

## Occupational Therapy Documentation Templates

This issue of *Hand Clinics*, guest edited by series consulting editor, Dr. Kevin C. Chung, will focus on Health Policy and Advocacy in Hand Surgery. This issue is one of four issues selected each year by Dr. Chung. Key topics discussed in this issue include, but are not limited to: Impact of Evidence and Health Policy on Hand Surgery Practice; Navigating the Intersection of Evidence and Policy in Hand Surgery Practice; Translating Hand Surgery Evidence into Practice and Policy; Using Evidence for Hand Surgery: How to Practice Evidence-Based Hand Surgery Care; Impact of the Current United States Healthcare Environment on Practice: A Private Practice Viewpoint; Influence of the United States Healthcare Environment and Reform on Academic Healthcare Practice; Leveraging the Electronic Medical Record System to Enhance Hand Surgery Practice; How to Capture Suitable Revenue: Reimbursement and the Current Healthcare Environment with Considerations of Bundled Payments; Evidence-Based Hand Therapy and Its Impact on Health Care Policy; Access to Hand Therapy Following Surgery in United States: Barriers and Facilitators; The Intersection of Hand Surgery Practice and Industry; Establishment of a National Hand Surgery Data Registry; Providing Hand Surgery Care to the Vulnerably Uninsured Patient; Impact of Healthcare Reform on Innovation and Technology; and Health Policy Evaluation in Hand Surgery: Evaluating What Works, among others.

This text will help GPs and nurses to expand their clinical knowledge and enable them to demonstrate their level of expertise in respiratory disease, diabetes and dermatology.

This revised edition retains the engaging format and clear, accurate, readable information that has become its hallmark. Comprehensive coverage provides all the information health care professionals need to perform skills related to patient positioning and transfer, vital signs, aseptic techniques, and more. Readers will notice the vivid, full-color photographs within the procedures that facilitate understanding.

Master the role and skills of the OTA in caring for adults with physical disabilities! *Early's Physical Dysfunction Practice Skills for the Occupational Therapy Assistant, 4th Edition* is the only textbook on the rehabilitation process written specifically for OTA students and practitioners. It takes a client-centered approach, following the latest Occupational Therapy Practice Framework in addressing topics such as assessment, intervention principles, and clinical applications. New to this edition is an Intervention Principles for Feeding and Eating chapter plus the latest advances in OT technology. From a team of expert contributors led by Mary Elizabeth Patnaude, this book shows how you can succeed in the OTA role and help clients learn to perform functional tasks. Coverage of advances in OT assessment and intervention includes prosthetics and assistive technologies, along with the assessment and interventions of TBI (traumatic brain injury) problems related to cognitive and visual perception. Case studies offer snapshots of real-life situations and solutions, with many cases threaded through an entire chapter. Client-centered approach shows how to include the client when making decisions about planning and treatment, using the terminology and abbreviations from the Occupational Therapy Practice Framework. Evidence-based content includes clinical trials and outcome studies, especially those relating to intervention. Cultural diversity and cultural sensitivity information helps you understand the beliefs and customs of other cultures so you can provide appropriate care. Information on prevention addresses safety and the prevention of accidents and injury. Key terms, chapter outlines, and chapter objectives introduce the essential information in each chapter. Reading guide questions and summaries in each chapter make it easier to measure your comprehension of the material. NEW! Intervention Principles for Feeding and Eating chapter is added to this edition. NEW! Reorganization of all chapters aligns content more closely with the Occupational Therapy Practice Framework. NEW! Combined chapters make the material more concise and easier to navigate.

