Tired of the 9-to-5 grind and want a way to earn or to supplement your income? Easy. The media has named the growing trend toward micro-entrepreneurship "the Rise of the Creative Class," "the Gig Life," or "the freelance economy." All of those refer to the nearly 4 million workers who were self-employed this past year, and millions of others who currently supplement their income with freelance work. While the trend has been spotted before, there's one stark difference between micro-entrepreneurs today and the "Free Agent Nation" citizens of the late '90s: technology. Micro-Entrepreneurship For Dummies shows you how to navigate this confusing technological landscape in order to make a contributable profit. Micro-Entrepreneurship For Dummies aids you in making the best use of micro-entrepreneurial platforms, with helpful advice that includes information on signing up for and selling products on websites such as Airbnb, Craigslist, Taskrabbit, Uber, and Etsy. Micro-enterprise, using online platforms to sell products or services, is a proven way to earn extra money and supplement household income. In today's struggling economy, the importance of self-run businesses and small enterprise is growing as more people take lower-paying jobs and need a little extra spending money. Shows you how to sign up for and sell products online. Micro-Entrepreneurship For Dummies appeals to anyone looking to earn or supplement their income from home.

**About Me:** I am Corey Frankosky and I have 5 years of experience with SEO, affiliate marketing, and blogging. A year ago, I graduated from college with a degree in Information Systems and decided to go for my MBA. In August of 2013, I graduated from college with my Masters in Business Administration. **About this book:** This book is helpful for internet marketing, affiliate marketing, and Clickbank success. One of the most important things to keep in mind is that this book is helpful whether you are promoting Clickbank, Commission Junction, Amazon, Clicksure, JVZoo, or even Linkshare products. While much of the early detail involves Clickbank, the promotion methods I describe can be translated to any type of affiliate product. My goal is literally to teach you how to make money online, and I give you some ideas that have worked for me and still continue to work for me. **What is Clickbank:** Clickbank is an affiliate network where product creators (vendors) and affiliate marketers (publishers) come together to earn a profit online. Vendors release various products in many different niches so publishers can promote those products. A commission is paid out for every sale that an affiliate marketer makes. I will also go through Clickbank and teach you how to pick out products and promote them. In addition, I give you some best practices that I typically follow. Finally, I leave you with the biggest mistake I made in the conclusion. This was a mistake that cost me about a year of hard work and effort. **Who this book is for:** This book is written for the beginning affiliate marketer all the way to someone with years of experience. If you have a blog and you are struggling to get website traffic, then this book can be helpful for you too. It would also be beneficial for anyone who is trying to build an email list because the promotion methods would apply.

Affiliate marketing programs has never been as popular before as it is today. Why? There can be a number of reasons. Today, both the merchants and the affiliates can see clearly that affiliate marketing can work for both of them. The merchant sees affiliate marketing today as the chance to advertise their products at a lower cost. The affiliates, on the other hand, sees affiliate marketing as an easy way of earning profits online by doing what they like most, and that is by creating websites. Just as the popularity of affiliate marketing has shifted into greater heights, so has the people's outlook about it changed.
