The here and now is simply not able to bear the weight of our expectations. We've lost an eternal perspective, and it hurts us every day. Job disappointment, relationship struggles, and quiet feelings of disillusionment all signal that something is not quite right. Life only makes sense when you realize that all of the situations, locations, and relationships of your life were not designed to be a final resting place for your hopes and dreams, but tools of preparation for a destination to come. Living without eternity puts pressure on the here and now to be what it cannot be and to deliver what it cannot deliver. Countless people deal daily with the frustration of a life that has no "forever." In Jesus Christ the hope of eternity is restored and, with it, a radical new way of understanding and facing the normal struggles of life in a world broken and waiting for restoration.

How do people experience spirituality through what they see, hear, touch, and smell? Sonja Luehrmann and an international group of scholars assess how sensory experience shapes prayer and ritual practice among Eastern Orthodox Christians. Prayer, even when performed privately, is considered as a shared experience and act that links individuals and personal beliefs with a broader, institutional, or imagined faith community. It engages with material, visual, and aural culture including icons, relics, candles, pilgrimage, bells, and architectural spaces. Whether touching upon the use of icons in the age of digital and electronic media, the impact of Facebook on prayer in Ethiopia, or the implications of praying using recordings, amplifiers, and loudspeakers, these timely essays present a sophisticated overview of the history of Eastern Orthodox Christianities. Taken as a whole they reveal prayer as a dynamic phenomenon in the devotional and ritual lives of Eastern Orthodox believers across Eastern Europe, the Middle East, North Africa, and South Asia.

Be prepared to have your eyes opened and your perceptions challenged in this surprising and important masterwork from one of the great theological minds of our time. Throughout his lengthy career as a student of Scripture and as an apologist and teacher, Hank Hanegraaff has always argued passionately for the importance of biblical truth and biblical understanding. Through his many published books and his long-running radio show, Bible Answer Man, his name has become synonymous with commitment to both theological rigor and an explanation of theological truth that is digestible for the lay believer. In the first half of this compelling and powerful book, Hank lays out the clear case for the importance of biblical truth in our time in the persuasive and practical way that only he can. In the surprising and unexpected second half of the book, he explores biblical truth not as an end but as a pathway to the ultimate truth—the personhood of God. Hank explains with both precision and compassion that the Bible is a map God has given us to draw us deeper into Himself, and that we cheat ourselves of real truth when we elevate the message above the Messenger.

Barbara Hughes carefully guides her readers through the Scriptures, asks them questions for self-evaluation, and provides helpful suggestions for direct application of these fundamental spiritual disciplines.

On Saint Gregorios, 1848-1902.

Since its original release in 1939, Carl Schneider's *The German Church on the American Frontier* has been the premier published resource on the unique "Evangelischer Kirchenverein des Westens" (Evangelical Church Society of the West), 1840-66, which later assumed a wider denominational identity as the German Evangelical Synod of North America, the church of the Niebuhr family. Known eventually as the Evangelical Synod of North America, the group's ecumenical and irenic heritage contributed to mergers that resulted in the Evangelical and Reformed Church, 1934-1957, and thereafter in the United Church of Christ.

Traces the religious adaptation of members of an important Indian Christian church—the Mar Thoma denomination – as they make their way in the United States. This book exposes how a new paradigm of ethnicity and religion, and the megachurch phenomenon, is shaping contemporary immigrant religious institutions, specifically Indian American Christianity. Kurien draws on multi-site research in the US and India to provide a global perspective on religion by demonstrating the variety of ways that transnational processes affect religious organizations and the lives of members, both in the place of destination and of origin. The widespread prevalence of megachurches and the dominance of American evangelicalism created an environment in which the traditional practices of the ancient South Indian Mar Thoma denomination seemed alien to its American-born generation. Many of the young adults left to attend evangelical megachurches. Kurien examines the pressures church members face to incorporate contemporary American evangelical worship styles into their practice, including an emphasis on an individualistic faith, and praise

and worship services, often at the expense of maintaining the ethnic character and support system of their religious community. Kurien's sophisticated analysis also demonstrates how the forces of globalization, from the period of colonialism to contemporary out-migration, have brought about tremendous changes among Christian communities in the Global South. Wide in scope, this book is a must read for an audience interested in the study of global religions and cultures.

