The book "PALMISTRY, A TRUE SCIENCE", is a carefully compiled book which contains 13 theories, 210 sketches of lines of the human palms, 64 case studies, 61 clearly and uniquely taken palm impressions. Ever since the origination of this subject, this is the first time that the human palms have been thoroughly analyzed "with reference to both the palms". For the author, the left hand and the right hand of 1000's of cases functioned as one whole comprehensive unit to enable him to compare the structural inter-relationships between different lines. The net result was that he could decipher the differences in dimensions between the left and the right palms such as - difference in lengths, slope, shortness, direction, location, fading characteristics, whether present in one or both the palms etc. The above aspect in his approach to the research was aimed at finding just the structural aspects of the lines on human palms. The other side of the coin is to relate the functions (events, diseases and temperaments) to the line patterns already discovered by the author. For this part of the research, he had to employ sophisticated techniques that only an investigator, a logician, an analyst or a statistician could have employed. In other words, the author employed some of the appropriate human qualities such as tact, wildest imagination, deep analytical power, trial and error method, wild guesses and compilation techniques so that he could bind together all the varied structural and functional extravaganzas present in the hands of his innumerable clients, into cohesive, presentable as well as verifiable rules and theories. Keeping in mind the vast dimension of this great science, the author could accommodate only 3 functions [MONEY and BUSINESS, JOB/CAREER and OVERSEAS TRAVEL / STAY] in this book. His forthcoming books deal with other life events, diseases and human temperaments. This book boasts of so many "firsts". To quote some examples: 1) No book has documented any provable, testable theories (13 in number) in such a minute degree. In the process, this book has secured an exalted status to "PALMISTRY" as a "TRUE SCIENCE". It goes without saying that "palm reading" is a scientific exercise - on par with any other science. 2) No book has featured as many as 64 case studies, and 61 clear palm impressions (A very high number!! of real examples for a book of this genre--an all time record, all accommodated in just 250 pages 3) One among many highlights of the book is that almost all the palm impressions have been marked out and their corresponding function(s) indicated [A first-time-ever phenomenon] which enhances its authenticity as well as proves its scientific nature. 4) Genuineness of the whole venture lies in the fact that the whole edifice of this book rests on the solid foundation of real life events / diseases / temperaments of all his clients.[Principles, rules and theories -all derived from these real stories] 5) And the people, the world over, are going to be exposed to an entirely new subject, for the most part of the book (about 95%) is hitherto unheard-of. 6) Last, but not the least, this book has the great potential to spawn a new breed of researchers, as this subject has immense scope for further research. In a world of continuing research, even one discovery fetches world acclaim and recognition, one can imagine what lies in store for this book, which has innumerable discoveries dotting the entire book. According to palmist Shastra, human hand is a horoscope which never perishes and Lord Brahma is its creator. The horoscope made by the creator Lord Brahma Contains Solution of every problems in which there is no possibility of any mathematical error. Even the lines on the palm provide prediction like planets & nakshatra and provide guidelines for the future. Just as two people can not have same destiny, same views and same course of life, in the same way palm lines can't be same for two persons. The great palmist from Paris Disbarsolalas has declared that, if anyone in the world gets me two people with same palm lines and I will make my life's will and wealth on his/her name. Everyone in the world has different lines. This is a definite and a universal fact. Every person has got his or her own destiny&character. Even the twins have some dissimilarities between them. A palmist works like a doctor. A doctor treats the patient and cures his diseases. A palmist treats the mind of the patient which is more complicated than physical cure. Each body part of every human being created by that supreme God has its own special significance and purpose. God has created palm lines to know the life events. That is the reason, finger prints never change but palm lines keep changing at various stages of our life. According to Shastras the first thing one should see in the morning after getting up from the bed is his/her own palm lines. Palmistry is a science, an art as well as a divine knowledge which helps one to understand the path of life. The knowledge of palmistry has been prevalent in Indian society & its boundary since ages. ABOUT THE PALMISTRY BOOK I wrote this book from the knowledge I'd received as a result of reading numerous old palm-reading books. I especially liked the ones found in India. Also, I read palmistry books based on Egyptian and Chaldean knowledge. I added my own knowledge to the book too, born out of reading the palms of my clients. Because I have really lovely people ordering my services, they are happy to cooperate with me. Therefore, because of their willingness to talk about their personal lives, I've made some palmistry discoveries which I share in the book. **PICTURE-RICH FOR EASY UNDERSTANDING** This book mixes old with the new. Though it's based on the ancient palmistry system, I use celebrity palm examples to illustrate many of the lines and hand shapes. I always found it frustrating that though the old palmistry books contain a wealth of information, they are often disorganized. For example, you discover palm illustrations pages after the appropriate lesson is given. So I tried to make my book as organized as possible, by providing an illustration after each explanation of the new line or mark. This book has several hundred illustrations of different palms, lines, and marks on hands. I tried to make the book as easy as possible to understand, therefore it contains many drawings.
