the medium and its objects? With the end of the virtual, I propose that Internet research may be put to new uses, given an emphasis on natively digital as opposed to digitized methods. How to capture and analyze hyperlinks, tags, search engine results, archived websites, and other digital objects? What may one learn from how online devices make use of the objects, and how may such uses be repurposed for social and cultural research? Ultimately, I propose a research practice that grounds claims about cultural change and societal conditions in online dynamics. My main purpose in writing this account is to preserve a record of the experiences many Australian 'expats' like myself were privileged to have during their time in Papua New Guinea. These experiences formed us and shaped our future lives. Another reason for writing Lively Tales is to create a brief history of the country known as Papua New Guinea. With the availability of the internet this may seem redundant. However, I have woven into this small account some of the historical issues that were of interest to me while I lived in PNG and perhaps in their concise form they may prove useful to anyone wanting all the information in one place. I have used Wikipedia extensively to create a background for my own story. Where possible I have double-checked the information to make sure it is reliable. I have also corresponded with Wikimedia to request their policy on quoting from the various articles. Part of their reply is as follows: 'In principle, all text in Wikipedia is subject to the Creative Commons Attribution-ShareAlike License (CC-BY-SA) and may be used free of charge for any purpose.' My own story which seemed fairly ordinary at the time now appears, even to me, to illustrate an era of Australia's history that was quite exemplary. True, we were colonists. We were not perfect either as individuals or as administrators, but on the whole we succeeded in bringing an end to our responsibilities in PNG in good time and with good will. It was an historic era and Australia played its part fairly well. We 'expats' gave our best for the country we grew to love. We left a part of our hearts there. So, I would like to dedicate this small book to the memory of the people I met in PNG and the country I learned to love.

Hackers as vital disruptors, inspiring a new wave of activism in which ordinary citizens take back democracy. Hackers have a bad reputation, as shady deployers of bots and destroyers of infrastructure. In Coding Democracy, Maureen Webb offers another view. Hackers, she argues, can be vital disruptors. Hacking is becoming a practice, an ethos, and a metaphor for a new wave of activism in which ordinary citizens are inventing new forms of distributed, decentralized democracy for a digital era. Confronted with concentrations of power, mass surveillance, and authoritarianism enabled by new technology, the hacking movement is trying to "build out" democracy into cyberspace.

With essays ranging in topic from the films of Neil LaBute to the sexual politics of Major League Baseball, this diverse collection of essays examines the multi-faceted media images of contemporary masculinity from a variety of perspectives and academic disciplines. The book's

first half focuses on the issue of racialized masculinity and its various manifestations, with essays covering, among other topics, the re-imagining of Asian American masculinity in Justin Lin's *Better Luck Tomorrow* and the ever-present image of black male buffoonery in the neo-minstrel performances of VH1's *Flavor of Love*. The book's second half explores the issue of contemporary mediated performance and the cultural politics of masculinity, with essays focusing on popular media representations of men in a variety of gendered roles, from homemakers and househusbands to valorous war heroes and athletic demigods.

At the age of ten, Fred Riley joined a gang of kids from his neighborhood corner in a section of Revere, MA called Beachmont. Later this gang merged with another Beachmont gang and together they faced the hostilities of two notorious Boston gangs, involved in the underworld wars of the late 50's thru the 70' s that led to numerous deaths. These confrontations were personal for Fred. The South Boston gang led by Donald Killeen & Whitey Bulger was called the "Gustin Street Gang," the East Boston gang was led by the infamous Joe "the animal" Barboza. A transformative event takes place as Fred is faced with the decision to kill an adversary. In a troubled state of mind, Fred walks aimlessly around Boston and ends up on Beacon Hill facing Suffolk University. The Athletic Director, Mr. Law, had offered Fred a basketball scholarship when he was in high school. Mr. Law was in his office that day and remembered Fred. He was instrumental in getting Fred accepted to Suffolk University. Fred's choice that fateful day led to a distinguished career prosecuting organized crime figures and public corruption at the highest level of state government while serving four governors.