This book explores the biblical interpretation of the Ethiopian Orthodox Tewahido Church (EOTC). In doing so, it illuminates the interpretation of the Bible in a particular historical and cultural context and presents a compelling example of the contextual nature of biblical interpretation. Those who visit Ethiopia experience its unique spirituality, which is significantly informed by the presence of the EOTC. The EOTC has existed from earliest years of the Christian church. It has also developed and maintained its own ecclesiastic tradition in the Ethiopian context and has its own distinctive way of reading the Bible. It is noteworthy, particularly in the African context, that it has its own commentaries on the Scriptures, which continue to serve as a vital tradition in the EOTC's interpretation of the Bible. This is evident in the contemporary hermeneutics and sermons of EOTC preachers. In its comprehensive consideration of the EOTC's past and present, this book examines the interplay between tradition and context in biblical interpretation and contributes to current biblical scholarship.

Twelve lay and ordained Orthodox writers provide profound and fascinating insights into the role and mission of the Church in today's world. Issues covered range widely, including family life, ecology and consumerism, politics, ethics and psychology.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

A history of Christian education must not be confused with a record of the achievements of the Sunday School. The discipline has advanced well beyond that stage, and today's sophisticated students fully understand that no proper concept of the history and philosophy of Christian education can be gained without seeing all the ramifications, implications, and influences that have affected it from pre-Christian times to the present. So Drs. Gangel and Benson have written this book, a historical flow of philosophical thought from a Christian point of view. Its focus is cultural-biographical, discussing each philosophy in its particular socio-historical setting, and giving special attention to significant individuals. The format is chronological, beginning with education in biblical times, working upward through history to arrive at the present - and beyond, raising questions and issues for the future.

"Copts in Modernity presents a collection of essays - many of which contain unpublished archival material - showcasing

historical and contemporary aspects pertaining to the Coptic Orthodox Church. The volume covers three main themes: The first theme, History, gathers studies that look back to the nineteenth and late eighteenth centuries to understand the realities of the twentieth and twenty-first; the second theme, Education, Leadership and Service, explores the role of religious education in the revival of the Church and how Coptic religious principles influenced the ideas of leadership and service that resulted in the Church's spiritual revival; and the third theme, Identity and Material Culture, draws upon a broad range of material and visual culture to exemplify the role they play in creating and recreating identities. This volume brings together the work of senior and early career scholars from Australia, Europe, Egypt, and the United States"-- A New York Times Notable Book of 2018 "Searingly passionate...Nixey writes up a storm. Each sentence is rich, textured, evocative, felt...[A] ballista-bolt of a book." —New York Times Book Review In Harran, the locals refused to convert. They were dismembered, their limbs hung along the town's main street. In Alexandria, zealots pulled the elderly philosopher-mathematician Hypatia from her chariot and flayed her to death with shards of broken pottery. Not long before, their fellow Christians had invaded the city's greatest temple and razed it—smashing its world-famous statues and destroying all that was left of Alexandria's Great Library. Today, we refer to Christianity's conquest of the West as a "triumph." But this victory entailed an orgy of destruction in which Jesus's followers attacked and suppressed classical culture, helping to pitch Western civilization into a thousand-year-long decline. Just one percent of Latin literature would survive the purge; countless antiquities, artworks, and ancient traditions were lost forever. As Catherine Nixey reveals, evidence of early Christians' campaign of terror has been hiding in plain sight: in the palimpsests and shattered statues proudly displayed in churches and museums the world over. In *The Darkening Age*, Nixey resurrects this lost history, offering a wrenching account of the rise of Christianity and its terrible cost.
