Family Secrets By: William Stricklin Family Secrets discloses the darkest secrets over a thousand years. This nonfiction book is evidence that the writer's family may be firmly founded on the five strong pillars of murder, betrayal, greed, lust, and incest and has far more than its fair share of family secrets. Research over half a century has created this book not to be put down: a pregnant nun; the secret library in the Strickland Manor where Catherine Parr, Queen of England and Henry VIII's sixth wife, locked prohibited books away from the castle in order to keep her head from being chopped off; regicide of a boy king by his stepmother; a hunting trip in which Stricklin's forebear puts a hunting javelin between the shoulder blades of his best friend... then hastily married his gorgeous wife fourteen days later; a ménage during a coronation dinner including a new bride and new mother-in-law; abduction of Stricklin's two-day-old maternal great-grandmother during a Comanche raid and the saga of her escape from slavery; and the murder trial of Katie Stricklin who used arsenic to poison her family.

This book joins together disclosure, privacy, and secrecy to pursue a greater understanding of how people are both public and private in their interactions. To be social yet autonomous, known yet unknown, independent yet dependent on others is essential to the communicative world. How do people manage these seemingly incongruous goals? This book argues that they actively work at balancing simultaneous needs of being both public and private. It highlights many different ways that people balance their public needs with their privacy needs underscoring the multidimensional nature of balance. The chapters also show that the opposing needs occur within a variety of contexts, from health issues, such as HIV/AIDS, to television talk shows. Readers will discover that avoiding disclosure is a dominant theme. In this way, the authors demonstrate how people balance privacy and secrecy by deemphasizing openness. Taken as a whole, this volume offers a refreshing new look at age-old concerns. What happens when a boy starts asking questions? The people the secret police recruited or interrogated were threatened so effectively that some never told even their spouses, and many have held their tongues to this day, long after the regimes fell. With the end of communism, many of the newly established governments—among them Romania's—opened their secret police archives. From those files, as well as her personal memories, the author has carried out historical ethnography of the Romanian Securitate. *Secrets and Truths* is not only of historical interest but has implications for understanding the rapidly developing "security state" of the neoliberal present.

how clued in are you really about the internet? You probably know more about Bangladesh (which ain't much, right?) than you do about web development, link building, and search engine optimization. The internet may play an integral role in our lives, yet in informal testing, close to 92% of internet users scored no more than basic competence with it. Less than 16% had any legitimate knowledge of SEO marketing. I can hear you from here: "Basic competence is good enough for me. Why would I want or need to do more than that?" You can use the Google or Bing search engine (but lazily, not with any genuine optimization), get around the Gmail and Hotmail interfaces, buy an airline ticket at Expedia, order a book at Amazon, and post an update at Facebook. Is that mastery when anyone can do that? Complacency never does anyone any favors. If the complacent had won out, we'd still believe the world is flat and airplane flight is impossible. TRIGGER WARNING: The beginning of this book deals with a physically and emotionally abusive relationship in a honest and realistic, violent manner. hadn't answered that random ad for a roommate, her life would be pretty damn perfect. Dinah Robbins knows that, no matter what she does, the horror that is her life will never be behind her...unless her controlling, threatening, abusive boyfriend finally kills her. She's floating, waiting, and advertised for a roommate as a last ditch, listless effort to save herself a few beatings here and there. Jeyne and Dinah may have been roommates for months, but they're not anything like friends. In fact, they hardly know each other at all – until the night Jeyne comes home late to find Dinah in a heap of trouble. The two girls then find themselves sharing a secret that brings them together in a way they never expected. And upends their lives in a way they may never be able to set right.

Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the \$100M entrepreneur and co-founder of the software company ClickFunnels. The biggest problem that most entrepreneurs have isn't creating an amazing product or service; it's getting their future customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in schools.

It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.