Neptune Noir is a collection of essays on the hit drama *Veronica Mars*, and is not authorized by CW, the creators or producers of *Veronica Mars*, or any entity associated with the show. More than just a high school drama, *Veronica Mars* is a smart and savvy teen detective show that offers complex mysteries and rapier wit, engaging social commentary, and noir sensibilities—with the occasional murder thrown in for good measure. This collection, edited by the creator and executive producer of the show, offers supreme insight into the class struggles and love stories of the series. Essays by top writers intelligently address a multitude of questions, such as *Is Veronica a modern-day vigilante? Why is a show that features rape, potential incest, and a teen girl outsmarting local authorities so popular with America's conservative population? and Why is Veronica and Logan's relationship the most important story-driving factor in the show?*

Follow this orphan through two orphanages in Pennsylvania from the age of 2 until the age of 14 when he runs away and lives on the streets of Philadelphia. A four year stint in the US Air Force is followed by a concurrent pursuit of education including law school while working as a conductor on the railroad and publishing a small town newspaper. Many relationships are attempted but none succeed. A despicable crime earns him a punishment of a 20 year sentence in Folsom State Prison in California. Considered the most violent US prison in the 80s, cunning, luck and mainly faith allow him to survive. Following an early release he spends almost twenty years as a public servant, using computer skills learned before leaving the prison system. The essence of this unbelievable autobiography is a quest to find the answers to two questions that haunt society and whose experts have been unable to answer. What is a cause and what is a cure for pedophilia? If those experts read this autobiography, they may find clues or answers to each question. The author discovers his answers by re-living his life through this writing. Because of the content of this unique book, there is a printed warning that must be read before reading this unique life story. This book is intended for open-minded adults, parents, teachers, psychiatrists, psychologists, social workers, law enforcement and justice officials, and perhaps Christians who might just want to read the mother of all testimonies. It is especially directed at those persons on the verge of committing the same

crime for which Steve A. Mizera spent a frightening time in prison in the hope that they will not repeat his mistake and ruin their life, and create a victim whose life will also be ruined. At times this book is both funny and serious. The reader may cry or get angry. Whatever else it may be, it is also an education that may not be available anywhere else. Elizabeth McCrory wrote the introduction to this book in which she offers the reader plenty of reasons to read it: "Steve Mizera would not have chosen the childhood he was forced to endure. Nobody would. News reports pop up all the time about figures in positions of leadership using their superiority and power to abuse trusting young children. Boy Scout leaders, Catholic Priests, and even more recently, Penn State coaches have all been stigmatized for their role in the suffering of children under their watch. Unfortunately for Steve, the institution he lived in as a young boy included the stereotypical pedophilic activity making headlines today. His journey starts in a very dark place, and brings the reader through his adolescence to his adulthood, including details of the horror he inflicted on victims of his own, eventually finding a new life in Christ, with a loving family that he had been robbed of as a boy. Along the way, the author describes his own theories and insights regarding the choices of those around him, as well as his own. When the opportunity arose for me to help proofread and edit his initial writings, I found myself intrigued, hoping his words will help reach others and possibly assist them to seek help and/or enlightenment of their own. As it is often said, if this book helps stop one child from being abused, or steers one offender toward rehabilitation, then his goal will have been fulfilled."

Maria Cavalcante-Fleming, born and raised in the city of São Paulo, Brazil, is a certified and licensed special education teacher for the department of education in Honolulu, Hawaii. She came to the United States of America in 1981. She comes from a large family of eleven brothers and five sisters, all living in Brazil. Her two children—born in Portland, Oregon, and raised in Kailua, Hawaii—are David Alfredo Fleming, thirty years old, and Amanda Marie Fleming, twenty-eight years old, who both reside in Oregon. Maria earned her bachelor's degree in education in São Paulo, Brazil, and her master's degree in special education in Honolulu, Hawaii. She has been teaching elementary school students in Hawaii for over twenty-six years. Before coming to America, she taught Portuguese and English in São Paulo, Brazil, for four years. Her hobbies include reading romantic novels, watching musicals and classical movies, and travelling. She visited several places: New York City, where she lived for two years; Washington, DC; Philadelphia; Boston; Chicago; Seattle; Portland, where she lived for four years; Niagara Falls; London; Paris; Vancouver; and Ottawa. Her favorite hobby is painting in acrylic on canvas boards. She has painted over fifteen pieces of artwork, which include seascape, landscape, portraits, animals, and still life. Some of her paintings, she created to illustrate this book. She enjoys writing books about her life, which she began in the fall of 2013. On her first book, *My Life in Brazil*, she tells her story about growing up in Brazil with her sixteen siblings. On her second book, *My Life in USA - Part 1*, she tells how she came to America on her own and survived countless obstacles as an immigrant who, at first, could barely speak a full sentence in English. She is currently working on her third book, *My Life in USA – Part 2*, on which she tells her story as a divorced mother struggling to survive on her own and how she has come thus far.

