"Two primary components present in Clinical Management Notes and Case Histories in Cardiopulmonary Physical Therapy are notes on cardiopulmonary assessment and management, and case histories involving respiratory and cardiovascular conditions commonly viewed by physical therapists. Accompanying the notes are thought-provoking questions and problems that enable the reader to establish a foundation of core concepts. The presentation of case histories further facilitates the development of integral skills and enables the reader to integrate those core concepts into a clinical setting. Also, question and answer guides accompany the patient profiles."--BOOK JACKET.
