In Richard Bach's best-selling book Illusions, the mysterious hero Donald Shimoda seems to carry the keys to the universe with him as he barnstorms the Midwest in a Travel Air biplane. Shimoda's secret is a small book, bound in what appears to be suede, called the Messiah's Handbook. This slim volume, which the hero frequently quotes, is said to contain "whatever you need to know." All Shimoda has to do is hold a question in his mind, close his eyes, open the book at random, open his eyes-- and the answer is there. Here, at last, is the "lost book" from Illusions--the Messiah's Handbook. Within these pages, you will find the answers to all your most important questions as well as answers to questions that you may have never thought to ask--until now.

INSPIRATIONAL

The glorious #1 Bestseller. One of the most popular fictional books of all time, this is a spiritual allegory of freedom and flight. "Richard Bach with this book does two things. He gives me Flight. He makes me Young." --Ray Bradbury

Under the spell of quantum physics, Bach and his wife Leslie are catapulted into an alternate world, one in which they exist simultaneously in many different incarnations. First they encounter themselves as they were 16 years ago on the day they first met. In this version of their lives, they do not marry, and never achieve the happiness Bach assures us that their real union has produced. Bach once again displays an inventive imagination and inspirational zeal that will have readers examining their own lives.

Inspired by correspondence between Bach and a child concerning a special occasion, this meditation expresses, in Bach's typically soaring fantasy, the thoughts and beliefs by which he lives

The search for the great truths of the universe, undertaken by a teacher and his disciple, is narrated in this follow-up to "Jonathan Livingston Seagull."

The teacher is a man who strayed at one time from following his personal path. Over the course of their journey, the student will slowly but surely learn to accept--just as the reader will--the teacher's secret

that anything is possible if one has confidence in his own abilities, a belief that often remains hidden in a cloud of fear and prejudice.

Richard Bach explores the meaning of fate and soulmates in this modern-day fairy tale based on his real-life relationship with actor Leslie Parrish. This unconventional novel is about a riveting love affair between two fully human people who are willing to explore time travel and other dimensions together even as they grapple with the earthly struggles of intimacy, commitment, smothering, and whose turn it is to cook.

In the cloud-washed airspace between the cornfields of Illinois and blue infinity, a man puts his faith in the propeller of his biplane. For disillusioned writer and itinerant barnstormer Richard Bach, belief is as real as a full tank of gas and sparks firing in the cylinders...until he meets Donald Shimoda--former mechanic and self-described messiah who can make wrenches fly and Richard's imagination soar.... In *Illusions*, the unforgettable follow-up to his phenomenal bestseller *Jonathan Livingston Seagull*, Richard Bach takes to the air to discover the ageless truths that give our souls wings: that people don't need airplanes to soar...that even the darkest clouds have meaning once we lift ourselves above them... and that messiahs can be found in the unlikeliest places--like hay fields, one-traffic-light midwestern towns, and most of all, deep within ourselves.

Presents a tale of a married ferret couple, both aspiring writers, who, in their quest to write the great ferret novel, learn how important it is to be loved by one another, as well as achieving the ultimate success by satisfying one's inner circle.

" Mes frères ! s'écria Jonathan. Mille années durant, nous avons joué des ailes et du bec pour ramasser des têtes de poisson, mais désormais nous avons une raison de vivre : apprendre, découvrir, être libres !" Jonathan Livingston n'est

pas un goéland comme les autres. Ses parents, les autres membres de son clan, ne voient pas plus loin que le bout de leurs ailes. S'ils volent, c'est uniquement pour se nourrir.

Jonathan, lui, vole pour son seul plaisir. Et en volant toujours plus haut, toujours plus vite, il sait qu'il découvrira un sens plus noble à la vie. Effrayés par son audace, ses semblables le rejettent. Mais Jonathan va se faire de nouveaux amis...

The author describes his adventures as he piloted a seaplane named Puff from Florida to Washington State.

In this inspirational fiction the author talks about the unlimited power and potential lying dormant in every soul, waiting to be awakened. The moment we become aware of the power within, we stop being a victim of circumstances, get off the autopilot called fate and take the reins of life in our hands. 'I Have The Controls' is about the journey of a boy from a small town who realises his dream of becoming a pilot, learns the lessons of life on the way and goes on to inspire others to follow their dreams. His Flying Instructor implants wisdom into the flying lessons and teaches him to take the flight of faith.

The book shows the way - how, by aligning personal desires to the benefit for mankind, it is possible to lead a deeply rich and satisfying life. Using flying as a metaphor, Manish Kumar has penned this extremely enjoyable story. Peppered with the author's insights, this book is sure to touch and inspire you to break the shackles of self-limiting beliefs and to take off in life.

Foreword by John Harricharan I lead a very busy life and generally cannot answer the tens of thousands of emails that come to me every month. Much as I would like to respond, it's almost practically impossible. And so it was that I came upon a note sent to me by Manish Kumar. I don't quite remember when it started, but I kept seeing his name here and there, sometimes on my FaceBook page, other times through something a dear friend, Yasminder Verdi, would mention in an email. And that is how I got to know Manish. It is not that

we had met or had daily conversations. After all, he lives on the other side of the planet from where I am. It's more like his spirit was shining so brightly through his words and across the miles that I had to stop and take note. I am happy, very happy that I did. Why am I happy about this? Because I was given an opportunity to discover a rare treasure. You see, Manish had written a book called "I Have the Controls." He was kind enough to send me a draft copy to look at. I thought I would just glance through it, but then, as I started reading, I could not put it down. Manish uses the metaphor of flying to bring us some of the most life-affirming messages possible. In simple language, he leads us into a world where we find the gentle hints of that which we need to know. His chapter, "It's all about balance" as well as his formula for success, which he refers to as "IVR" would help anyone to reach goals that may have seemed unreachable. And, NO, I will not tell you what "IVR" stands for. You will have to find out for yourself and experience the thrill of discovery, just as I did. You will be happy that you found the formula. In some ways, "I Have the Controls" reminds me of one of my favorite authors, Richard Bach. Richard's books such as "Jonathan Livingston Seagull" and "Illusions" sit in a special place on my favorite bookshelf. I go there often for guidance and wisdom. Manish's book will be in that same, special bookshelf. My suggestion is that you get yourself a copy of this book, read and reread it. I think you'll find the answers to problems that have been challenging you for quite a while. And while you are at it, pick up a copy for someone near and dear to you. Share it with those you love. They will be grateful, very grateful. Thank you, Manish. Thank you for sharing your insights with us. Thank you for writing a book that has the potential of changing many lives. And thank you for giving me the opportunity to read it. I look forward to reading your future books. I am sure many others will, also. John Harricharan is a