*Foundations of Health Information Management, 5th Edition* is an absolute must for any student beginning a career in HIM. By focusing on healthcare delivery systems, electronic health records, and the processing, maintenance, and analysis of health information, this engaging, easy-to-understand text presents a realistic and practical view of technology and trends in healthcare. It readies you for the role of a Registered Health Information Technician, who not only maintains and secures accurate health documentation, but serves as a healthcare analyst who translates data into useful, quality information that can control costs and further research. The fifth edition follows the CAHIIM 2018 HIM Associate Degree curriculum competencies, preparing you for the RHIT credentialing exam. EHR samples, practice exercises, and new Bloom's-level Competency Milestone features help ensure mastery of all competencies. Clear writing style and easy reading level make reading and studying more time-efficient, and are ideal for 2-year associate degree HIM programs and career schools. Chapter learning objectives are tied to the CAHIIM curriculum competencies to allow instructors to teach to the test ? and prepare you for success on the credentialing exam. Professional Profile boxes highlight key HIM professionals within chapter discussions. SimChart and SimChart for the Medical Office EHR samples demonstrate electronic medical records in use. Career Tip boxes instruct you on a course of study and work experience required for the position. Chapter summaries and reviews allow for easy review of each chapter's main concepts. Full-color design and illustrations make content more appealing and easier to learn. Competency Check-In exercises at the end of every main section in each chapter encourage you to review and apply key concepts. UPDATED! Content organized to follow CAHIIM 2018 HIM Associate Degree curriculum competencies, allowing you to study content that matches your credentialing exam. NEW! Updated material fully addresses the newest curriculum competencies with the most contemporary picture of the health care landscape and job market. NEW! Cardinal focus on electronic health record processes in both ambulatory and acute care settings with new screens and images. UPDATED! Revised Statistics and Data Analytics chapter reinforces the role of the HIM professional as a data analyst, and includes introductory material on research methodologies. NEW! RHIT review question engine with custom exam and timer functionalities so you can study for the RHIT exam by category, or create timed mock exams. EXPANDED! Additional

application exercises offer more opportunities to strengthen your understanding. UNIQUE! New Bloom's-level Competency Milestone features assure instructors of your mastery of all competencies. NEW and UPDATED! Expanded coding and reimbursement content with hands-on exercises. NEW! Ethics Challenge and Critical Thinking exercises assess your learning. EXPANDED! Additional photos and images visually demonstrate HIM concepts and real-life scenarios.

Offers the health care professional with the information to answer the 'what, where, how, and when' questions that come up when transforming a health care practice idea into a successful business. This book is suitable for master and doctorate level students preparing for the professional world.

Now updated to its Fourth Edition, *The OTA's Guide to Documentation: Writing SOAP Notes* contains the step-by-step instruction needed to learn occupational therapy documentation and meet the legal, ethical, and professional documentation standards required for clinical practice and reimbursement of services. Written in an easy-to-read format, this Fourth Edition by Marie J. Morreale and Sherry Borcharding will aid occupational therapy assistants (OTAs) in learning the purpose and standards of documentation throughout all stages of the occupational therapy process and different areas of clinical practice.

Fully revised to reflect the latest AOTA standards, *Occupational Therapy Evaluation for Children: A Pocket Guide, 2nd Edition* is a comprehensive, portable reference that provides occupational therapists a trusted resource for use throughout their education and into practice. Unique and easy-to-use, this proven book provides an overview of theory, as well as step-by-step coverage of techniques. Clinical examples illustrate the application of content, as well as client and family-centered practice; illustrations demonstrate assessment techniques; and extensive tables summarize key assessments, techniques, and actions. This updated Second Edition includes new assessment tools, new content addressing specialty areas such as autism, additional assessments, and more.

The number one book in pediatric OT is back! Focusing on children from infancy to adolescence, *Case-Smith's Occupational Therapy for Children and Adolescents, 8th Edition* provides comprehensive, full-color coverage of pediatric conditions and treatment techniques in all settings. Its emphasis on application of evidence-based practice includes: eight new chapters, a focus on clinical reasoning, updated references, research notes, and explanations of the evidentiary basis for specific interventions. Coverage of new research and theories, new techniques, and current trends, with additional case studies, keeps you in-step with the latest advances in the field. Developmental milestone tables serve as a quick reference throughout the book! NEW! Eight completely new chapters cover Theory and Practice Models for Occupational Therapy With Children, Development of Occupations and Skills From Infancy Through Adolescence, Therapeutic Use of Self, Observational Assessment and Activity Analysis, Evaluation Interpretation, and Goal Writing, Documenting Outcomes, Neonatal Intensive Care Unit, and Vision Impairment. NEW! A focus on theory and principles Practice Models promote clinical reasoning. NEW! Emphasis on application of theory and frames of reference in practice appear throughout chapters in book. NEW! Developmental milestone tables serve as quick reference guides. NEW! Online materials included to help facilitate your understanding of what's covered in the text. NEW! Textbook is organized into six sections to fully describe the occupational therapy process and follow OTPF.

