Culinary Landmarks is a definitive history and bibliography of Canadian cookbooks from the beginning, when *La cuisinière bourgeoise* was published in Quebec City in 1825, to the mid-twentieth century. Over the course of more than ten years Elizabeth Driver researched every cookbook published within the borders of present-day Canada, whether a locally authored text or a Canadian edition of a foreign work. Every type of recipe collection is included, from trade publishers' bestsellers and advertising cookbooks, to home economics textbooks and fund-raisers from church women's groups. The entries for over 2,200 individual titles are arranged chronologically by their province or territory of publication, revealing cooking and dining customs in each part of the country over 125 years. Full bibliographical descriptions of first and subsequent editions are augmented by author biographies and corporate histories of the food producers and kitchen-equipment manufacturers, who often published the books. Driver's excellent general introduction sets out the evolution of the cookbook genre in Canada, while brief introductions for each province identify regional differences in developments and trends. Four indexes and a 'Chronology of Canadian Cookbook History' provide other points of access to the wealth of material in this impressive reference book.

Differentiated instruction is a nice idea, but what happens when it comes to assessing and grading students? What's both fair and leads to real student learning? An internationally recognized expert on grading practices, Rick Wormeli first examined these questions 10 years ago in the first edition of Fair Isn't Always Equal. In this thoroughly updated second edition, Rick provides a catalyst for serious reflection on current grading and assessment practices in differentiated classrooms. Coherent and effective standards-based grading practices for a high-stakes, accountability-focused world is also outlined. Recognizing the importance of

having a shared school vision for assessment and grading, Rick addresses the challenges for teachers and administrators alike. Middle- and high-school educators will easily recognize real examples and gray areas of grading. Rick tackles important and sometimes controversial assessment and grading issues constructively, incorporating modern pedagogy and the challenges of working with diverse groups of students. New sections address sports eligibility, honor roll, descriptive feedback techniques, and gifted/talented students, and chapters on test questions, redos/retakes, grading scales, and grading effort and behavior have been revised extensively. This important book clearly explains the principles behind best grading practices so that you're ready for all grading questions or scenarios that you may encounter in your classrooms and schools.

This book attempts to list every place in the United States and Territories where soldiers, sailors, or marines might have been stationed during the First World War. The reason for such a list is to provide source locations and checklists for postal history (letters and cards) from these military men. The book lists all fixed, land-based United States military camps and facilities that operated during the War period. There has long been a need for such a listing, as it was not known where military mail could have originated within the US.

American women's suffrage activists were fascinated with suffrage themed postcards. They collected them, exchanged them, wrote about them, used them as fundraisers and organized "postcard day" campaigns. The cards they produced were imaginative and ideological, advancing arguments for the enfranchisement of women and responding to antisuffrage broadsides. Commercial publishers were also interested in suffrage cards, recognizing their profit potential. Their products, though, were reactive rather than proactive, conveying stereotypes they assumed reflected public attitudes—often negative—towards the movement. Cataloging approximately 700 examples, this study examines the "visual rhetoric" of suffrage postcards in the context of the movement itself and as part of the general history of postcards.
