This fully revised third edition builds on the task based learning approach that has made 'Cutting Edge' so popular. With new DVD-ROM material and digital components, learners can be confident of improving their language skills through a carefully balanced range of activities. New Headway English Course takes the successful Headway series into an exciting new era. It introduces new features to challenge adult and young adult students and ensure that learning English is interesting and motivating. The course combines the best of traditional methods with more recent approaches, to help students use English both accurately and fluently. Learners at the upper-intermediate level require a different approach. It is no longer appropriate to examine language items in isolation. In New Headway Upper-intermediate, grammatical areas are treated in greater depth so that students begin to perceive the systems that underlie the language. This new upper-intermediate course provides around 120 hours of language learning. It follows on from New Headway Intermediate, and together with Headway Elementary, Headway Pre-intermediate, and Headway Advanced, provides a fully comprehensive language teaching series. Key features:

- New, universal topics selected from a wide variety of sources, including authentic listening texts.
- In-depth treatment of grammar: Each unit starts with a Test your grammar section, followed by Language in context, where students work out rules through Grammar questions. The Practice Bank provides a choice of wide-ranging exercises and the Grammar Reference gives detailed rules of form and use.
- The grammar of spoken English is examined, with work on areas such as being polite, linking and commenting adverbs, exaggeration and understatement, and lexis in discourse.

Thorough skills syllabus: All four skills are developed systematically and integrated through related tasks. • Well-defined lexical syllabus with work on systems such as collocation, binomials, homonyms, and compounds. • Pronunciation practice is integrated at appropriate points throughout the units. • Everyday English is practised in the Postscript section. In addition to the Student's Book, there is a Teacher's Book with extra photocopiable activities, two Class Cassettes, a Workbook, and an optional Workbook Cassette. This level is supplemented by Headway Upper-intermediate Video and New Headway Upper-intermediate Pronunciation.

This book gathers the outcomes of the second ECCOMAS CM3 Conference series on transport, which addressed the main challenges and opportunities that computation and big data represent for transport and mobility in the automotive, logistics, aeronautics and marine-maritime fields. Through a series of plenary lectures and mini-forums with lectures followed by question-and-answer sessions, the conference explored potential solutions and innovations to improve transport and mobility in surface and air applications. The book seeks to answer the question of how computational research in transport can provide innovative solutions to Green Transportation challenges identified in the ambitious Horizon 2020 program. In particular, the respective papers present the state of the art in transport modeling, simulation and optimization in the fields of maritime, aeronautics, automotive and logistics research. In addition, the content includes two white papers on transport challenges and prospects. Given its scope, the book will be of interest to students, researchers, engineers and practitioners whose work involves the implementation of Intelligent Transport Systems (ITS) software for the optimal use of roads, including safety and security, traffic and travel data, surface and air traffic

This book raises the issue of what a teacher needs to know about English in order to  
teach it effectively. It leads teachers to awareness of the language through a wide  
range of tasks which involve them in analysing English to discover its underlying  
system.

This volume is a collection of essays on educational issues belonging to educators and  
researchers from three continents, namely Africa, Asia, and Europe. The essays are  
grouped into four sections: the first, "Teaching and Teacher Education", encompasses  
collaborative learning, learning competencies, learning strategies, pre-service teachers,  
and special education. The second, "Psychosocial Development of Children in  
Education", is comprised of essays concerned with academic achievement, child rights,  
family and gender issues, pre-schoolers, public education, school type, school violence,  
university students, and university youth, while the third, "Educational Policy"  
investigates issues such as environmental citizenship, decision making, democracy,

education, Gypsies, higher education, IT systems in education, migration, organisational justice, and public and private schools. The final section, "Language in Teaching" is concerned with topics such as bilingual children, contrastive analysis, English language teaching, language skills, learning strategies, and online teaching materials. The book will appeal to educators, researchers, and students involved in education sciences.

The Students' Book has a motivating DVD spread at the end of every unit. Based on authentic clips from the BBC's rich archive, these lessons are designed to consolidate language and act as a springboard for further speaking and writing tasks. 'Extremely comprehensive and well written in terms of style – accessible to the reader, but intelligent and expressing some fairly subtle concepts. Would that more ELT practitioners could do the same!... Certainly a good read for those thinking about and also those engaged in initial training – or even post initial training stage' - Jenny Pugsley, Head of TESOL, Trinity College London

'It's essential reading whether you are simply curious about what is involved in training in ELT, need advice on choosing the right course, have already enrolled and want to make the most of your course, or are a new teacher just starting out. It's a book I wish I'd had when I was starting out in my ELT career, and that I wish had been available to many of the course participants I have tutored' - Lyn Strutt, ELT author and Chair of the British Council Families Association

Highlighting some interesting and intriguing aspects of English phonetics and phonology from a variety of perspectives, this book brings up a number of empirical questions in order to emphasize the necessity of taking a very broad view of what spoken English means in today's socio-cultural context. English has become a truly global means of communication, used as a first, second, or additional language by millions and millions of diverse speakers, in a multitude of different communicative contexts, so that the very notions of native and non-native seem to have changed profoundly, as have the notions of central/ peripheral and standard/ non-standard with regard to English varieties spoken around the globe. Therefore, today more than ever before, in studying English phonetics many small research steps need to be taken to provide diverse and broad empirical data from as many different standpoints as

possible. This collection indeed looks at English phonetics from a wide spectrum of perspectives, including those of native or EFL speakers, language varieties, L2 language teaching and learning, as well as language contact, development, and change.

Applies applied linguistic theories to the development of materials for language learning to add new depth to the field.