*Physical Therapy Management of Low Back Pain: A Case-Based Approach* provides a detailed review of the theory and practice of the most common approaches to treating low back pain using a case-based approach for a single patient. The important features of nine different common and major orthopedic physical therapy approaches are explained and practical application of each approach is demonstrated via the patient case. This controlled overview enables instructors and students to analyze, compare and contrast the options in physical therapy treatment.

Workers and their families, employers, and society as a whole benefit when providers deliver the best quality of care to injured workers and when they know how to provide effective services for both prevention and fitness for duty and understand why, instead of just following regulations. Designed for professionals who deliver, manage, and hold oversight responsibility for occupational health in an organization or in the community, *Occupational Health Services* guides the busy practitioner and clinic manager in setting up, running, and improving healthcare services for the prevention, diagnosis, treatment, and occupational management of work-related health issues. The text covers: an overview of occupational health care in the US and Canada: how it is organized, who pays for what, how it is regulated, and how workers' compensation works how occupational health services are managed in practice, whether within a company, as a global network, in a hospital or medical group practice, as a free-standing clinic, or following other models management of core services, including recordkeeping, marketing, service delivery options, staff recruitment and evaluation, and program evaluation depth and detail on specific services, including clinical service delivery for injured workers, periodic health surveillance, impairment assessment, fitness for duty, alcohol and drug testing, employee assistance, mental health, health promotion, emergency management, global health management, and medico-legal services. This highly focused and relevant combined handbook and textbook is aimed at improving the provision of care and health protection for workers and will be of use to both managers and health practitioners from a range of backgrounds, including but not limited to medicine, nursing, health services administration, and physical therapy.

Proper documentation is critical to your success. Clear the confusion, streamline processes, and ensure accuracy, with "Essential Forms for Therapists" For a rehab facility, proper documentation is the most critical aspect of financial survival. But unfortunately, it is an area that causes confusion for clinical and non-clinical staff alike. If therapists do not document properly, they run the risk of improper reimbursement and denials. And even if done properly, documentation can be time-consuming and difficult. Simplify the process and ensure accuracy This book and CD-ROM set features over 100 modifiable forms, including: Therapy registration forms Plan of treatment for outpatient rehabilitation forms Plan of progress forms Therapy daily notes forms and flow sheets All are designed and tested by experts in the field to ensure

that critical information is recorded accurately. Save time and streamline your processes. The book is divided into four sections for your convenience: Therapy documentation, Managed care, Personnel management and human resources, and Essential CMS. And the CD-ROM includes additional sections for job descriptions and performance reviews. These forms can easily be customized to fit individual or clinic needs and are geared toward all therapy staff. Take a look at some of the time-saving forms you'll receive: Inpatient rehab patient assessment instrument, Medical necessity documentation form, Occupational therapy flow sheet, Physical therapy and occupational therapy evaluation, Physical therapy daily notes, Physical therapy flow sheet, Plan of progress for outpatient rehabilitation, Plan of treatment for outpatient rehabilitation, Rehabilitation therapy registration form, Speech language pathology flow sheet, Speech therapy evaluation, Therapy checklist, Therapy discharge, Therapy progress report, Updated plan of progress for outpatient rehab, Advanced beneficiary notice--General, Advanced beneficiary notice--Laboratory, CORF facility request for certification to participate in Medicare program, CORF survey report, Fire safety report, Fire-smoke zone evaluation worksheet, Medicare reconsideration request form, Medicare redetermination request form, Notice of denial of medical coverage, Notice of denial of payment, Who will benefit . . . Physical therapists, occupational therapists, speech-language pathologists, and managers in outpatient facilities, comprehensive outpatient rehabilitation facilities, private practice, hospitals and nursing homes.

Complete & accurate documentation is one of the essential skills for a physical therapist. This book covers all the fundamentals & includes practice exercises & case studies throughout.

