Meet Sarah Walters, a Camellia Society debutante with a weakness for bad ideas. Sarah's mother lectures her on etiquette but tends to get loose after a few gins. Still, Sarah tries to follow the debutante code - after all, in Charleston, manners mean everything. But it's not easy to follow the rules, particularly in the summers when she runs into boys in pickup trucks, or, later, when she moves to New York with her friends. For the Camellia girls soon learn, careers don't always go to plan and men don't always love you back: the bright future they thought was theirs dissolves into heartbreak, illness and addiction. And when a shocking event brings thirty-something Sarah back home to Charleston, she must decide where 'home' really is.

Earth, Air, Fire and Water – the four primal elements – form the backdrop to a tale of three characters who have a similar apocalyptic dream. Set in the present day, the story chronicles how these three join together and embark on a project to save the world and discover the nature of their nightmare. Arnold, a retired lawyer, and Dee, an Anglo-Indian college graduate, are from England. Amos, a Native American, is a miner in West Virginia, originally from Northern Idaho. Their travels take them across America to West Virginia, Washington, DC, Delaware, Idaho, Seattle and Lima, Peru. This novel brings together the clash of forces between nature and society as the three struggle to make sense of the chaotic world of the Perfect Nightmare.

An employee's sudden disappearance brings dark secrets to light. Can this impetuous beautician crack a secret code and find her employee before time runs out? When beautician Valentine Beaumont's star employee, Jock de Marco, goes missing, Valentine fears the worst. Jock could turn a Plain Jane into a knockout with the mere touch of his comb. But despite his talents in the salon, this tame career might not be enough to distance himself from a dangerous past that may be coming back to haunt him. Valentine will stop at nothing until she finds out what happened to this Argentinean Hercules, but other things are getting in her way: an elusive assailant, a cryptic email, an infuriating employee, and one hot detective who is pressuring her to give up her search for the sexy stylist. Can this impulsive heroine uncurl the mystery and save Jock? Or will she be too late and live a lifetime filled with regret?

A homework assignment to write an essay about what his life might be like a few decades into his future should be an easy task for Sam Foster. After all, Sam is the inventor of a time machine. With his friend from the past, Meg Clayton, Sam journeys to the year 2040 to investigate his fate firsthand. It doesn't take long for Sam to find information about his future self. Not only does he become a wealthy businessman, he makes a name for himself in the world of computer technology. It appears Sam is destined for fame and fortune. But the pair also discovers something about "Older Sam" that stuns them: Sam's future self died just five years earlier, at the age of 45. Will Sam and Meg be able to stop this "future shock" from happening? Or is Sam's destiny sealed for all time?

Let's face it, sometimes parents get stressed out! Take my dad. He has a stressful job, so I didn't blame him for taking a bubble bath one night to relax. He'll tuck me in tomorrow night, right? Wrong! My dad has literally moved into his bathtub. He never leaves. He eats there now, does his job there, and I miss him very much! But I have a plan to bring my dad back into my life. If he won't leave his stress-relieving bubble bath, I'll invent the world's first mobile bubble bathtub! Problem solved, right? Wrong! Faith in God solves problems way better than technology.

Dottie McCall has recently retired and is growing restless when she gets a call from a woman in her yoga class asking if she wants to volunteer for a project before the arrival of the AARP convention to San Diego. When one of the members of the volunteer group gets her purse stolen, it starts an unexpected chain of events as the five women uncover several scams targeting seniors in the city of Escondido. These retired women may not be as vulnerable as the perpetrators of fraud may think. And along the way, the women form a lasting and close friendship.

