The purpose of an exercise in differential diagnosis is to establish crosslinks between medical facts stored in different sections of our memory. This book, *Differential Diagnosis in Neurology*, is the unified perspective of an eminent physician with decades of clinical experience and teaching; one of the most skilled clinical neurologists of modern times and a seasoned researcher who was the primary investigator for many clinical trials, and who published numerous clinical and basic research papers. The “real world” aspects of the book are based on morning reports with neurology residents and students conducted over 40 years. The differential diagnosis generated by subspecialty division chiefs supplemented those proposed in morning reports. The book is conceived as a guide that will give the clinician a concise snapshot or skeleton with a general background of the disease at hand. Other disease aspects included in this book are molecular genetics, physiology, and biochemistry that will elucidate mechanisms and assist in discovering new entities. Each chapter includes an extensive list of suggestions for further reading. It is the art of crosslinking between medical facts that distinguishes Dr. Schwartzman from other teachers of Neurology and that makes this book uniquely valuable. “The essence of a differential diagnosis is ‘splitting’ rather than ‘lumping’: it requires bringing knowledge to the table and then adding experience.” - R.J. Schwartzman

The Velvets straddled art and rock, changing popular music forever, and sowing the seeds for punk, grunge and thousands of countercultural four-chord wonders. *The Velvet Story: How Lou Reed, Sterling Morrison, John Cale and co emerged from the New York scene, their successes and excesses and what happened to each in their solo years.* *Velvet Music: all there recordings plus all of Lou Reed's solo work.* *Velvetology* includes Andy Warhol, Edie Sedgwick, David Bowie, Delmore Schwartz and Brian Eno and the Velvets' on screen and in New York, their influences, covers, websites and more.

Jon Catlett and Paul Frank have turned their once-failing used bookstore into one of the most thriving businesses in the Highlands. But they paid in blood for their success, for *Twice Told Books* is not just another dusty thrift shop, but a front for the largest heroin distribution network ever based in Louisville. The two eccentric intellectuals-turned-gun thugs enlist the help of an unscrupulous narcotics cop nicknamed Mad Dog and a former marine importing dope through Fort Knox from Afghanistan purer than anything the city has ever seen. In between trading muzzle flashes with a corrupt and psychotic DEA agent and thwarting two crusading homicide detectives, Catlett and Frank plan to corner the market...or at least everything South of Cincinnati. Praise for *SOUTH OF CINCINNATI*: “If you only read one book this year, make it *South of Cincinnati*. Hits all the right notes in a narrative to have you renew your faith in the sheer joy of a great book.” —Ken Bruen, bestselling author of the Jack Taylor series “Scumbag addicts, dirty cops, savage brutality, and the price of a broken heart. My kind of people. My kind of

book. In his latest Jon Catlett novel, author Jonathan Ashley tackles the toughest question facing a junkie: what's harder to kick—the dope or the girl? South of Cincinnati is a thrilling head-first dive into the dirty drug underworld as we watch a hero trying not to drown in pursuit of his humanity.” —Joe Clifford, author of Junkie Love and the Jay Porter thriller series “Jonathan Ashley is elbowing his way to the front of the crowd of crime writers with his crisp dialogue, edgy characters and relentlessly gritty action. South of Cincinnati is a razor-sharp slice through the mire of the Midwestern drug underworld, allowing us to peek from a safe distance.” —Joe Ricker is the author of Walkin' After Midnight

Incorrigible By: Dannie M. Martin Praise for Committing Journalism: The Prison Writings of Red Hog: “One of the great political works of our time, a book that ought to be required reading for every American citizen.” -San Francisco Bay Guardian “Fascinating glimpses of prison life.” -Kirkus Review Praise for In the Hat: “Powerful, controlled writing... An unexpected bonus is the deadpan humor of his unadorned writing style. This is a treat.” -Publishers Weekly At thirteen, Dannie M. Martin first entered a jail. For the rest of his life, he would be in jail, on parole, or avoiding arrest. As a teenager, Martin found an unlikely sense of comradeship, a nickname, and a passion for words in juvenile halls. Outside, he developed a drug addiction that would rule his life. In *Incorrigible*, Martin recounts his life as a criminal and addict – and also as a writer, father, and friend. He writes unflinchingly of the racial tensions and riots in prison, but also the humanity and humor of the prisoners themselves. A series of articles for the *San Francisco Chronicle* gave Martin a chance to tell his own stories and share how the reality of prison life affected the convicts and their loved ones. Out of prison, Martin continued his cycle of crime and addiction that left him accepting awards while high on heroin and publishing novels while on the lam. Filled with sharply drawn characters of fellow criminals, addicts, prison guards, and lawyers, *Incorrigible* is a joy ride with an author unlike any other. Humane and funny, this is Martin's brutally honest telling of his story.