This is a comprehensive textbook for the documentation course required in all Physical Therapy programs. The textbook incorporates current APTA terminology and covers every aspect of documentation including reimbursement and billing, coding, legal issues, PT and PTA communication, as well as utilization review and quality assurance. (Midwest).

Measuring patient outcomes has never been more complex or more essential. This is the first publication of its kind to present expert guidance and advice for use in all home health settings. Topics include: importance of appropriate data collection, how to analyze patient outcomes, a comparison of various outcome measures used in home health, monitoring patient satisfaction and quality care, and much more.

"This text teaches the SOAP notes format reimbursable by Medicare Part B and other third-party payers. Other topics include a review of spelling and grammar, an overview of the initial evaluation process delineating the roles of the occupational therapist and the occupational therapy assistant, tips for clinical reasoning, and guidelines for selecting appropriate interventions. Templates allow beginning students to practice formatting SOAP notes, and a detachable summary sheet can be pulled out and carried to clinical sites as a reminder of the necessary contents for a SOAP note. Multiple worksheets are provided for practice in developing observation skills, clinical reasoning, documentation skills, and a repertoire of professional language. All worksheets are also available online with answers included to enable independent study."

The definitive work on occupational therapy for physical dysfunction returns in its Sixth Edition, with reputable co-editors and clinical, academic, and consumer contributors. This text provides a current and well-rounded view of the field- from theoretical rationale to evaluation, treatment, and follow-up. Through the Occupational Functioning Model (OFM), the Sixth Edition continues to emphasize the conceptual foundation and scientific basis for practice, including evidence to support the selection of appropriate assessments and interventions. NEW TO THIS EDITION: Student DVD with video clips demonstrating range of motion, manual muscle testing, construction of hand splints, and transferring patients. Evidence Tables summarize the evidence behind key topics and cover Intervention, Participants, Dosage, Type of Best Evidence, Level of Evidence, Benefit, Statistical Probability, and Reference. Assessment Tables summarize key assessment tools and cover Instrument and Reference, Description, Time to Administer, Validity, Reliability, Sensitivity, and Strengths and Weaknesses.

To respond to the renewed focus by the occupational therapy profession upon occupation, the fifth edition of Activity Analysis and Application has been updated and renamed to reflect this latest emphasis. While Activity Analysis: Application to Occupation, Fifth Edition maintains the sequential process of learning activity analysis, this step-by-step approach now helps students analyze activity for the purpose of optimizing the client's occupational performance. Gayle Hersch, Nancy Lamport, and Margaret Coffey successfully guide students through the development of clinical reasoning skills critical to planning a client's return to meaningful engagement in valued occupations. The authors utilize a straightforward teaching approach that allows students to progress developmentally in understanding both the analysis and application of activity to client intervention. The Occupational Therapy Practice Framework: Domain and Process, with a prominent focus on occupation as this profession's philosophical basis for practice, has been incorporated in the updated forms and explanations of the activity analysis approach. Activity Analysis: Application to Occupation, Fifth Edition is a worthy contribution to the professional education of occupational therapists in furthering their understanding and application of activity and occupation. Features: The newly titled Client-Activity Intervention Plan that synthesizes the activity analysis into client application. Objectives at the beginning of each unit. Discussion questions and examples of daily life occupations. A Web site including 5 forms where students and practitioners can download and print information for class assignments and clinical settings.

Occupational Therapy Evaluation Notebook Initial Patient Evaluation Template to Simplify Documentation

The go-to text/reference for class, clinical, and practice! A who's who of experts and educators brings you practical, in-depth coverage of the most common adult conditions and the corresponding evidence-based occupational therapy interventions. Written for OTAs to meet their unique needs, this approach combines theory with the practical, evidence-based functional content that develops the critical-thinking and clinical-reasoning skills that are the foundation for professional, knowledgeable, creative, and competent practice.

"Nearly 20% of occupational therapy practitioners work in school settings, requiring current, effective, and evidence-based best practices for students. Reflecting the extensiveness of occupational therapy practice in schools, the second edition of this bestseller contains best practices from preschool to postsecondary transitions, from ADLs to driving. The latest edition of Best Practices for Occupational Therapy in Schools promotes best school practices, education, research, and policy and provides school occupational therapy practitioners with current, effective information to use in their daily practices. This comprehensive text details working with multiple student populations, transition planning, assistive technology, enhancing student participation, and work readiness. Appendixes provide resources for educators using the text in the classroom, documentation, assessment tools, liability issues, and templates for the occupational profile and occupational therapy intervention plan."--Provided by publisher.

