The first book from designer Michelle Nussbaumer features her dramatically lush interiors and shows readers how spaces can be inspired by travel and filled with treasures from around the world. As a curator who discovers exquisite treasures all over the world for her projects and her Dallas-based design store Ceylon et Cie, Michelle Nussbaumer has a signature style, in multilayered rooms that mix periods with antique textiles, embroideries and weavings, unconventional furniture, and global art. The result is unique interiors that might recall 1940s glamour or nineteenth-century England. Her first book, organized by mood and style, showcases interiors that range from calm to bold, and from rustic to exotic. These include Nussbaumer's own stunning residences in Switzerland and Texas, as well as her work for clients around the country. Her sumptuous interiors—eclectic in style and influenced by the designer's travels from Paris and Rome to Africa, Mexico, and China—provide alluring inspiration for design aficionados.

? Electric propulsion for boats was developed in the early 19th century and—despite the advent of the internal combustion engine—continued with the perfecting of the modern turbo-electric ship. Sustainable and hybrid technologies, pioneered in small inland watercraft toward the end of the 20th century, have in recent years been scaled up to create integrated electric drives for the largest ocean-going vessels. This comprehensive history traces the birth and rebirth of the electric boat from 1835 to the present, celebrating the Golden Age of electric launches, 1880–1910.

Where did passports come from? Why did 1930s stewardesses carry wrenches? And how did teetotalers shape the modern vacation? Wanderlust answers these questions and more, as author Laura Byrne Paquet

dives into the social history of travel. Now a multi-billion dollar industry, travel is also one of the world's oldest. Paquet follows hypochondriac Greeks to the Oracle of Delphi, checks out the bedbugs in medieval coaching inns, enjoys a Finnish sauna with a group of well-bred Victorian ladies, and relaxes on a transatlantic liner with some of England's Bright Young Things from the 1920s. In breezy style, she explains the difference between a traveller and a tourist and explores the future of travel, from grand plans for commercial space travel to underwater hotels. As the book reveals, we've always loved to travel — the only thing that keeps changing is how we get from here to there.

What does it mean to be out walking in the world, whether in a landscape or a metropolis, on a pilgrimage or a protest march? In this first general history of walking, Rebecca Solnit draws together many histories to create a range of possibilities for this most basic act. Arguing that walking as history means walking for pleasure and for political, aesthetic, and social meaning, Solnit homes in on the walkers whose everyday and extreme acts have shaped our culture, from the peripatetic philosophers of ancient Greece to the poets of the Romantic Age, from the perambulations of the Surrealists to the ascents of mountaineers. With profiles of some of the most significant walkers in history and fiction - from Wordsworth to Gary Snyder, from Rousseau to Argentina's Mother of the Plaza de Mayo, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja - Wanderlust offers a provocative and profound examination of the interplay between the body, the imagination, and the world around the walker.

As many places around the world confront issues of globalization, migration and postcoloniality, travel writing

has become a serious genre of study, reflecting some of the greatest concerns of our time. Encompassing forms as diverse as field journals, investigative reports, guidebooks, memoirs, comic sketches and lyrical reveries; travel writing is now a crucial focus for discussion across many subjects within the humanities and social sciences. An ideal starting point for beginners, but also offering new perspectives for those familiar with the field, *The Routledge Companion to Travel Writing* examines: Key debates within the field, including postcolonial studies, gender, sexuality and visual culture Historical and cultural contexts, tracing the evolution of travel writing across time and over cultures Different styles, modes and themes of travel writing, from pilgrimage to tourism Imagined geographies, and the relationship between travel writing and the social, ideological and occasionally fictional constructs through which we view the different regions of the world. Covering all of the major topics and debates, this is an essential overview of the field, which will also encourage new and exciting directions for study.
