"This book provides a practical and comprehensive forum for exchanging research ideas and down-to-earth practices which bridge the social and technical gap within organizations and society at large"--Provided by publisher.

This authoritative and comprehensive Handbook showcases the nature and benefits of a new wave in entrepreneurship education emerging as a result of revised academic programs developed to reflect new forms of entrepreneurship. The new paradigm of entrepreneurship education is explored, whilst traditional schooling in the field becomes the subject of reflection and revision. Distinctive material on the specific content of entrepreneurship education is also provided.

This book presents some of Zoltán J. Ács' most important contributions since the turn of the new millennium, with a particular intellectual focus on knowledge spillover entrepreneurship. It studies the evolution of global entrepreneurship and pays attention to the role of institutions and the incentives they create for economic agents who become either productive or unproductive entrepreneurs. For productive entrepreneurs, those that create wealth for themselves and for society, the author offers a knowledge spillover theory of entrepreneurship as a new way to help understand the entrepreneurial ecosystem. For those that create wealth only for themselves the author develops a theory of destructive entrepreneurship that undermines the entrepreneurial ecosystem. The book also presents an explanation of the role of philanthropy in reconstituting wealth to complete the circuits of capital in the theory of capitalist development. Finally, the author examines several public policy issues including immigration and technology transfer. This volume will be required reading for students and scholars of entrepreneurship, economics and public policy.

The objective with the Strategic Interest Group in Entrepreneurship (SIG Entrepreneurship) of the European Academy of Management (EURAM) is to be the leading research community for engaged entrepreneurship scholars in Europe. The SIG Entrepreneurship aims at promoting research and networking interests for individuals and research groups focused on entrepreneurship and entrepreneurial styles of management. This is done by providing a wide-ranging, engaged and internationally-focused forum to discuss and develop research and practice in the field. We put a distinct focus on the key European feature – 'context matter' – why we try in all activities to promote and stimulate what 'European' might mean in any given context. It means different things in different contexts – and that is the whole point – and thereby the key strength of the European takes on the matter as we see it. This is our idea of the European perspective on entrepreneurship. The tradition of European scholars on entrepreneurship and SMEs system has been consolidated during the last three decades and an increasingly distinct European school of thought has emerged as a consequence. This development provides a solid base for the future development of the field where Europe and its entrepreneurship scholars will play an increasingly prominent role. With this concern, this book has been managed, gathering the best contributions of our annual meeting re-edited and improved. The central theme is presenting entrepreneurship understood as a working attitude, a mode of thinking, a concrete everyday practice and increasingly an identity marker for ways of being and living within liquid modernity. Entrepreneurship is nowadays a broadly endorsed and accepted signifier for forms of organizing that targets human, organizational and economic renewal and growth.

?This book presents the reader a comprehensive understanding of the development of family business in transitional economies. Throughout eastern Europe, post-Communist countries transitioning to market-based economies are obtaining a variety of results due to diverse policy approaches. Expert contributions in this book draw from a wealth of information in this context and include thought-provoking policy prescriptions for the future. This book concentrates on the challenges to predict the direction emerging markets will take, particularly when dealing with the wide-ranging social and economic situations taking place in post-Communist Eastern Europe. This reference volume for policymakers, educators, investors, and researchers also provides a much-needed and timely survey of family firms in the transitioning markets of post-Communist Europe.

Measuring Entrepreneurial Businesses: Current Knowledge and Challenges brings together and unprecedented group of economists, data providers, and data analysts to discuss research on the state of entrepreneurship and to address the challenges in understanding this dynamic part of the economy. Each chapter addresses the challenges of measuring entrepreneurship and how entrepreneurial firms contribute to economies and standards of living. The book also investigates heterogeneity in entrepreneurs, challenges experienced by entrepreneurs over time, and how much less we know than we think about entrepreneurship given data limitations. This volume will be a groundbreaking first serious look into entrepreneurship in the NBER's Income and Wealth series.
