Passive income is becoming more popular by the day. However, many people still do not understand how beneficial it is. Believe it or not, making money in your sleep is not the biggest benefit. You will be getting an amount of money regularly, unlike with savings. It will be like getting a paycheck without actively working.

Experience Required! Earning a truly passive income is the end goal of the vast majority of internet marketers and you could very easily consider it to be an absolutely ideal situation in terms of finances and business. What is passive income? Simple: it means that you earn money without having to work. That doesn't mean you haven't worked for it though – it just means you've sewed your seeds so that you can profit long into the future. In other words, you invest some time and money into setting up a business model that is capable of 'running itself' and from then on, you reap the benefits. You might even continue to work on the business model in your spare time to scale it further, or to keep it going, but the point is that you don't have to actively trade your time for money any more. Once you have a passive business model, you can literally continue to earn money while you're sleeping. Working online increases your freedom to a great extent because it allows you to choose how and when you work. But if you're providing a service to a client, then that's still not true freedom. At the end of the day, if you take time off, you lose money. And you can still upset your clients and end up losing your means of income. But with passive income, you

really do get to experience true freedom. Now you can choose to take the entire day off, or to refrain from working for the next week even and there will be no repercussions.

Income is the consumption and saving opportunity gained by an entity within a specified timeframe, which is generally expressed in monetary terms.[1][2][3] For households and individuals, "income is the sum of all the wages, salaries, profits, interest payments, rents, and other forms of earnings received in a given period of time." [4] (also known as gross income). Net income is defined as the gross income minus taxes and other deductions (e.g., mandatory pension contributions), and is usually the basis to calculate how much income tax is owed.

1. EARNED (ACTIVE) INCOME

Definition: Earned income is money earned from working that requires your time. This is the income you receive from actively working. You work and you are paid for your work. Examples: Salary; wages; bonuses; contract work. **Tax implications:** Earned income is taxed higher than any other income, at a rate of 10%-35%, plus Medicare, Social Security, and other taxes, which can reach close to 50% based on tax calculators and estimators. **Characteristics:** It's hard to become wealthy solely from earned income for a few reasons. First, it's taxed at the highest rate, and second, there are only so many hours in the day for you to work (you can work and work and work, but if you have to be there to make the money, there's a cap on your income because time is limited). Another downside besides taxes is that once you stop working, the money stops coming in. On the upside, earned income is the easiest type of income to make. You can just go get a job or side job pretty easily in the US and make some money. This is why most people make money this way—it's easy to do. A great way to switch over into better types of income is to use earned income by putting it into a portfolio or to start

Online Library Passive Income 14 Ways To Make 5000 A Month In Passive Income Make Money Online Work From Home Passive Income Streams And More

a side hustle or business (this is what I did by starting a blog, which is now my full time business). 2. PORTFOLIO INCOME Definition: Portfolio income is money you receive from selling an investment for more than what you paid for it (portfolio income is also referred to as capital gains). Examples: 1) trading assets, like stocks, bonds, and mutual funds, 2) buy and selling real estate, and 3) buying and selling other assets, like a car. Tax implications: Portfolio income is taxed at 10%-20% for investments held over 12 months and taxed as earned income if held less than 12 months. However, portfolio income is not taxed for Medicare or Social Security. Capital gains can be offset by losses on other investments, which is a huge plus. Characteristics: One downside is that for the average person, investing can seem intimidating. This often keeps people away from doing it. It wasn't until I became a Certified Financial Planner that I really understood what was going on with respect to portfolio income. If you're just getting started with investing, read this post – 21 tips for investing in your 30's. Also, this type of income can take a long time to generate if you believe in many of the widely held investing concepts that require buying and holding for years. If you're a trader and attempt to do it much faster, you better be really good at it, because otherwise, it's sort of like gambling. You have to have money to invest upfront to create portfolio income. This is a huge reason why people say they don't invest. You can start with a small amount and contribute to your investments over time, but it requires you to have the capital to do it. If you want to get started with hiring someone to help you with your money, read this post on questions you should ask your financial advisor before hiring her. I like using investing as a supplemental income strategy. I don't want to retire, but I like the idea that I could if I ever change my mind or it became medically necessary. So, I save and invest as a bit of a safety net, but not as the end

