Christof Sielecki presents a repertoire for Black against mainline 1 d4, with the Nimzo-Indian and Bogo-Indian defenses. Sielecki focuses on lines where Black adopts a dark-square strategy. This creates a system-type approach linking variations to a common theme, making the repertoire much easier to learn and understand.

They did it! Dejan Antic and Branimir Maksimovic have created a complete chess opening repertoire for Black players in only two books. First they wrote the acclaimed The Modern French (against 1.e4). Now The Modern Bogo provides Black players with a comprehensive answer to 1.d4. The two books complement each other perfectly. The point is that the authors recommend to answer 1.d4 with the direct 1...e6, for the follow-up 2.c4 Bb4+. In this way they avoid complex theoretical Nimzo-Indian lines and enable both amateur and professional players to find their own way in little-explored variations. The Modern Bogo covers all the possibilities for White after 1.d4 e6... except for 2.e4, after which you should play the French! Antic and Maksimovic have done a

massive amount of research, and found many new strategic concepts and attacking plans. All of them are explained clearly and thoroughly. You will find that this opening not only gives you good chances to equalize as Black, but also many opportunities to play for a win. IS THIS BOOK ONLY FOR THOSE WHO PLAY THE FRENCH WITH BLACK? OF COURSE NOT! More than 90% of the lines that Antic and Maksimovic cover can also be reached through the standard Bogo- and Nimzo-Indian move order 1.d4 Nf6 2.c4 e6.

An overview, selection, and improvement of chess openings; both for (post-)beginners and intermediate players. Including a unique and timeless 'repertoire', carefully selected for home player level (1.e4) and/or more advanced (chess club) players. For the latter, in addition to a second, more in depth repertoire with 1.e4, an optional repertoire is given with 1.d4 (besides some gambits, or general opening systems as well). The most suitable opening moves were selected by thorough analysis, to build up a rocksolid B/W 'repertoire', for two categories of players. Not only mentioning of the opening names, but also of most sub-variations.

Compared with up to date opening books and actual GM games, resulting in many opening novelties. Many diagrams to enhance memorization and understanding. An ideal study guide, and only opening book a chess player needs until about master level.
