This manual aims to present a broad coverage of urban finance, and describe the techniques of urban financial analysis. The manual is designed to provide only the core material for courses on urban financial management and should be supplemented with material relating to the specific conditions of the countries of the participants. This manual is divided into four chapters. Chapter one provides an overview of key issues in urban finance and introduces a framework for urban financial analysis; chapter 2 focuses on revenues and addresses the questions of how and from where government authorities can mobilize the resources required to finance the provision of urban services and the development and maintenance of urban infrastructure; chapter 3 examines expenditure analysis and addresses the question of how to spend more wisely; and chapter 4 discusses private participation in the delivery of urban services, forms of private sector involvement, and the role of nongovernment organizations and community groups. The report closes with a case study on private participation in public services and functions (solid waste disposal) in Malaysia.

chapter guides, and grading rubrics This textbook is designed for students preparing as advanced practice clinicians, including APRNs, DNPs, DPTs, DOTs, and physician assistants. The book covers both health policy issues and practice financial management issues. It is organized into seven sections in two parts. The first part is focused on macro issues in healthcare finance, and the second part is focused on healthcare financing management in professional practice. This approach provides the context necessary for the clinician to understand how to manage reimbursement requirements and preferred provider contracting as health care financial policy drives these payment and contracting strategies. Each section features a case study to facilitate classroom discussion on key points. This book is suitable for healthcare finance courses in the curriculum for MSN and DNP programs and also for schools of social work, medicine, occupational, and physical therapy.
