Do you have enough for retirement? Do you want an Investment method that comes with absolutely zero headaches? How does 'making money on auto pilot' sound to you? If you want any of these then you need this book and the best part is that in this book, I'll tell you how to get started with almost nothing! Financial planners usually use the "25 Times Rule" to determine how much a portfolio should be worth for someone to safely retire. If you need \$50,000 a year to live on when you retire, then, using the "25 Times Rule" you should have \$1,250,000 in stocks, bonds and mutual funds in order to retire. If you retire at 65, you better hope you don't live past 90 or you'll be broke. Compared to investors who rely on the stock market to accumulate assets for their

retirement, real estate investments take a different approach. If you accumulate \$2,800,000 in income-producing real estate it will pay \$50,000 a year in income and continue to appreciate in value over the years, not only covering you indefinitely but also leaving you something to pass on to your children. Here's the interesting part, it only takes \$700,000 in investment capital to accumulate \$2,800,000 in real estate assets. By comparison, it takes about \$900,000 in stock investments to achieve a \$50,000 per year annual income, assuming that during 30 years of investing both types of investments yield a 4 percent return. There is one final advantage to a residential real estate investment and that it is understandable and easy for most everyone. It's easy to purchase, it's easy to finance and there are no insurmountable financial barriers to enter. It's easy for most investors to improve their properties and it's easy to use the tax advantages. While Wall Street is becoming more and more of a mystery and becoming the game of financiers, real estate investing is looking better and better for average Americans. America is moving away from a home ownership society and towards a "rentership" society. It is a great time for investors to snap up distressed single-family homes and turn them into long-term rental units. What's Inside this book? Best market to focus on for your portfolio How to Raise money for your First Purchase Even if you're broke How to Analyze deals and bid like a Champ How to Analyze any Rental Market and Know if its Profitable How to Spot Low Cost Properties that will make you a Fortune And many more!!!!