Develop the psychosocial skills you need to treat clients with any diagnosis in any setting! Psychosocial Occupational Therapy uses evidence-based models to help you provide effective Occupational Therapy for people diagnosed with mental health conditions. With a clear and logical organization, the book begins with theories and concepts and follows with in-depth coverage of OT interventions in both individual and group contexts. Case studies and models show how to apply the newest Occupational Therapy Practice Framework (OTPF) in selecting treatment strategies. Written by OT

educator Nancy Carson, *Psychosocial Occupational Therapy* helps you understand and treat clients with mental health issues. UNIQUE! At least two cases studies in each clinical chapter show how to apply the Occupational Therapy Practice Framework (OTPF) in determining treatment options, and one or more conceptual models address the psychosocial needs of clients. Using the Occupational Therapy Practice Framework chapter describes how to apply the latest version of the OTPF to the practice of occupational therapy. Balanced approach to psychosocial occupational therapy includes thorough coverage of primary diagnoses, as well as occupational and psychosocial theories, models, and approaches. Emphasis on clinical reasoning skills provides insights on how to select treatment strategies based on the conceptual theories and models presented in the earlier chapters; the information on diagnoses also references the DSM-5. A focus on psychosocial skills makes it easier to adjust your way of approaching a client, the nature of the therapeutic relationship, and the direction and eventual outcomes of intervention — regardless of the setting or the primary diagnosis. Coverage of therapeutic interaction skills and group process skills shows how to provide treatment in both individual and group settings.

Be prepared for the growing opportunities in community and population health practice with the 3rd Edition of this groundbreaking resource. The New Edition reflects the convergence of community and population health practice with expanded content on health promotion, well-being, and wellness. Drs. Scaffa and Reitz present the theories underpinning occupational therapy practice in community and population health. Then, the authors provide practical guidance in program needs assessment, program development, and program evaluation. Both new practitioners and students will find practice-applicable coverage, including expanded case examples, specific strategies for working in the community, and guidance on securing funding for community and population health programs.

Rev. ed. of: *Legal aspects of documenting patient care for rehabilitation professionals* / Ronald W. Scott. 3rd ed. c2006. Develop the business skills necessary to succeed in massage therapy with help from respected massage educator and business owner, Sandy Fritz! With a user-friendly approach and comprehensive support tools, this authoritative guide delivers a working knowledge of essential concepts for employees or owners of a massage therapy practice and helps you prepare for the professional challenges that await you in the real world. Renowned massage educator and business owner Sandy Fritz presents a practical, proven business philosophy for success in massage therapy practice. Focus on need-to-know business skills for complete success as an employee or the owner of a massage therapy practice. A companion CD with practice management software provides hands-on experience creating client records, setting appointments, entering documentation, and more. Self-Reflection boxes put concepts into a realistic context through Sandy Fritz's personal experiences in massage practice. Learning Activity boxes reinforce your understanding and challenge you to apply what you've learned in an engaging workbook format. Good Stuff from the Government boxes alert you to helpful government resources and help you ensure compliance with federal regulations. Mentor boxes provide real-world insight and advice from experts in massage and business management for successful practice. More than 200 realistic photos and illustrations clarify concepts and familiarize you with typical practice settings and essential forms, records, office equipment, and supplies. Evolve Resources link you to templates for building resumes, letters, advertisements, forms for documentation, and client histories, plus small business resources, annotated web links, a glossary of key terms from the text, and additional exercises and case studies.