Human by Design invites you on a journey beyond Darwin's theory of evolution, beginning with the fact that we exist as we do, even more empowered, and more connected with ourselves and the world, than scientists have believed possible. In one of the great ironies of the modern world, the science that was expected to solve life's mysteries has done just the opposite. New discoveries have led to more unanswered questions, created deeper mysteries, and brought us to the brink of forbidden territory when it comes to explaining our origin and existence. These discoveries reveal the following facts:

- Fact 1. Our origin —Modern humans appeared suddenly on earth approximately 200,000 years ago, with the advanced brain, nervous system, and capabilities that set them apart from all other known forms of life already developed, rather than having developed slowly and gradually over a long periods of time.
- Fact 2. Missing physical evidence —The relationships shown on the conventional tree of human evolution are speculative connections only. While they are believed to exist, a 150-year search has failed to produce the physical evidence that confirms the relationships shown on the evolutionary family tree.
- Fact 3. New DNA evidence —The comparison of DNA between ancient Neanderthals, previously thought to be our ancestors, and early humans tells us that we did not descend from the Neanderthals.
- Fact 4. A rare DNA fusion —Advanced genome analysis reveals that the DNA that sets us apart from other primates, including in our advanced brain and nervous system, is the result of an ancient and precise fusion of genes occurring in a way that suggests something beyond evolution made our humanness possible.
- Fact 5. Our extraordinary abilities —We are born with the capacity to self-heal, to self-regulate longevity, to activate an enhanced immune response, and to experience deep intuition, sympathy, empathy, and, ultimately, compassion —and to do each of these on demand. In this book, New York Times best-selling author and 2017 Templeton Award nominee Gregg Braden crosses the traditional boundaries of science and spirituality to answer the timeless question at the core of our existence —Who are we? —and to reveal science-based techniques that awaken our uniquely human experiences of deep intuition, precognition, advanced states of self-healing, and much more! Beyond any reasonable doubt, Human by Design reveals that we're not what we've been told, and much more than we've ever imagined.

Contains all nine volumes of the paranormal mystery serial. For young adults on up. Jade Greene remembers nothing from the time she went missing except a blinding headache and an evil clown with a syringe. Not exactly the stuff to convince others of her sanity. Nobody at the summer carnival believes Jade was even in danger except her secretive co-worker Max Harper, a stranger she can neither trust nor resist. But things about Max don't add up. Like why does he turn up wherever Jade is? Why is he so evasive? And why do people around him keep ending up dead? Only two things are certain: People in town aren't who they seem. And things for Jade are about to get much, much worse

The product of three years research in Saudi Arabia on what Wahhabism means

to those whose lives are governed by its formidably strict tenets. The world is constantly changing and we never know how tomorrow will be different from today. There are many things we can prepare for in life and some we can't. It's the ones we can't that make us understand how fragile we are as humans. Who would have thought, in our time of technology superiority and medical wonderment, we would shut down our world to deal with a virus from COVID-19? Why did we shut down our world? What were we afraid of? Getting a little sick? Getting a lot sick? Dying? AHA! DYING! IS IT DYING? ARE WE AFRAID OF DYING? SERIOUSLY? If our lives are so valuable to us, then why do we allow ourselves to be killed so easily? We can live one of two ways: We can lock ourselves in or let ourselves out. We may be able to protect ourselves more from dying if we lock ourselves in but if we let ourselves out, welcome to your world! In case you don't recognize it, yours is the world where crime runs rampant, murder is an everyday thing, and there's a pretty good chance you, a loved one, or a friend of yours is going to be hurt by another human being (who is someone's child) and you will live with the pain of having been hurt by them for the rest of your life . . . and the persons responsible for your pain will never get punished! We need to stop our future from ending by going down the path it is. We need to stop building ourselves wrong! This book can help us start stopping! There are nearly 7.5 billion people on earth. It is estimated there are over 4,000 religions and it is believed people speak about 6,500 languages. Yet there is no religion anywhere in the civilized world saying a person cannot kill us or our children. There is no government saying the right person will be held responsible for stealing from us or our family. There is no law of any land saying that a person is not allowed to make a mockery of, tease, bother, insult, lie about, embarrass, or in any way destroy another human being! Each of us has the right – unrestricted – to do anything evil, hateful, harmful, and without justification to any other person on our planet without recourse! How is that? Because parents do something wrong if their children do something wrong! And that means if their children EVER do something wrong: ANY time, ANY place!! 1+1 should not equal 3 . . . unless the 3 is a good 3! Blame and Punish helps us understand what, and why, we need to begin believing . . . and fixing! For 300,000 years we've been doing this wrong! It's time to make sure we can live our lives without them ending prematurely so let's Blame and Punish right!

