This first-ever study of rape in modern American drama examines portrayals of rape, raped women and rapists in 36 plays written between 1970 and 2007, the period during which the feminist movement made rape a matter

of public discourse. These dramas reveal much about sexuality and masculine and feminine identity in the United States. The author traces the impact of second-wave feminism, antifeminist backlash, third-wave feminism and postfeminism on the dramatic depiction of rape. The prevalence of commonly accepted rape myths--that women who dress provocatively invite sexual assault, for example--is well documented, along with equally frequent examples which dispute these myths. /pas/ Circumstances dictate that many mothers play a central role in the upbringing of their disabled children. Mothers and children often find themselves involved in an unusually intimate and protracted relationship. This book explores mothers' perspectives about the ways that they find themselves acting as mediators between their children and a world that can be hostile to their interests. It takes as its starting point a study in which mothers from diverse backgrounds detail the ways in which they attempt to represent their children to the world, and the world to their children in both formal and informal interactions. They describe challenging discussions with children and other family members as well as battles and negotiations elsewhere. Their particular experiences and perspectives are linked to wider research and theory on motherhood and caring, the life patterns of disabled children and their families, and the discrimination faced by disabled children and adults.

This fascinating collection analyzes the impact of Western consumer culture on local cultures and consumption in Southeast Europe and East Asia. Cultural, historical, economic and sociopolitical contexts are examined regarding buying behaviors, usage and customization practices and consumer activism, specifically in Bulgaria, Serbia, and Romania as cultures continue to evolve in the post-socialist era, and in China and Japan as a continuation of movements toward modernity and progress. Surprising and thought-provoking contrasts stand out as consumers balance the global with the local in terms of clothing, technology, luxury items, and food. All chapters feature a wealth of empirical and cross-cultural data, and the presentation is framed by Professor Mike Featherstone's theoretical essay on the origins of consumer culture and the consequences of two hundred years of increasing consumption for the human condition and the future of the planet. Included in the coverage: "You are a socialist child like me": Goods and Identity in Bulgaria Consumer Culture from Socialist Yugoslavia to Post-Socialist Serbia: Movements and Moments Preserves Exiting Socialism: Authenticity, Anti-Standardization, and Middle-Class Consumption in Post-Socialist Romania Modernization and the Department Store in Early 20th-Century Japan: Modern Girl and New Consumer Culture Lifestyles A Cultural Reading of Conspicuous Consumption in China Approaching Consumer Culture broadens the cultural anthropology literature and will be welcomed by Western and Eastern scholars and researchers alike. Its depth and accessibility make it useful to university courses in cultural anthropology, cultural studies, and sociology.