Online Library Passive Income 14 Ways To Make 5000 A Month In Passive Income Make Money Online Work From Home Passive Income Streams And More

goal of retiring as soon as possible. I like contributing to the world through my work, and I also like creating a lot of income. I just don't ever tie my "hard work" or time to income generated. This way, I know my income potential is unlimited. 3. **PASSIVE INCOME** Definition: Passive income is money generated from assets you own, where you are not actively working. Examples: Rental income, business income (as long as it's not earned based on time and effort), creating/selling intellectual property (e.g.: books). Tax implications: Passive income receives the most favorable tax treatment. Characteristics: Passive income is thought to be the key to building wealth. Once you have an investment that generates recurring income, you don't have to do much to maintain it (so time is not a limitation). Typically, there isn't much start up cost to passive income that you have to provide yourself. For example, you can use your time to create a business or you can get funding from investors for your real estate properties or start up company. It's not as easy as earned income, but it's not as challenging as portfolio income (in terms of start up funds). It takes a lot of money to make a lot of portfolio income, whereas you can generate a lot of passive income with less. I started a blog with the idea of generating passive income (the Smart Passive Income podcast used to be on repeat!). It's one of the best things I ever did! **A FINAL NOTE!** Understanding how income works is important because it affects how you go about deciding what results you want with money in your future. Do you want to retire? Do you want financial independence early? Do you want to focus on contributing to the world through your work as an entrepreneur? Do you want money just to be a scorecard of the value you provide? Do you believe that "hard work" and time create money? (So many questions!) These are philosophical questions, but whatever you believe will drive your feelings, which will drive your actions, which will drive your results. So,

ultimately, your beliefs drive your results (you can read more about this in the 5 step framework to master your mindset post here). Based on what you choose to believe, you could end up financial independent and retiring very young and living off 4% of your investment portfolio, with frugal values, while traveling, and doing whatever else you want to experience the world while you're alive. Or, you could end up a multimillionaire focusing on serving the world through your work and never retiring. Completely different results. Both involve a lot of money. What you choose matters. What you believe about money matters. What you do matters. The three different types of income are a way of learning how to use money to your advantage to get the results you want most. This is the way our system works. The sooner you understand how money works, the sooner you can make better decisions that will help you achieve financial success (whatever that looks like to you).

I thought so, too, three years ago. The company I worked for was going

through a bad time, so I stayed home for a while and while looking for a new opportunity for my life, I happened to read an ad about online earning systems. I had NEVER been interested in this kind of thing, I found it false, out of my reach and I thought it was an ordinary way to attract customers. That statement, however, continued to flash in my mind, so that I began to inform myself. I had nothing to lose, I didn't have any money! Well, two months later, I generated my first 1,300 dollars through self-publishing. I couldn't believe it. I stayed home and made money. But what was even more absurd was that those earnings were passive: every month, the books I had published continued to generate passive income. So I decided to invest 80% of my earnings in training and investment: within two years I managed to climb many other online businesses (Dropshipping, Amazon FBA...), comfortably from home. Now I'm a digital entrepreneur, I work literally from all over the world with my MAC. Two to three hours a day is enough to guarantee me an income of 30,000 dollars a month, absolutely automatic on my checking accounts. That's all I need. So I wrote this step-by-step guide to get you into this wonderful world. In this book you will: find out that there are 22 ABSOLUTELY LEGAL profit systems for which you do not need to invest NO MONEY (page 14); find out why the businesses that I show you are so EASY to set up that even a 12-year-old would make it; find out why you don't need ANY EXPERIENCE on the world of online - In fact, if you don't have any it is even better; discover step-by-step EXACTLY what Self-publishing, Dropshipping, Social Media Marketing, Amazon FBA, Influencer Marketing, E-commerce, Blogging are and what is the best system for you depending on your budget; learn how to set your DIY Business FROM SCRATCH, even if you have very little time available; understand why 97% of people believe that, if you want to live comfortably, you have to work 10 hours a day and more;

understand why 97% of people are unsuccessful in life; understand that you can ABSOLUTELY be in the 3%. Wait!
