

# Pharmacology A Nursing Process Approach 7th Edition Test Bank

Corresponding to Kee's Pharmacology: A Patient-Centered Nursing Process Approach, 8th Edition, Pharmacology Online features a collection of self-paced learning modules that will enhance your understanding of nursing pharmacology for safe medication practice. Interactive activities make it easier to learn everything from basic principles to dosage calculation, drug administration, and more - all within context of the nursing process. Self-Study Modules, true-to-life case studies, videos, animations, interactive activities, care planning activities, and NCLEX® Examination-style quizzes help you understand how drugs work and how to administer them safely in the clinical setting. 20 Self-Study Modules provide a thorough review of the basic principles of pharmacology, drug dosage calculations, and several major drug content areas using text, animations, illustrations, integrated learning activities, and dynamic hyperlinks. 27 case studies with corresponding case study quizzes use true-to-life clinical scenarios to promote 'learning by doing' in the safety of a virtual clinical setting. Practice quizzes for the NCLEX® Examination consist of 10-15 NCLEX® Examination-style pharmacology questions in each chapter, with rationales and remediation (textbook page reference) provided for each. Interactive learning activities provide drill-and-practice review of critical drug content in game-like activities, and include flash cards. UNIQUE! 16

Roadside Assistance video clips feature nationally known pharmacologist and speaker Alan P. Agins, PhD, who presents core pharmacology concepts with humor and a uniquely memorable flair. 42 animations are integrated into the Self-Study Modules and available as a freestanding resource. 19 care planning activities each present a brief case scenario along with a care plan template for completion. Audio glossary includes both a definition and an audio pronunciation for more than 1,400 terms and drug names. Updated content matches the chapters in Kee's textbook, *Pharmacology: A Patient-Centered Nursing Process Approach*, 8th Edition, and reflects major new drug classes, major new drugs, major new therapeutic uses, and discontinued drugs.

Enhanced discussion questions ask you to apply content from the textbook and from directed literature searches to address true-to-life clinical situations like those you will encounter in practice. Updated! Online drug handbook provides hands-on practice in consulting a current drug reference.

Never HIGHLIGHT a Book Again Virtually all testable terms, concepts, persons, places, and events are included. Cram101 Textbook Outlines gives all of the outlines, highlights, notes for your textbook with optional online practice tests. Only Cram101 Outlines are Textbook Specific. Cram101 is NOT the Textbook.

Accompanys: 9780521673761

This student study guide contains a variety of exercises specifically designed to reinforce content presented in the textbook. Chapter worksheets feature more than 1,800 study questions, 160 drug calculation and dosage

## Read PDF Pharmacology A Nursing Process Approach 7th Edition Test Bank

problems, and case-based critical thinking exercises. Like the Kee text, the study guide features a strong nursing focus and comprehensive coverage of drug dosage calculations, including numerous sample drug labels. Over 1,800 study questions reinforce textbook concepts and prepare you for the NCLEX® examination. An extensive section of drug calculation problems helps you master important dosage calculation methods. Case-based critical thinking exercises enhance your understanding of nursing responsibilities in drug therapy. Sample drug labels familiarize you with the labels you will encounter in clinical practice. A basic math review appendix provides a helpful review of key mathematics concepts. Answers for all exercises are included to facilitate self-study. Thoroughly updated content corresponds to the Kee text, including a new chapter on medication safety. Additional NCLEX® examination-style review questions reflect an increased focus on alternate item-format questions. Approximately 100 new prioritization activities provide practice in identifying key nursing actions.

Get the pharmacology guidance proven to help aspiring nurses succeed on the NCLEX and later as a professional nurse. Using a streamlined prototype approach, an emphasis on nursing care, plus a wealth of other trademark features, *Pharmacology: A Patient-Centered Nursing Process Approach, 10th Edition* makes it easy for you to really understand pharmacology. Prototype drug charts summarize the need-to-know information about key drugs, including dosage, side effects, interactions, and more. Images of

current drug package labels reinforce your understanding of text content using relevant, true-to-life learning. Bulleted nursing process summaries relate nursing care to drug therapy in addition to highlighting patient teaching, patient safety, and relevant cultural content. Finally, the unique and thorough drug calculations section features math review as well as step-by-step instructions for drug calculations using the four general methods of dosage calculation. All in all this text has all the tools you need to better understand the complicated subject of pharmacology. UNIQUE! Prototype drug charts provide easy access to key information for representative drugs, including dosages, contraindications, drug-lab-food interactions, pharmacokinetics, and more. UNIQUE! Extensive chapter on drug calculations presents six methods of dosage calculation, providing a helpful review and supplement to a dosage calculations textbook. UNIQUE! Nursing process summaries highlight important nursing considerations within the framework of the nursing process. Consistent RN-standard chapter pedagogy includes: online learning resources on the companion Evolve website, objectives, and outline. Critical thinking case studies challenge you to apply your knowledge and analytical skills to realistic patient scenarios. Answer guidelines are provided on the Evolve website. Application-level NCLEX study questions include at least one alternate-format question included per chapter. Chapter on safety and quality discusses medication errors, specific nursing measures to promote safety, National Patient Safety Goals, and many other safety
