makes the art of drawing expressions possible for beginning fine artists. The Art Studio series is designed to help beginning artists venture into fine art; an overview of each art medium helps them determine which they like best.

Discover the key concepts of color theory for beginning artists. The Artist's Toolbox series provides easy-to-use reference guides for beginning and aspiring artists. While many instructional art books gloss over important concepts, focusing instead on how to replicate a piece of art, the Artist's Toolbox series breaks down the whats, whens, whys, and hows of each relevant tool or technique, clearly demonstrating its purpose and how to employ it to achieve the desired effects. In Artist's Toolbox: Color, painters will learn how to create impactful work with an understanding of basic color theory. Topics include the color wheel, hue, saturation, value, temperature, relativity, color relationships, and color mixing. Artists will learn how color captures mood and helps communicate meaning as well as how to use color to create personal, expressive works of art. Step-by-step projects and accessible technique demonstrations show color theory in action, making this book a useful reference for any beginning artist's library.

Ideal for beginning and intermediate artists seeking to develop their acrylic painting skills, *Painting in Acrylic* features a range of techniques and valuable instruction for working with this classic medium and painting a variety of subjects. Beginning with detailed information for using acrylic tools and materials, *Painting in Acrylic* introduces artists to the basics, including brushes,

Learn oil painting from the beginning with this art guide book. You have just purchased your first set of oil colours. Now what? A blank art surface may reflect an uncertainty of what to paint. Where does the beginner begin? Is an easel needed? What about a mahl stick, stretched canvases and a kidney-shaped palette? The aim of this book is to show that such paraphernalia are not essential. Oil paints can be odourless, clean and the starter kit may comprise just a few items that can be stored in a tool box. Infinite colours can be mixed with several pigments via a few brushes. This makes oil colours the ideal choice for the beginner who wishes to try a truly versatile art medium. Find basic oil painting exercises aimed at getting that brush moving, even if it means laying each pigment into rectangles to get to know each pigment. Exercises progress steadily onto shading, mark making and applying glazes. These rudimentary exercises provide the springboard from which to paint a first landscape and more. The myths of colour theory is dispelled, making dirty colour mixes a thing of the past. Find chapters that explore

complementary colours, alla prima, glazing, using a limited palette, working with linseed oil and expressing a jigsaw of marks. Each chapter concludes with a summarizing bullet point list of what has been covered so far, helping to reinforce what has been learned. As will be seen, oil paints have many surprises in store and can be fun to try out – without the fuss, mess or cost. Includes a shopping list for the beginner, glossary and hundreds of colour images.

Learn how to paint in four different media! Taking the first steps to learn how to paint can be a challenge, especially when beginning artists are unsure which medium best suits them. Welcome to art school! This book goes beyond typical step-by-step drawing and painting books and delves into the fundamental framework of art and technique.

Readers will feel as though they have their own art tutor as they learn lessons similar to those taught in an entry-level college art course. Topics include composition, perspective, form, value, color and mixing, lighting, and, most importantly, how these concepts relate specifically to still lifes and florals. With design and instructional elements, including chapter outlines, review sections, and “extra credit” exercises, readers will feel more than ready to take the next steps in their art education upon finishing this comprehensive book.

Health Effect Assessments of the Basic Acrylates is the first book to provide a comprehensive discussion of the toxicological and ecotoxicological effects of the five major high-production volume acrylates: acrylic acid and the methyl, ethyl, butyl, and 2-ethylhexyl esters.

Insightful interpretations of the effects of these acrylates on human populations and the environment are presented, and the severity of observed toxic responses is documented. The nature of the responses is discussed in relation to the metabolism and biological reactivity of the acid and each of the esters. Current areas of investigative toxicology as they apply to these chemicals are critically reviewed. The book also presents discussions on other significant aspects of the subject, including the mechanisms of forestomach tumor formation and the role of irritation in toxic responses.

This volume stands alone as a complete review of these
