The journey of life begins in the womb for human creatures, and the path each life takes is special. Each individual has a journey to make, and each will take many turns as we learn to crawl, walk, and eventually run the many pathways, roadways, byways, highways, expressways, and sometimes alleyways as we search for the truth of life. Life is so beautiful—that is why everyone wants to hold on to it forever. For Claude B. McQueen, Sr.—called “Doshie”—life began in a humble home in the South. One of eight children, Doshie learned early on that the greatest wealth a person can hope to have is the love of family. Through each of life’s many struggles, Doshie and his siblings turned to each other for courage and hope, and together they made life as beautiful as they could. And in the times when human weakness pulled them apart, they learned just how valuable that familial bond is. Despite a lifetime of adversity, struggle, and occasional sorrow, Doshie held to his optimism and love of his fellow man. His story is one of persistence, compassion, challenge, and hope.

In her own individual style she will take you on a journey through 35 of her very own stories. Like every little girl should, Sadie doesn’t quite understand the strange idea of becoming ‘a grown-up’, she has much better things to enjoy – just as you will too when you join Sadie and her never-ending curiosity.

Originally, Grandpa's Book was written as an attempt to leave a legacy for his children and grandchildren. The stories were just too good to keep inside the family unit and the book(s) were soon passed around to friends. Shortly, strangers were calling for copies, many demanding that the book be published, so that they too might own a copy. Comments from some delighted readers "I couldn't put the book down. My wife couldn't understand why I wouldn't come to bed. She read the book and said that she absolutely understands why. She remarked that she laughed at the punch lines and eagerly anticipated the next scrape that Grandpa Ray might get into." "Grandpa Ray is a master storyteller!" "Pacing and cadence are effectively employed to make readers laugh at the punch lines." "Well-written, fun and easy-to-read, Grandp's memoir brims with love, humor and warmth. He masterfully employs the techniques of anecdotes to create an invaluable legacy for his children." "IN THE preparation of this book the author has tried to give an interesting account of the invention and workings of a few of the machines and mechanical processes that are making the history of our time more wonderful and more dramatic than that of any other age since the world began. For heroic devotion to science in the face of danger and the scorn of their fellowmen, there is no class who have made a better record than inventors. Most inventions, too, are far more than scientific calculation, and it is the human story of the various factors in this great age of invention that is here set forth for boy readers." -Preface

Once there were no stone walls. For the fiercely idealistic Yankee homesteader, a small family farm was worth fighting for, and the rocky soil yielded far more than walls. Cleared and plowed, it fed a family and provided a living. Oxen gave way to horses, horses to tractors, and still the farm persisted and the family persevered, each generation overcoming the challenges of their day. Two hundred years later, the farm, ever generous in its rewards, has not changed; but society has shifted, forgetting its connection to the land that nourishes us. It is time we remembered. Birth, Death and a Tractor is the story of a small family farm in Somerville, Maine, from its settling in the early 1800s to its perilous transfer to a new farm family in 2008. Chronicling the history of seven generations, it is a reminder of the role small farms have played in our national and family histories, and a challenge to find innovative ways to re-connect our communities to this rich but threatened resource.