Very Special Episodes examines how the quintessential “very special episode” format became a primary way in which the television industry responded to and shaped social change, cultural traumas, and industrial transformations. With essays covering shows ranging from the birth of Desi Arnaz, Jr. on I Love Lucy to contemporary examples such as a delayed episode of Black-ish and the streaming-era phenomenon of the “Very Special Seasons” of UnReal and 13 Reasons Why, this collection seriously and critically uses the “very special episode” to chart the history of American television and its self-identified status as an arbiter of culture.

This fascinating and timely book traces the emergence and evolution of cybercrime as an increasingly intransigent threat to society. * A chronology traces the emergence and evolution of cybercrime from the 1950s to the present * Detailed descriptions and analysis of real cybercrime cases illustrate what cybercrime is and how cybercriminals operate

Meeting someone online is fine until you run into someone full of lies and deception. Before you run off and marry someone from a foreign country read my true story first, it might make you think twice.

Commentators have noted the extraordinary impact of popular culture on legal practice, courtroom proceedings, police departments, and government as a whole, and it is no exaggeration to say that most people derive their basic understanding of law from cultural products. Movies, television programs, fiction, children's literature, online games, and the mass media typically influence attitudes and impressions regarding law and legal institutions more than law and legal institutions themselves. *Law and Popular Culture: International Perspectives* enhances the appreciation of the interaction between popular culture and law by underscoring this interaction's multinational and international features. Two dozen authors from nine countries invite readers to consider the role of law-related popular culture in a broad range of nations, socio-political contexts, and educational environments. Even more importantly, selected contributors explore the global transmission and reception of law-related cultural products and, in particular, the influence of assorted works and media across national borders and cultural boundaries. The circulation and consumption of law-related popular culture are increasing as channels of mass media become more complex and as globalization runs its uncertain course. *Law and Popular Culture: International Perspectives* adds to the critical understanding of the worldwide interaction of popular culture and law and encourages reflection on the wider implications of this mutual influence across both time and geography.

"Out of the secret world I once knew, I have tried to make a theatre for the larger worlds we inhabit. First comes the imagining, then the search for reality. Then back to the imagining, and to the desk where I'm sitting now." From his years serving in British Intelligence during the Cold War, to a career as a writer that took him from war-torn Cambodia to Beirut on the cusp of the 1982 Israeli invasion to Russia before and after the collapse of the Berlin Wall, le Carre has always written from the heart of modern times. In this, his first memoir, le Carre is as funny as he is incisive, reading into the events he witnesses the same moral ambiguity with which he imbues his novels. Whether he's writing about the parrot at a Beirut hotel that could perfectly mimic machine gun fire or the opening bars of Beethoven's Fifth, visiting Rwanda's museums of the unburied dead in the aftermath of the genocide, celebrating New Year's Eve 1982 with Yasser Arafat and his high command, interviewing a German woman terrorist in her desert prison in the Negev, listening to the wisdoms of the great physicist, dissident, and Nobel Prize winner Andrei Sakharov, meeting with two former heads of the KGB, watching Alec Guinness prepare for his role as George Smiley in the legendary BBC TV adaptations, or describing the female aid worker who inspired the main character in "The Constant Gardener," le Carre endows each happening with vividness and humor, now making us laugh out loud, now inviting us to think anew

about events and people we believed we understood. Best of all, le Carre gives us a glimpse of a writer's journey over more than six decades, and his own hunt for the human spark that has given so much life and heart to his fictional characters."

