

Os Portugueses Barry Hatton

Colorful and humorous pictures illustrate the meanings of the basic vocabulary of the Chinese language.

Portugal is an established member of the European Union, one of the founders of the euro currency and a founding member of NATO. Yet it is an inconspicuous and largely overlooked country on the continent's southwest rim. Barry Hatton shines a light on this enigmatic corner of Europe by blending historical analysis with entertaining personal anecdotes. He describes the idiosyncrasies that make the Portuguese unique and surveys the eventful path that brought them to where they are today. Portugal, which claims Europe's oldest fixed borders, measures just 561 by 218 kilometers. Within that space, however, it offers a patchwork of widely differing and beautiful landscapes. With an easygoing and seductive lifestyle expressed most fully in their love of food, the Portuguese also have an anarchical streak evident in many facets of contemporary life. A veteran journalist and commentator on Portugal, the author gives a thorough overview of his adopted country.

On a wintry morning at the close of 1690, the sun shining faint and red through a light fog, there was a great noise of baying dogs, loud voices, and trampling of horses in the courtyard at Wildairs Hall; Sir Jeoffry being about to go forth a-hunting, and being a

man with a choleric temper and big, loud voice, and given to oaths and noise even when in good-humour, his riding forth with his friends at any time was attended with boisterous commotion. This morning it was more so than usual, for he had guests with him who had come to his house the day before, and had supped late and drunk deeply, whereby the day found them, some with headaches, some with a nausea at their stomachs, and some only in an evil humour which made them curse at their horses when they were restless, and break into loud surly laughs when a coarse joke was made. There were many such jokes, Sir Jeffry and his boon companions being renowned throughout the county for the freedom of their conversation as for the scandal of their pastimes, and this day 'twas well indeed, as their loud-voiced, oath-besprinkled jests rang out on the cold air, that there were no ladies about to ride forth with them. 'Twas Sir Jeffry who was louder than any other, he having drunk even deeper than the rest, and though 'twas his boast that he could carry a bottle more than any man, and see all his guests under the table, his last night's bout had left him in ill-humour and boisterous. He strode about, casting oaths at the dogs and rating the servants, and when he mounted his big black horse 'twas amid such a clamour of voices and baying hounds that the place was like Pandemonium.

Global growth for 2018–19 is projected to remain steady at its 2017 level, but its pace is less vigorous than projected in April and it has become less balanced. Downside risks to global growth have risen in the past six months and the potential for upside surprises has receded. Global growth is projected at 3.7 percent for 2018–19—0.2 percentage point lower for both years than forecast in April. The downward revision reflects surprises that suppressed activity in early 2018 in some major advanced economies, the negative effects of the trade measures implemented or approved between April and mid-September, as well as a weaker outlook for some key emerging market and developing economies arising from country-specific factors, tighter financial conditions, geopolitical tensions, and higher oil import bills. The balance of risks to the global growth forecast has shifted to the downside in a context of elevated policy uncertainty. Several of the downside risks highlighted in the April 2018 World Economic Outlook (WEO)—such as rising trade barriers and a reversal of capital flows to emerging market economies with weaker fundamentals and higher political risk—have become more pronounced or have partially materialized.
