December 2, 2004, started out like any other day for Gary Tim Collins. As a University of Toledo alumnus, Gary was looking forward to the Mid-American Conference championship game at Ford Field against the University of Miami with his friends. But he wouldn't see or remember the game. Just as he was about to sit down to enjoy the game, he was struck with seizures that landed him in Henry Ford's Intensive Care Unit in a coma for two weeks. It was the prayers of friends and loved ones that helped bring him back. This traumatic experience brought Gary closer to God, when he had previously struggled with finding his purpose and really felt God had something else in mind for him. That something else turned out to be this book, *The Light That Illuminates the Flame*. In this book, Gary explores common themes of Christianity, like who God is, what he does in our lives, the importance of his Word, the life of Jesus Christ, and, in turn, the way we should live our lives as his faithful followers to draw near to him. It is a thank you to the Almighty God who gave all and saved a man from losing it all.

For more than 160 years, the cannabis industry was a valued and trusted friend of the American people. Thirty-one consecutive presidents, including George Washington and Abraham Lincoln, didn't have a problem with the cannabis plant. It was the most valued commodity traded for on the free market until 1937. In *Secrets of the Cannabis Industry*, author Chuck Allen Jr. provides a look at the cannabis industry and the men and women who risk their family, friends, and freedom to work within it. Each chapter narrates a story from the subculture of cannabis entrepreneurs. There's Professor Muzzo, who unknowingly helped one of his students achieve financial success by selling a popular fast-food item spiced with a secret ingredient; a postal employee with a secret garden in his basement; an entrepreneur who made a fortune selling franchises for indoor-growing opportunities; and a fireman's wife who owned a video store with extra-special movie-rental benefits. *Secrets of the Cannabis Industry* considers the courage and the determination of these entrepreneurs and shares the secrets of how they became independent and financially successful in the cannabis industry.

a good opportunity to make a few remarks on the guiding rules that have governed our  
symposia. Why have we chosen these titles? At the outset we established certain selection  
criteria; we felt that a subject for a symposium should fulfill the following three requirements: It  
should characterize a part of an established discipline; in other words, it should describe an  
area of scholarly study and research. It should be of current interest in the sense that important  
results have recently been obtained and considerable research is still being undertaken in the  
world's scientific community. It should bear some relation to the scientific and technological  
activity of the company.
