

Planning Derbyshire Dales District Council

By using extensive case studies drawn from across local councils in England, Ray Tomkinson explains the implications of sharing service delivery, addresses concerns about loss of control and accountability, and demonstrates the potential advantages. He shows how to set up collaborative ventures, formal partnerships, shared service centres or special purpose vehicles, while pointing out possible pitfalls, thus enabling senior managers to follow all the necessary project steps to create an appropriate shared service. Welsh Planning Law and Practice provides a comprehensive guide to the sources and structure of Welsh planning law and a route through its complexity. This is not a comparative study, but rather deals with legislation and policy affecting land in Wales, placing them in the context of shared principles and concepts and the case law common to England and Wales. More than an academic exercise, planning is a practical matter affecting important aspects of daily life, and the desirability of public engagement in the planning process is well settled. This book contributes to the promotion of recognition of the body of Welsh planning law, to aid accessibility for all who practise in or who are (or want to be) involved in shaping development in Wales.
