Macmillan Natural and Social Science is a new six-level course for children studying science in English. The course develops children's knowledge of science, history and geography and provides a systematic development of English language skills. The activities are varied in their approach to provide a motivating stimulus to children's learning.

Cambridge Natural Science offers expert science content knowledge, combined with the experience and creativity of teachers who are actively giving English language and Science classes in Spain. This course takes learners on a journey as they discover the wonders of biology, chemistry and physics. The full-colour Activity Book includes activities to consolidate and expand upon the concepts introduced in the Pupil's Book, practice of the Cambridge Qualifications for young learners and a bilingual glossary. Cambridge Natural Science offers expert science content knowledge, combined with the experience and creativity of teachers who are actively giving English language and Science classes in Spain. The Pupil's Book provides 6 beautifully

designed units presenting the contents of the Science syllabus in an appealing and accessible way. Every lesson is based on a question: an enquiry-based approach for a better understanding of the concepts and the development of thinking skills. Extra help with language is included, along with help for the preparation of Cambridge Qualifications such as Young Learners. It also includes an ongoing investigative project in every unit, hands-on experiments and extra help with the language needed in the classroom. Extra sections include self-assessment, more experiments and study aids.