The lives of people with disabilities are complex and various, and there are many situations where technology — particularly assistive technology — already makes a real difference. It is clear that smart phone and tablet computer based solutions continue to enhance the independence of many users, but it is also important that more traditional assistive technologies and services are not forgotten or neglected. This book presents the proceedings of the 14th conference of the Association for the Advancement of Assistive Technology in Europe (AAATE 2017) entitled: 'Harnessing the power of technology to improve lives', held in Sheffield, UK, in September 2017. This 4-day event about assistive technologies (AT) highlights the association's interest in innovating not only technology, but also services, and addresses the global challenge of meeting the needs of the increasing number of people who could benefit from assistive technology. The 200+ papers in the book are grouped under 30 subject headings, and include contributions on a wide range of topical subjects, including aging well and dementia; care robotics; eHealth and apps; innovations; universal design; sport; and disordered speech. The breadth of the AAATE conference reflects people's life needs and so the book is sure to contain something of interest to all those whose work involves the design, development and use of assistive technology, whatever the situation. The photo on the front cover illustrates the breadth of assistive technologies that can improve lives. Photographer: Simon Butler.

Get the best instruction on occupational analysis, group process, and therapeutic media - all from one book! Using a matter-of-fact style to share their experiences, successes, and failures, expert authors Jane Clifford O'Brien and Jean W. Solomon provide you with effective therapeutic media; sample activity analyses useful in current health care contexts; practical guidance in play, leisure, and social participation areas of occupation; strategies for effective group management and processes; and overviews of theories supporting best practice. Comprehensive Content covers the material taught in group process and occupational analysis courses thoroughly and completely for the OTA. Logically organized content that's written in a matter-of-fact style helps students better understand and retain information. Clinical pearls emphasize the practical application of the information for the students. Therapeutic Media are tried and true methods pulled from the author's extensive experience. Case studies appear at appropriate locations throughout the text to show the students how to apply the content to their work.

Diverse roles for occupational therapists is a compilation of a range of roles for occupational therapists. Authors show how they have embraced opportunities, extended roles, and developed services along with the ever-changing world of statutory services policy. Whilst many of the chapters allude to mental health fields (care coordination, a number of

mental health specialities, Mental Health Act), the book also includes topics relevant to general practice (research roles, advanced practice, Assistive Technology, the Mental Capacity Act). This book is intended to inform and inspire the reader, to share ways of dealing with hurdles whilst remaining resilient to prevailing pressures and difficulties borne out of our working lives as occupational therapists in a wide range of settings. Contents include: Occupational therapists as care coordinators Occupational therapists and assertive outreach Occupational therapists working in a Crisis Home Treatment Team Occupational therapy on a Psychiatric Intensive Care Unit Prison inreach: the occupational therapist role Social groups within an intensive mental health team, and creative methods for evaluating the service Occupational therapists delivering Recovery Occupational therapists delivering rehabilitation Roles in vocational rehabilitation Occupational therapists delivering assistive technology The child and adolescent primary mental health work role Enabling young people's participation in their mental health service Working with families Early intervention with psychosis: the occupational therapist's role Working with people with personality disorder Working with people with eating disorders Occupational therapists as cognitive behaviour therapists Improving Access to Psychological Therapies The Approved Mental Health Professional role Roles associated with the Deprivation of Liberty Safeguards The occupational therapist as an advanced practitioner Research roles for occupational therapists

This hands-on textbook/workbook teaches readers how to document functional outcomes in a clear, logical progression. Extensive examples and exercises in each chapter highlight the essential points of functional outcomes documentation, designed to help improve client function and reduce disability as well as provide evidence of functional progress for insurance payment and reimbursement. Provides both theoretical foundations and a practical approach to functional outcomes documentation. Presents a top-down perspective on rehabilitation, based on the Nagi disablement model. Numerous examples and exercises in every chapter allow readers to put documentation skills into practice as they learn essential theoretical concepts. An overview of key legal issues related to physical therapy documentation is provided. Functional outcomes documentation in a variety of settings is covered, including acute care, rehabilitation, outpatient, home care, nursing homes, pediatrics, school settings, and group homes. Examples illustrate a range of impairments featuring different client groups that challenge students to consider real-life scenarios.

Explore mindful crafts as an effective and efficient therapy. Arts and crafts were one of the very first therapies employed by occupational therapists. Today, crafts are still employed as effective interventions for clients with mental health disorders, physical dysfunctions, cognitive issues, and sensory concerns in hospitals, outpatient clinics, veterans' centers, schools, skilled nursing facilities, or community settings. Step by step, the authors show you how to use a wide-range of novel, and highly engaging crafts. They explain how to connect the key tasks associated with an activity to functional outcomes, and how to modify them to meet the specific needs of individual patients. They also address the issues of documentation, and reimbursement.

