

One True Mate 1 Shifters Sacrifice

Mac knows Rogue is his from the moment she holds him hostage, but she'll never let him claim her... If Mac ran the world, everything would be better. Everyone would say what they felt, mean what they said, and never, ever get offended. At least that's what he thought his own personal utopia would look like, until he met Rogue. Rogue's life was just fine, thank you very much. An expert in her chosen field of danger and lies, she was well on her way to retiring by 30, as long as she could keep her curious mental slide under control. Until that hot-as-sin cop showed up, turning her life upside down, bringing her everything she'd always-and never-wanted.

Shannon is a quarter puma but can't shift. She's just a human with a few extra genes. But she knows how dangerous shifters are, and now she's their prey, captured by a group of werewolves for a deadly hunt. Anton's body responds fervently to Shannon, and he vows to protect her with his life. Only to discover she's the enemy. But it's mating heat, and he's about to lose all control to that driving sexual need.

Jaggar is a half-wolf, half-mountain lion shifter, but his halves don't make a whole. Instead, they form the beast, a misshapen killing machine that terrifies even the hard-charging wolf shifters of the KSRT, especially after the mauling. "Jaggar has tragic down," his friend says about him, which must be why his one true mate, Leilani, is also steeped in tragedy. She's a time-traveler. In fact, our boys in Serenity owe their very future to her. But what she has done for them has robbed her of her sight, and her sanity. When Jaggar and Leilani meet in the forest, her eyes flashing silver, his beast in complete control, it seems only a miracle can keep them together.

Trevor Burbank is a shifter cop in a world of humans who don't know the evil that wants them dead. If he does his job well, the humans will never need to know, but he feels like he's working against the clock, because his pack is about to die. The females have all been killed, and the half-breeds they make when they mate with humans aren't usually skilled or strong enough to fight. Gabriela Carmi has lost almost everything that means anything to her way too fast and now she feels like she's losing her mind too. On a quest to find something that won't reveal itself to her, she feels as if she's pining for someone who may not exist. So when an evil presence begins to follow her, she isn't sure if her mind is slowly falling apart, or if the impossible is actually coming true. And when an instant attraction sparks between her and the dangerously sexy police officer sent to help her, it makes matters worse and better at the same time. It's a race against time to find the angel/human hybrid One True Mates that the pack's spiritual leaders say truly exist. Saving the all the shifter clans is on everyone's mind, except for the chosen, the One True Mates, most of whom don't even know who or what they really are, or why they seem to be slowly losing their minds.

for the first time in the history of our pack, the new alpha is mated with a nobody. A foster kid living in the packs orphanage with no ancestors or power to claim. Me. After being brutally rejected by my alpha mate, publicly humiliated and thrown away into the sea, the dark wolves of the Fall Mountain Pack find me. They save me. The four alphas. The ones the world fears because of the darkness they live in. In their world? Being rejected is the only way to join their pack. The only way their lost and forbidden god gives them the power to shift without a mate. I spent my life worshipping the moon goddess when it turns out my life always belonged to another... Troy was a man trapped in a wolf's body for three decades, until a nap changed his life forever. Now that he's a wolf trapped in a man's body, he's not going back. Food? Good. Partying? Better. Women? Best. With one brother missing, one brother overwhelmed by parenting twin angels, and only distracted Mac to keep him straight, Troy is fulfilling his every desire, never sleeping, rarely working, refusing to reel it in. Until he sees her. Reed has many rules, but the biggest one might be, never date a cop. There's also never kiss on the first date. Never tell anyone your business. Never go in the forest. Never-But then that cop walked into her bar. The one with the wild eyes and the chiseled jaw. The one who devoured her every time he stared at her. Don't go in the forest, Reed. Never go in the forest. That's where the wolves live.