Holocaust movies have become an important segment of world cinema and the de-facto Holocaust education for many. One quarter of all American-produced Holocaust-related feature films have won or been nominated for at least one Oscar. In fact, from 1945 through 1991, half of all American Holocaust features were nominated. Yet most Holocaust movies have fallen through the cracks and few have been commercially successful. This book explores these trends--and many others--with a comprehensive guide to hundreds of films and made-for-television movies. From Anne Frank to Schindler's List to Jojo Rabbit, more than 400 films are examined from a range of perspectives--historical, chronological, thematic, sociological, geographical and individual. The filmmakers are contextualized, including Charlie Chaplin, Sidney Lumet, Steven Spielberg and Roman Polanski. Recommendations and reviews of the 50 best Holocaust films are included, along with an educational guide, a detailed listing of all films covered and a four-part index-glossary.

Part real-world survival guide and part nitty-gritty how-to handbook, *The Nonprofit Marketing Guide* will show you how to hack through the bewildering jungle of marketing options and miles-long to-do lists to clear a marketing path that's right for you and your organization, no matter how understaffed or underfunded. You'll see how to shape a marketing program that starts from where you are now and grows with your organization, using smart and savvy techniques, both offline and online. *The Nonprofit Marketing Guide* boils down the best of today's nonprofit marketing theories into practical, cost-effective, can-do strategies and uncovers the street-tested tactics that you really can pull off on your own. You'll also find concrete tips on how to sit down and produce nearly two dozen specific marketing publications for your nonprofit and additional resources on the companion website. Over the last seven years, the author has done a significant amount of new research via their annual *Nonprofit Communications Trends Reports*, where 650+ nonprofits take an extensive survey. This new data on the communications goals, strategies, objectives and tactics most often used in the nonprofit sector will be integrated throughout the revision.

Strange Embrace started out to be a novel based on *Johnny Midnight*, a TV series which everyone has long since forgotten. Except, of course, that nothing manages to be forgotten in the Internet Age. I, whose job it was to knock out 50,000 words of Johnny Midnightish prose and dialogue, had forgotten when it ran and who was in it, but Google took no time at all to remind me that the title role was played by Edmund O'Brien, and that the series ran during the first nine months of 1960. And if you want to know more about it, well, Google and Wikipedia are there to enlighten you. I was in New York, newly married, living at 110 West 69th Street. I was writing short stories for crime fiction magazines, erotic novels for *Midwood* and *Nightstand*, and fielding assignments that my agent steered in my direction. Two of these were from paperback publishers who had acquired the book rights to a TV drama and wanted to hire someone to write a book. First up for me was a show called *Markham*, which starred Ray Milland. Belmont was to be the publisher, and I had to write that book twice. My first effort turned out to be too good to waste its fragrance on Belmont's desert air, and my agent had me change the title and the names of the characters and sold the thing to

Gold Medal. So I had to write it again, and I did, and they liked it okay and published it. Next up was Beacon Books, with "Johnny Midnight" as both the book's inspiration and its title. I wrote it, but by the time Beacon was preparing it for publication, the series had been canceled. The publisher saw no reason to pay a licensing fee for a moribund show, and accordingly changed names: Johnny Midnight became Johnny Lane, and his trusty servant morphed from Uki to Ito. And Lawrence Block became Ben Christopher for the occasion. I don't know what kept me from using my own name, the book was crime fiction rather than the erotica that seemed to call for a pen name, but I do remember that my great friend Donald E. Westlake had recently done some sort of tie-in novel and hung the name Ben Christopher on it, telling me it would be his pen name for tie-ins he was anxious to forget. I horned in on the name, and if Don found this irksome he kept it to himself. Someone at Beacon picked the title. Strange Embrace. Well, there's a lesbian element in the book, and I guess they wanted to play it up, and "strange" was a useful code word toward that end. I could call it something else now that I'm republishing it as part of my Classic Crime Library, but it's had enough transformations over the years. Ray Milland I should add, had no better luck than Edmund O'Brien; his show Markham was canceled after a single season. Belmont evidently didn't get the news in time to act on it, and they dutifully published the book as Markham: The Case of the Pornographic Photos. When I okayed a reissue years later by another publisher I changed the title to You Could Call It Murder—and it's available now with that title, in paperback or ebook, as Classic Crime Library #12. (And the book it was written to replace, which Gold Medal called Death Pulls a Doublecross, is now #13 in the Classic Crime Library with my original title restored: Coward's Kiss.) And here's CCL #19, Strange Embrace. Enjoy it!