We hope you find this occupational therapy (Initial Patient Evaluation Template) notebook useful in your next build. This is a 6 x 9 notebook with evaluation template on crisp white pages. Template allows you to collect pertinent information for reference during documentation to reduce errors and increase efficiency.

Written specifically for occupational therapy assistants, *The OTA's Guide to Writing SOAP Notes, Second Edition* is updated to include new features and information. This valuable text contains the step-by-step instruction needed to learn the documentation required for reimbursement in occupational therapy. With the current changes in healthcare, proper documentation of client care is essential to meeting legal and ethical standards for reimbursement of services. Written in an easy-to-read format, this new edition by Sherry Borcharding and Marie J. Morreale will continue to aid occupational therapy assistants in learning to write SOAP notes that will be reimbursable under Medicare Part B and managed care for different areas of clinical practice. New Features in the Second Edition:

- Incorporated throughout the text is the Occupational Therapy Practice Framework, along with updated AOTA documents
- More examples of pediatrics, hand therapy, and mental health
- Updated and additional worksheets
- Review of grammar/documentation mistakes
- Worksheets for deciphering physician orders, as well as expanded worksheets for medical abbreviations
- Updated information on billing codes, HIPAA, management of health information, medical records, and electronic documentation
- Expanded information on the OT process for the OTA to fully understand documentation and the OTA's role in all stages of treatment, including referral, evaluation, intervention plan, and discharge
- Documentation of physical agent modalities

With reorganized and shorter chapters, *The OTA's Guide to Writing SOAP Notes, Second Edition* is the essential text to providing instruction in writing SOAP notes specifically aimed at the OTA practitioner and student. This exceptional edition offers both the necessary instruction and multiple opportunities to practice, as skills are built on each other in a logical manner. Templates are provided for beginning students to use in formatting SOAP notes, and the task of documentation is broken down into small units to make learning easier. A detachable summary sheet is included that can be pulled out and carried to clinical sites as a reminder of the necessary contents for a SOAP note. "Answers" are provided for all worksheets so that the text can be used for independent study if desired. Updated information, expanded discussions, and reorganized learning tools make *The OTA's Guide to Writing SOAP Notes, Second Edition* a must-have for all occupational therapy assistant students! This text is the essential resource needed to master professional documentation skills in today's healthcare environment.

Manual focusing on documenting the occupational therapy process. Each skill is broken down into small steps and taught individually. Includes a template for writing problems, goals, and each section of the SOAP note. Also includes practice worksheets and detachable checklist and summary.

*Documentation for Physical Therapist Practice: A Clinical Decision Making Approach* provides the framework for successful documentation. It is synchronous with Medicare standards as well as the American Physical Therapy Association's recommendations for defensible documentation. It identifies documentation basics which can be readily

applied to a broad spectrum of documentation formats including paper-based and electronic systems. This key resource skillfully explains how to document the interpretation of examination findings so that the medical record accurately reflects the evidence. In addition, the results of consultation with legal experts who specialize in physical therapy claims denials will be shared to provide current, meaningful documentation instruction."

Portfolios for Nursing, Midwifery and other Health Professions is a practical guide providing detailed strategies for developing a quality portfolio that will assist you to review your professional practice, assess your learning and career planning, direct your continuing professional development and effectively communicate your professional achievements. Written by Lynette Cusack and Morgan Smith, this fourth edition will help you understand the drivers and benefits of portfolios and how to design and evaluate a quality portfolio in order to meet the Australian Health Practitioner Regulation Agency (AHPRA) annual registration requirements. Clearly outlines what a portfolio is, how it is used and why different types of portfolios are required for different purposes Supports understanding of the relationship between portfolios and the AHPRA regulatory requirements of self-declaration and practising in accordance with professional practice standards Assists in understanding and applying reflection techniques in professional development, learning and portfolio use. An increased focus on how portfolios relate to career planning and achieving professional goals Highlights different ways of demonstrating evidence of achievements An increased emphasis on demonstrating safety and quality in healthcare and person-centred practice
