

technologies from the OMG, such as Meta-Object Facility (MOF) and XML Metadata Interchange (XMI). The Object Constraint Language, which has become an important vehicle for communicating detailed insights between UML researchers and practitioners, will have a much expanded specification and be better integrated with the UML. The popularity of UML signifies the possibility of a shift of immense proportions in the practice of software development, at least comparable to the shift from the use of assembly language to “third-generation” or “high-level” programming languages. We dream of describing the behavior of software systems in terms of models, closely related to the needs of the enterprise being served, and being able to routinely translate these models automatically into executing programs on distributed computing systems. The OMG is promoting Model-Driven Architecture (MDA) as a significant step towards this vision, and the MDA concept has received considerable support within the IT industry.

An imaginative young pig shows some of the many things that a stick can be.

Craft-lovers can use boxes and other materials to make original creations. Step-by-step instructions show how to make imaginative projects while recycling!

IBPS expanded as the Institute of Banking Personnel Selection is an organization that conducts the exam for the position of Probationary Officer (PO) in various public sector banks of India. IBPS selects students for establishing their career in the banking sector that has been the most secure and reliable profession to pursue. The banking sector has grown significantly over the past years with many advanced technical developments. Due to this, students prefer to go for IBPS PO and are keen on making their careers in the banking sector.