This book is the story of one person's life; however, in the broader sense, it touches the lives of a multitude of people everywhere. It is a story about faith, love, and hope. It's a story first of my faith in God, although a shallow faith at times, stemming from a lack of knowledge and understanding of His word and being raised in an environment that lacked the promotion of God's word as a way of life. Next, the love of God that is never ending, unfailing, consistent, loyal, faithful, and an unconditional love. Finally, hope—a four-letter word that has the supernatural power to transform that which was once dead into life, a beautiful life with a good future. In addition, hope is the push behind perseverance that helps a person achieve success in spite of challenges, great or small. Hope is the propeller that helps to lift a person out of the lowest times in their life and propels them to unimaginable heights. As you read this book, you will see how my life was catapulted into seasons of darkness, yet through that darkness, the light shown greater as it came bursting through the darkness from the power of who is on the inside. "Greater is He that is in you, than he that is in the world" (1 John 4:4, KJV). When you read this book, instead of focusing on the bad events or words of darkness by the evil one that were intended to destroy me, focus on the acts of the Heavenly Father and my beloved Savior Jesus, who lives in my heart, for all of the miraculous things they have done in my life. We may go through bad events in life, but we don't go through them alone, and Jesus won't allow them to destroy us. Scripture tells us in Revelation that we overcome (conquer, prevail, be victorious over), by the blood of Jesus and the word of our testimony (what you witnessed). "And they [God's people] overcame him [Satan] by the blood of the Lamb [Jesus] and by the word of their testimony" (Rev. 12:11, KJV). This book is a testimony that God is in total control of all things and that we are overcomers through Jesus the Christ (the Anointed One). In life, we may face situations that are unbearable, hurtful, sad, or challenging; but we can trust that God will never fail us.

The Journey of Frank Antoine Lewis is the first book of a series that will walk you through the life of an ex-gang member that at fourteen years old shot two young USC students in a blotched Hollywood armed robbery. The journey will outline the contributing factors that caused such a young child to take a path of destruction, drug abuse, gang membership, incarceration, and death. After serving several years in a youth correctional facility, Frank Lewis now serves time teaching in a youth correctional facility. The journey series will walk you through the steps that he took to make the proper changes that are required to make a change in life. The Journey is the heartfelt story of a young man that at ten years old witnessed a horrific murder that traumatized him. With no proper guidance, discipline, or structure, young Frank turned to the local Inglewood, California, street gang for support. After being recruited by a current California death row inmate, Frank became more tunnel-visioned, remorseless, and criminal minded. If you google "Frank Antoine Lewis," you can see that this young man has walked a hard journey and most individuals, statistics, and recidivism rates predicted that

he should be in prison today. That is not the case Frank Lewis currently is a two-time college graduate with both an associate's and bachelor's degrees. Frank has overcome the obstacles that many at risk youth face today. The journey is the blueprint to counter the blueprint established by Willie Lynch and his blueprint of slavery. The journey will give young people a hope that no matter how bad today looks if you keep striving for excellence than good things will happen. Frank Lewis has walked the life of a criminal, and it is his passion to assist other young people in their struggle to get back on track. The journey provides that example of a young man that, despite the odds, has risen up from his criminal behavior to make a change in the future generation so that they can see if you strive to accomplish your goals that you can do just that.

After overdosing on painkillers, Angel wakes up in the emergency room with a craving for brains and an anonymous letter that states that there's a job offer she shouldn't refuse at the county morgue.

In this provocative new book, the authors tell the fascinating story of the Internet's challenge to governmental rule in the 1990s, and of the fate of one idea--that the Internet might liberate users forever from government, borders, and even their physical selves.