After graduating from the University of Missouri in 1969 I was commissioned as an officer in the Marines. I served an interesting 'tour of duty' in Southeast Asia in 1972, during which time I was "in and out" of six different countries...including Vietnam. A greenhorn lieutenant when I landed, I was eventually promoted to captain. Because of my God given 'take charge personality' and a few "very junior officer" notable accomplishments I found myself frequently being handpicked for special assignments. I 'saw action' with seven different units...some good ...some bad...some ugly. I saw men die. I saw capable men withered by fatigue, brave men crippled by fear. Since I served, more than forty years ago now, I have had the pleasure and privilege of meeting and getting to know hundreds of fellow-Vietnam Vets; short term acquaintances, professional colleagues, neighbors, close friends, family members. Although our individual Vietnam stories are unique and intensely personal, I have come to realize that a common thread runs through most of them. For more than twenty-five years I have been asked to formally speak to sundry civic organizations, history classes, and social gatherings. As a result of fielding thousands of audience questions and listening to their spontaneous reactions to my "talks" I have learned what people are interesting in hearing. I have seen their reactions to my version of America's 'Vietnam experience'. I know what's interesting and what's not; what's important to those who weren't there, ordinary people who merely wonder 'what it was like'. I have enjoyed two "successful careers" and am currently embarked upon my third. I have fired most of life's best bullets, emptied most of my chosen weapon's most precious magazines, drained my fullest canteens, exhausted most of my allotted time on this fair planet we call earth. I want to share a few of the stories of men I served with, men I came to know later in life, men I loved as brothers-in-arms surviving in harm's way; or men who were simply 'Crazy Vietnam Vets' (like me) with a special story to tell. "Men JUST like me...only different!" Ours are interesting up and down tales of wonder and weird, of good times and bad. I am happily married to a "seasoned" school nurse, am the father of three college educated sons, and have two fine grandsons. I live in Blanco, Texas about forty miles due west of Austin. I have always viewed life's glass as half full; hope you enjoy our 'Not Ordinary' war stories.

Bob Woodward and Carl Bernstein exemplify an era when investigative reporters were seen as courageous fighters of corruption and injustice. Their epoch-making expose of the Watergate conspiracy not only contributed to the resignation of President Richard M. Nixon but also set the standard to which successive generations of investigative reporters have aspired. In *Watergate's Legacy and the Press*, John Marshall recounts this captivating story and details the complex ways in which the press and American government have reshaped themselves in its wake. This volume contains papers from the technical program of the 7th Extended Semantic Web Conference (ESWC 2010), held from May 30 to June 3, 2010, in Heraklion, Greece. ESWC 2010 presented the latest results in research and applications of Semantic Web technologies. ESWC 2010 built on the success of the former European Semantic Web Conference series, but sought to extend its focus by engaging with other communities within and outside Information and Communication Technologies, in which semantics can play an important role. At the same time, ESWC has become a truly international conference. Semantics of Web content, enriched with domain theories (ontologies), data about Web usage, natural language processing, etc., will enable a Web that provides a qualitatively new level of functionality. It will weave together a large network of human knowledge and make this knowledge machine-processable. Various automated services, based on reasoning with metadata and ontologies, will help the users to achieve their goals by accessing and processing information in machine-understandable form. This network of knowledge systems will ultimately lead to truly intelligent systems, which will be employed for various complex decision-making tasks. Research about Web semantics can benefit from ideas and cross-fertilization with many other areas: artificial intelligence, natural language processing, database and information systems, information retrieval, multimedia, distributed systems, social networks, Web engineering, and Web science.

This new biography contains excerpts from interviews and articles by and about Curtis all the way from his teens in the Bronx to his death at 85 in 2010. Many of these are little known and provide insights into his complex relationship with fame, family and females, the three obsessions of his life. The book also documents his many struggles with substance abuse, his disenchantment with Hollywood when it failed to take him seriously, the violent deaths of his two brothers, the failure of four of his marriages, a heart attack, the death of a son from a drug overdose and, most importantly, the manner in which his resilient spirit saw him through these challenges and tragedies. It's a revisionist biography which adds significantly to the received wisdom on his life and times, not only through personal interviews but also revelations from two recent books not yet available in English, one written by his daughter Allegra and the other by his ex-wife Christine Kaufmann.

For almost thirty years, Australian rock band the Church has crafted music that blends a rich variety of styles in a beautiful, multi-layered sound. They've encompassed pop, psychedelic, progressive, and straight-ahead rock; yet always remain distinctive, thanks to the inimitable vocals and lyrics of front man Steve Kilbey. Based on extensive interviews and featuring over seventy rare photographs, *No Certainty Attached* is the first comprehensive biography of Kilbey and his band. It charts their personal and musical ups and downs, the creative breakthroughs of the *Priest=Aura* album and Kilbey's under appreciated solo work. It also follows the band's struggle to survive in the wake of bad business decisions and their singer's drug indulgences. What emerges is a compelling portrait of an artist and a band clinging steadfastly to their muse in the face of external and internal obstacles—and the power of the music they have created.