Blake Taylor's mother first suspected he had ADHD when he, at only three years of age, tried to push his infant sister in her carrier off the kitchen table. As time went by, Blake developed a reputation for being hyperactive and impulsive. He launched rockets (accidentally) into neighbor's swimming pools and set off alarms in museums. Blake was diagnosed formally with ADHD when he was five years old. In ADHD and Me, he tells about the next twelve years as he learns to live with both the good and bad sides of life with ADHD. Blake's memoir offers, for the first time, a young person's account of what it's like to live and grow up with this common condition. Join Blake as he foils bullies, confronts unfair teachers, struggles with distraction and disorganization on exams, and goes sailing out-of-bounds and ends up with a boatload of spiders. It will be an inspiration and companion to the thousands of others like him who must find a way to thrive with a different perspective than many of us. The book features an introduction by psychologist Lara Honos-Webb, author of The Gift of ADHD, and a leading advocate for kids with ADHD.

This highly personal, 20-year journey through addictions, abuse issues, and codependency debunks myths and challenges theories as it shows the path to happiness, purpose, healthy relationships and inner peace.

How social networks, the personalized Internet, and always-on mobile connectivity are transforming—and expanding—social life. Daily life is connected life, its rhythms driven by endless email pings and responses, the chimes and beeps of continually arriving text messages, tweets and retweets, Facebook updates, pictures and videos to post and discuss. Our perpetual connectedness gives us endless opportunities to be part of the give-and-take of networking. Some worry that this new environment makes us isolated and lonely. But in Networked, Lee Rainie and Barry Wellman show how the large, loosely knit social circles of networked individuals expand opportunities for learning, problem solving, decision making, and personal interaction. The new social operating system of “networked individualism” liberates us from the restrictions of tightly knit groups; it also requires us to develop networking skills and strategies, work on maintaining ties, and balance multiple overlapping networks. Rainie and Wellman outline the “triple revolution” that has brought on this transformation: the rise of social networking, the capacity of the Internet to empower individuals, and the always-on connectivity of mobile devices.

Drawing on extensive evidence, they examine how the move to networked individualism has expanded personal relationships beyond households and neighborhoods; transformed work into less hierarchical, more team-driven enterprises; encouraged individuals to create and share content; and changed the way people obtain information. Rainie and Wellman guide us through the challenges and opportunities of living in the evolving world of networked individuals.

Thousands of light years separated him from his home stellar system, when troubling unfamiliar overload notes clearly resounded from the spaceship's sustainer engines. Vey glanced over the control panels. It was clear – he will not make it back home in time. And whether he will ever even make it home remains to be seen. The spaceship entered the typical space in a galaxy unknown to Vey. In the vicinity there spun a stellar system. One of this system's planets was inhabited and populated by rational beings who called themselves Humans. He braked, left the spaceship and headed for this planet on his atmospheric unit.

Is it a strange, surly memoir? Maybe it's really a work of autobiographical fiction. Perhaps it's just the ravings of a dumb little punk. Whatever you might call it, one thing is certain: this book is a trip through one person's life experience. What's the point? Read it and find out for yourself.

'My first read of 2021 to reduce me to tears... the definition of a page-turner and a tear-jerker. I didn't want to stop reading... I loved every word.' The Book Lover's Boudoir, ?????? 'They told me he died, but I never believed them. I'd have known,' she says, her voice little more than a whisper and her eyes searching mine. 'A mother would know if her child died, wouldn't she?' Danni has never had an easy relationship with her mother, Diana. But when Diana is diagnosed with a serious illness, everything changes. As some of Diana's memories slip away, others force their way to the surface. One night she breaks down and reveals that before Danni was born, she had another baby who never got to see the world. Now married, with a loving husband and two beautiful daughters of her own, Danni has put her childhood behind her. But she has always wondered what caused her mother's coldness. Could this be why? Danni can't tell whether Diana's story is a symptom of her confusion, or something real. She decides to find out, hoping to bring her mother some peace. Yet as Danni investigates the past, tracking down the aunt she's never met to learn what lies in her mother's past, her good intentions have unexpected consequences. As more truths emerge, a shocking revelation could turn her life upside down. Will Danni's quest heal her pain, or are some secrets best left buried? A completely heartbreaking and compelling story of families, secrets, and the fierce love between mothers and children.
