Abner Marsh has had his dearest wish come true - he has built the Fevre Dream, the finest steamship ever to sail the Mississippi. Abner hopes to race the boat some day, but his partner is making it hard for him to realise his ambition. Joshua York put up the money for the Fevre Dream, but now rumours have started about the company he keeps, his odd eating habits and strange hours. Simon Spicer is a lonely, melancholy professor in Maine. A widower, he was once a talented poet, but writes no more. At the age of thirty-five, he simply exists, aged beyond his years by disappointment. Spice is unaware of the physical and mental properties that set him apart from his fellows and fit

him for a bizarre mission—but he will soon find out. In the world of the Keepers, one of their own has gone rogue. Calling himself ShadowCaster, he has taken over the planet Talar and bred an environment of evil and death. The Keepers need a hero, but they are incapable of destroying ShadowCaster on their own. They require an outsider with the proper skills, and Spice is their man—although before he can take on the task, he must first die. Once he does, his true powers awaken: powers of mind control and non-oral communication. With nothing to lose, Spice accepts his fated mission: to find ShadowCaster and stop him. Once a lonely, hopeless man, Spice is now the hope of the universe, ordered to redeem a fallen world and perhaps also himself.

commandant du vaisseau refuse d'apparaître autrement que par hologramme ? Karoly est certain d'une chose : ses volcryns sont tout proches. Pas question de faire demi-tour. Quel qu'en soit le prix.

När en vetenskaplig expedition gör sig redo att söka efter en mytomspunnen utomjordisk ras är det bara skeppet Nightflyer som står tillgängligt. Besättningen består endast av kaptenen Royd Eris, som presenterar sig genom ett spöklikt hologram. Kaptenens ovillighet att visa sig för forskarna är dock inte det enda som orsakar oro. Med i expeditionen finns en telepat som från första stund känner av en farlig närvaro. De är inte ensamma ombord Nightflyer. Endast forskaren Melantha Jhirl har nu möjlighet att lösa mysteriet. När allt fler oförklarliga händelser inträffar faller det på hennes bord att utreda om hotet är verkligt. Men först måste hon hålla sig levande.

Nightflyers är en skrämmande science fiction-berättelse av den bästsäljande författaren bakom Game of Thrones. Denna moderna klassiker blev i samband med originalutgivningen 1980 nominerad till det prestigefyllda Hugo Award och har vunnit ett flertal priser, bland andra Locus Award och Seiun Award. Den har filmatiserats och gjorts som originalserie på SYFY och Netflix och med hjälp av fantastiska helsidesillustrationer tas detta hyllade epos till nya höjder.

This richly informed study analyzes how various cinematic tools and techniques have been used to create horror on screen—the aesthetic elements, sometimes not consciously noticed, that help to unnerve, frighten, shock or entertain an audience. The first two chapters define the genre and describe the use of pragmatic aesthetics (when filmmakers put technical and budgetary compromises to artistic effect). Subsequent chapters cover mise-en-scène, framing, photography, lighting, editing and sound, and a final chapter is devoted to the aesthetic appeals of horror cinema.

She loves the pigeons and would much rather spend time with them than go to school. Then she wakes up one morning to find some pigeons missing. But how is she supposed to rescue her pigeons and outwit a German spy? This ebook includes a historical afterword.