The epic conclusion to the Shadow Beast Shifters. I finally have the life I always dreamed of. So why does it taste like ash on my tongue? Growing up in Torma, the strongest of the shifter packs, I wanted nothing more than to find my true mate and live my best life. Of course, that dream existed before my father betrayed the pack and turned me into their punching bag. I'd all but given up, until a quirk of true mate genetics gifted me a true mate like no other. My childhood dreams were finally a reality. Funny how quickly dreams turn into nightmares. I'm being lied to, missing weeks and months of time. Someone messed with me and no matter how often I'm told to forget it and move on as Torin's mate, there's no way I can. Whoever did this to me should have known I'd pick at it until it bled. It's my nature after all. As I search out random growls, flutters in my chest, and a suspicion that there's so much more going on than I could even imagine, I sense that I'm racing against an unknown clock. I need to get to the bottom of this mystery. And when I figure out who stole my memories, they're going to wish they never messed with Mera Callahan. Game on. -If you like sexy, dark paranormal romances, with humor, steam, action, a tough heroine and an antihero, this is for you.

There are things that we want, and things that we need. Sometimes they end up being one and the same. PHILIP All my life, I've known two truths: my best friend Jaeger is my true mate, and I'm destined to marry a princess I've never met for the sake of my kingdom. Prophecy's a bitter pill to swallow when you've tasted true love and are told it can never be. But I wouldn't be worthy of my beautiful omega if I were willing to let selfishness be the ruin of my people. Still, I don't feel anything but selfish as I keep my childhood friend close, and yet forever out of reach. The pain of our proximity reflected in his eyes. A better man would set him free, but I'm not that noble. Just noble enough to deny us both what we crave. But if I can't be with the man I love, I can at least be a better prince for my people. I need to remain focused on staving off my enemies as I'm teased with the promise of the only thing I've ever wanted. Because as it turns out, prophecies are never quite what you think... JAEGAR If the story of my life has a theme, it must be this: so close, and yet so far. Orphaned and raised as a brother to the wolf prince I love more than my own life, but never quite felt like one of the family. Talented enough in battle to silence the rumors that only favoritism gave me the role of his bodyguard, but not skilled enough to protect him when he needed me most. I am willing and eager to be the partner-the mate-Prince Philip deserves. I can give him everything he wants, if only it weren't for the one thing an ancient prophecy demands of him. The Prince must surrender to a marriage with the heir of a kingdom strong enough to protect his own. But we are who we are, and we all have a role to play. I've made peace with mine. Ready to step into the shadows and allow his bride to bask in his light. But then I discover: I am not who I thought I was. And I have a far greater role to play than any I prepared for. Going lone wolf was the only option I had, and I took it. Now I live in Muncie, hiding in plain sight. If the wolves ever left the mountains surrounding the city, I'd be in big trouble. If he thinks she's going to take him back now, he has another think coming. Because Gem? She'll never be his mate...

An Enemies to Lovers Shifter, Vampire True Mates story. Justice Volkov is the youngest Alpha Zenith to ever lead the wolf shifters. Following in his father's large paw prints was a responsibility he met head on. Now at age thirty-three, he is alpha of the alphas. As a direct descendant of the original Siberian pack, his wolf is bigger and stronger than Justice, himself is sometimes able to control. His wolf howled long and hard but Justice kept it inside. It felt like a bass drum beating against his rib cage. The harsh breaths, angry snarls and the determined pacing inside him was overtaking him. Justice takes his role of leadership and his legacy very seriously. He has little time for romance, not to mention a true mate. His packs are his priority. With a human government trying to regulate them, an uprising of rogue shifters, and a violent team of scientists trying to experiment on them, Justice has his hands way too full. Or so Justice thought. He knows his skepticism and rejection is hurting his mate, so while he fights their connection, Wick gets help from a source very close to Justice to help him win his beloved's heart. Wick is a force all on his own, but when he's blessed with a special gift from the Mother herself, not even Justice's powerful wolf can prevent the prophesy from being fulfilled. This story DOES NOT contain/mention MPREG. No multiple pairings. No cliffhangers. It ends with a very HFN.
